conscious is a deeply human approach to personal change our world is changing faster than our ability to adapt ambushed by speed complexity and uncertainty many of us are unprepared for this acceleration we act on autopilot as new challenges confront us we are too reactive to problems and miss out on opportunities we get hijacked by conflicting values and polarizing relationships we face uncertainty with fear and mistrust stress and burnout are pervasive as many of us do not perform up to our potential organizations are not adapting well either seventy percent of change efforts fail slow execution unrealized growth unhealthy cultures and obsession with short term results undermine long term success inside communities there is more tension diminishing trust in our institutions and a growing inability to solve our most complex social problems the primary culprit for these maladies is our lack of awareness let s face it our current approach to change is running out of steam and the cost of unaware people is too high to pay in this age of acceleration we need a fresh approach to living and leading conscious is our wake up call to be aware awake and accountable nothing is more important than understanding ourselves our relationships and our surroundings being conscious helps us think deeper learn faster and collaborate better the more conscious we are the faster we adapt and the higher performing we become conscious is the new smart as one of the premier global experts on leadership and transformation bob rosen and healthy companies have revealed a profound truth about modern day change the most successful people at all levels of society follow four powerful practices of being conscious go deep discover your inner self think big see a world of possibilities get real be honest and intentional step up act boldly and responsibly conscious is your personal roadmap through transformation helping you adapt and accelerate into the future to create sustainable change for yourself and your business why not be the one with your head lights on while others are driving in the dark 14

efforts to improve food security in the developing world have been hampered due to myths surrounding gm agriculture this book explores the theory evidence and rhetoric of the impact of food production on the environment and the impact of the environment on food production the chapters address food security and technology expertise and opportunism the promise of technology the politicization of risk industrial agriculture the meaning of natural the potential of the local food movement food labelling genetic diversity in the agro industrial era sustainability and chemical application plant vitality and future prospects for food security each chapter includes a personal introduction from the authors about the issues at hand followed by a detailed analysis with further references the book considers the origins of concerns and then examines the evidence around the issues and the impacts in terms of policy regulation and agricultural practice it also a refutes common consumer and environmental organization myths about biotechnology b highlights the importance of food security in both the developing and developed world c provides a pro science approach to increasing food security this book will be of interest to students and researchers in biotechnology food security and public understanding of science and also to policy makers regulators and industry managers the announcement of a health and human services hhs rule requiring insurance providers to cover the costs of contraception as part of the affordable care act sparked widespread political controversy how did something that millions of american women use regularly become such a fraught political issue in the politics of the pill rachel vansickle ward and kevin wallsten explore how gender has shaped contemporary debates over contraception policy in the u s within historical context they examine the impact that women and perceptions of gender roles had on media coverage public opinion policy formation and legal interpretations from the deliberation of the affordable care act in 2009 to the more recent supreme court rulings in burwell v hobby lobby stores inc and zubic v burwell their central argument is that representation matters who had a voice significantly impacted policy attitudes deliberation and outcomes while women s participation in the debate over birth control was limited by a lack of gender parity across institutions women nevertheless shaped policy making on birth control in myriad and interconnected ways combining detailed analyses of media coverage and legislative records with data from public opinion surveys survey experiments elite interviews and

congressional testimony the politics of the pill tells a broader story of how gender matters in american politics

in this timely collection teacher scholars of the long eighteenth century a eurocentric time frame from about 1680 to 1832 consider what teaching means in this historical moment one of attacks on education a global contagion and a reckoning with centuries of trauma experienced by black indigenous and immigrant peoples taking up this challenge each essay highlights the intellectual labor of the classroom linking textual and cultural materials that fascinate us as researchers with pedagogical approaches that engage contemporary students some essays offer practical models for teaching through editing sensory experience dialogue or collaborative projects others reframe familiar texts and topics through contemporary approaches such as the health humanities disability studies and decolonial teaching throughout authors reflect on what it is that we do when we teach how our pedagogies can be more meaningful more impactful and more relevant published by bucknell university press distributed worldwide by rutgers university press

bringing together leading scholars this volume is the first of its kind to address the growing global phenomenon of transnational repression in a comparative perspective authoritarian regimes in places like china russia and saudi arabia are infamous for cracking down on domestic opposition movements and democracy activists at home and in our age of globalisation migration and technological development dictators are increasingly able to extend their authoritarian power over their critics abroad using tactics that include surveillance coercion harassment and physical violence transnational repression threatens the lives of democracy defenders the basic rights of diaspora members and the rule of law in host states across a range of institutional settings practitioners and professionals are eliciting and capturing spoken talk from clients sarangi 1998 transcribing that talk and later repurposing the transcripts in place of the original interaction this research topic seeks both to shed light on this often overlooked institutional process and to encourage further linguistic input into this area of professional practice transcription is almost always an institutional practice park bucholtz 2009 providing a written record of spoken interaction to be used by another party at a later date in another setting or context there are a number of underappreciated features and consequences of this transformational process which we hope this research topic will expose and examine

3000 diabetes drug notes diabetes is becoming more common in both older and younger generations and in keeping with this escalation in cases there are an ever increasing number of drugs and drug classes that are suitable to treat hyperglycaemia in a unique blend of diabetes practice clinical pharmacology and cardiovascular medicine diabetes drug notes describes the principles of clinical pharmacology with regards to diabetes prescribing each drug class for the treatment of diabetes is covered in detail along with the effect on the cardiovascular and renal systems caused by each drug building upon the success of their drug notes series for practical diabetes and their drugs for diabetes series in the british journal of cardiology the team of experts focuses on the glycaemic management of type 1 and type 2 diabetes with other effects of antidiabetic drugs covered as well diabetes drug notes also includes comprehensive and up to date coverage of the drugs for the glycaemic management of patients with type 1 or type 2 diabetes expert reflection on prescribing considerations for special groups as well as common pitfalls in prescribing detailed case histories to illustrate relevant information summaries of recent guidelines related to diabetic intervention diabetes drug notes is a user

friendly guide for a general diabetes medical nursing and pharmacology readership as well as those who support them st edmund s church in the beautiful village of warkton northamptonshire is an unassuming place but it holds some of the most exquisite sculptures in all of britain commissioned by the local montagu family these four baroque marble statues commemorate the lives of four of their members two of the statues were created by louis francois roubiliac one of the greatest sculptors of georgian england adorned with related poems by schoolchildren and other locals this illustrated guide explains the history of st edmund s church the montagu family and the monuments they erected between the 1750s and 1830s it also details their painstaking restoration in recent years and the role of the church in the community
