2002

every catholic teen will be evangelized in the coming year that is a fact the question is this who will evangelize our teens and to what will they be converted ironically most evangelization is being done not by the church but

by contemporary american culture a variety of voices are vying for the attention and allegiance of our youth many of those voices often electronically piped into our unsuspecting households proclaim relevantly creatively and persuasively a message contrary to our catholic faith yet the church possesses a message that addresses the most significant hunger of every teen s heart we have exactly what young people are searching for we struggle however in constructing an environment that teens find attractive and we often fail to proclaim the gospel in a creative and culturally relevant manner make it real a practical resource for teen friendly evangelization is all about building evangelistic ministry that not only is worth teens time but also addresses the issues that are real in their lives this book provides fresh clear and test driven principles for building an effective and teen friendly ministry for evangelistic outreach the fully designed sessions help the busy youth worker implement dynamic and spiritually powerful evangelistic gatherings
