in deceit on the road to war john m schuessler examines how u s presidents have deceived the american public about fundamental decisions of war and peace deception has been deliberate he suggests as presidents have sought to shift blame for war onto others in some cases and oversell its benefits in others such deceit is a natural outgrowth of the democratic process in schuessler s view because elected leaders have powerful incentives to maximize domestic support for war and retain considerable ability to manipulate domestic audiences they can exploit information and propaganda advantages to frame issues in misleading ways cherry pick supporting evidence suppress damaging revelations and otherwise skew the public debate to their benefit these tactics are particularly effective before the outbreak of war when the information gap between leaders and the public is greatest when resorting to deception leaders take a calculated risk that the outcome of war will be favorable expecting the public to adopt a forgiving attitude after victory is secured the three cases featured in the book franklin roosevelt and world war ii lyndon johnson and the vietnam war and george w bush and the iraq war test these claims schuessler concludes that democracies are not as constrained in their ability to go to war as we might believe and that deception cannot be ruled out in all cases as contrary to the national interest

adherents of the pre-trib claim that god will not allow the church suffers in the

period known as the great tribulation but does god s word really teaches that there will be a secret rapture seven years before the great tribulation for jesus clearly states in matthew 24 31 and the apostle paul in 1 thessalonians 4 16 17 confirms that there is nothing secret and silent in his second coming another incongruity of this view is the idea of a rapture to take the church and the holy spirit before the earth before the antichrist manifestation if this were the case the antichrist would be anti what a reductionism of the mission of the church and of the holy spirit and to promote escapism and alienation hurts the good sense christians of the generation of christ s return are better of the early christians no absolutely not in this book the author exposes the true teaching of scripture on this subject starting with the teaching of jesus and his apostles warned that the church of all times that it would pass through many tribulations including the so called great tribulation therefore you reader who sticks to the pre trib position or you reader who does not adhere to any eschatological position of christ s return i invite you to read this book reflect and analyze for yourself as the bereans did at the time of apostle paul and thus convince the dangerous path wide and spacious pre trib teaching which is apostasy deviation from sound apostolic doctrine and walk according to the teaching of the lord jesus which was confirmed by his apostles and is defended by over 1800 years in the history of the church and also for all those who are and who truly love the tour of his lord and savior jesus christ
