in this groundbreaking study michael cosby uncovers the unknown history of the transformation of the apostle barnabas from a peacemaker to a warrior saint modern cyriot beliefs about barnabas diverge significantly from the new testament depiction of the man as a leader involved in creative solutions to ethnic conflicts in the early church over the centuries he morphed into a symbol of greek cyriot nationalism bequeathing his power to the archbishop in nicosia this modern mythical st barnabas resulted from a complicated blend of religious and political maneuvering at key points in the history of cyprus orthodox clergy made a consensus builder complicit in the ongoing strife between greek cyriots and turkish cyriots cosby s thought provoking book challenges readers to ponder their own beliefs to sort through what is history and what is legend creation how we are here not just us of course but bluetits and hereford cattle and cabbages and e coli and deserts and mountains and suns and nebulae in fact all that is so not only why are we here but why is there a here for us to inhabit that is this book s theme inevitably it doesn t answer the question in a mechanistic sense a telescope cannot look at itself and neither can an inhabitant of the universe say how it came to be but that does not stop those questions haunting us so where shall we turn to cosmology the concept of an initial event a big bang is now almost universally accepted but what caused that most would feel that this is not a question science can answer the first two contributors to this book are professional cosmologists yet cosmology is only a background for this book not its core theme that theme is the conviction that the universe owes its existence to a divine creator and the specific formulations of this conviction in the three great monotheistic religions the abrahamic faiths the scriptures of all three faiths include the creation accounts in the first two chapters of genesis later developments moved the expressions of the three faiths considerably apart but the social and political conditions of the 21st c world make it imperative that every effort should be put into a recovery of understanding between their practitioners the purpose of this book is to contribute to that understanding of thirteen chapters two are by jewish authors and three by moslems several of the christian authors also are deeply versed in the other traditions together the chapters show that the attitudes of the three faiths to creation have far more in common than otherwise in particular they are noticeably and encouragingly coming together in their endorsements of 21st c concerns for the environment the book derives from a conference of the science and religion forum in sept 2006 but all chapters have been rewritten for publication and carefully edited with linking commentaries sites quraninenglish net presentationofislamandquran com youtube com playlist list plzupsekjlgmngvgeosgynvrbj16gh438 the religion of islam is as the meaning the religion that strengthens people the set of principles that keep people away from the things like problems sorrows wars weaknesses spiritual illnesses unhappiness and similar things and that ensure safety and security the religion of islam taught in the qur an in fact distances people and societies from problems fears unhappiness quarrels wars and similar negative things all the principles in the qur an are for the health happiness and peaceful living of humanity the name of the religion that allah sent with adam noah abraham moses jesus and muhammad is Islam the only source of the religion of Islam is the qur an some people and communities known as muslims on earth adopted the views and understandings of some others as a religion by leaving the original messages of the qur an hence intolerable problems among themselves and in their relations with non muslims have emerged and still continue to emerge islam expounded by the qur an is very different from what it appears particularly what the non muslims see on those people who claim to be muslims when you read the english interpretation of the qur an which is the source the religion of Islam you will know the qur an and the religion of Islam more closely understanding the dimensions and mechanics of the bible is far crucial in understanding of the bible itself fresh and new revelations will be like links on the chain when you read the bible from cover to cover with this very nature in mind bible is no different to the concept of a jigsaw puzzle all the individual 66 books and epistles that sum up the bible are incomplete in its individuality you can find that missing jigsaw piece nowhere but within the vicinity of the bible itself for instance genesis without the other 65 books and epistles is incomplete and so forth oracles in the bible are scattered and blended with other testimonial experience so that an ordinary mind will look but shall not see and listen but cannot hear the pharisees high priests and the jewish authorities opposed and rejected jesus for their lack of awareness about the dynamics of the bible you are very blessed for discovering this golden secret about the divinity of the bible moreover the bible is an encyclopedia of its own having answers to its own questions and all the questions mankind can ever think of in other words bible itself is the absolute and divine meaning of completion lacking nothing in it is

fullness of life health wealth prosperity authority and power without lack of any kind for it is a piece of god s mind and heart constrained to mankind s calling and thinking cap in god is fullness of life so shall be it for his inspired book of all times the holy bible the story dividing his play into three questions on the human dilemma the author begins with a charming and gently humorous retelling of adam and eve and god in the garden of eden after their expulsion from paradise eve gives birth to cain the patristic understanding of creation encapsulates what the church fathers had to say in their own words on the topic of creation going back to roman and byzantine times the writings of the church fathers are basic to christian theology and provide a benchmark for how christians have traditionally understood creation this understanding of creation however faces tremendous challenges in our day especially in discussions at the intersection of science and religion process theology and other efforts to reconceptualize creation have explicitly opposed key elements of the christian doctrine of creation creation ex nihilo the transcendence and immanence of god in creation the absolute creatureliness and non self sufficiency of the world to use a phrase of fr georges florovsky the goodness of creation and the openness of the world to divine action all of these the church fathers not only held but also ably defended this anthology is therefore not merely of academic or historical interest in reasserting a theologically sound understanding of creation this anthology fills a need that is both practical and urgent
