it is my pleasure to write the preface for information processing and management this book aims to bring together innovative results and new research trends in information processing computer science and management engineering if an information processing system is able to perform useful actions for an objective in a given

domain it is because the system knows something about that domain the more knowledge it has the more useful it can be to its users without that knowledge the system itself is useless in the information systems field there is conceptual modeling for the activity that elicits and describes the general knowledge a particular information system needs to know the main objective of conceptual modeling is to obtain that description which is called a conceptual schema conceptual schemas are written in languages called conceptual modeling languages conceptual modeling is an important part of requirements engineering the first and most important phase in the development of an information system
