series produced by various senior commanders who had served in the u s army during the vietnam war each officer was chosen for their knowledge of the number of specialized subjects that were covered by the series the challenge facing the general mcchristian in 1965 was exceptionally daunting as deputy head of general westmoreland s intelligence section his orders were clear he was told that he must find the enemy a daunting task in a country filled with insurgents uniformed enemy using other countries to move toward their targets double agents spies and a south vietnamese intelligence service to be integrated into his plans as he himself put it i knew that finding the enemy was only part of the challenge our soldiers would have to fix and fight him they would need to know enemy strength capabilities and vulnerabilities as well as information on the weather and terrain such intelligence had to be timely accurate adequate and usable it was to be my job to build an organization to meet that challenge it is remarkable that he achieved a good measure of success in his task in only two years in a country with so many endemic issues and even more so that he was able to distil his story and of his department in to this detailed but very readable exposition of the intelligence services in vietnam a complex and engaging study of a very difficult job done well if you re a student hoping to excel at university this inexpensive how to guide is just what you need from selecting a university and orientation to graduation day the volume covers not only the basics but also provides unique insight every successful student needs to know aimed at students worldwide this book reveals the secrets to university success written by a professor with extensive experience teaching at several universities world wide and a recent graduate who was awarded multiple scholarships the special insight and guidance in this volume cannot be matched the self help guide takes students from the challenges of first year through to their successful graduation it contains all of the information needed for academic success attending lectures taking effective notes step by step approaches to studying and learning preparing for and writing tests exams guidance for tackling every type of test question strategies for effective listening writing reports essays advice on academic problems and how to deal with them effectively this book is loaded with professional advice to enhance the learning experience it includes interesting true stories and information from the latest international research on teaching and learning along with the university calendar and required textbooks this is the only guide a student will need to reach his or her full potential follow this guide to academic achievement and be proud of your degree competition science vision monthly magazine is published by pratiyogita darpan group in india and is one of the best science monthly magazines available for
