Great Debates in Contract Law 2020-04-02

essays addressing a variety of issues in the theory and practice of contract law

The Modern Law of Contract 2017-07-14

declared dead some twenty five years ago the idea of freedom of contract has enjoyed a remarkable intellectual revival in the fall and rise of freedom of contract leading scholars in the fields of contract law and law and economics analyze the new interest in bargaining freedom the 1970s was a decade of regulatory triumphalism in north america marked by a surge in consumer securities and environmental regulation legal scholars predicted the death of contract and its replacement by regulation and reliance based theories of liability instead we have witnessed the reemergence of free bargaining norms this revival can be attributed to the rise of law and economics which laid bare the intellectual failure of anticontractarian theories scholars in this school note that consumers are not as helpless as they have been made out to be and that intrusive legal rules meant ostensibly to help them often leave them worse off contract law principles have also been very robust in areas far afield from traditional contract law and the essays in this volume consider how free bargaining rights might reasonably be extended in tort property land use planning bankruptcy and divorce and family law this book will be of particular interest to legal scholars and specialists in contract law economics and public policy planners will also be challenged by its novel arguments contributors gregory s alexander margaret f brinig f h buckley robert cooter steven j eagle robert c ellickson richard a epstein william a fischel michael klausner bruce h kobayashi geoffrey p miller timothy j muris robert h nelson eric a posner robert k rasmussen larry e ribstein roberta romano paul h rubin alan schwartz elizabeth s scott robert e scott michael j trebilcock

Contract Law in Perspective 2004

the seventh edition casebook has several distinct aims those who prefer to emphasize the centrality of remedies and the economic orientation that implies will find the new order of chapters congenial those who cannot imagine not starting with a discussion of the concept of bargain or even offer and acceptance will find that they do not need to rip the book apart to do so new teachers who are likely to view the experience of teaching contracts very differently at the end of the semester need not worry about conducting major surgery to change their approach the next year the book is constructed out of relatively brief interchangeable and free standing blocks at the same time the authors continue to avoid the temptation to edit cases heavily it remains very important to present a judicial opinion that discloses the judge s process of decision and enough of the reasoning underlying the conclusion for students to appreciate the decision making process it appears that most students and teachers prefer newer cases and up to date issues for examination the authors have sadly bid farewell to a number of old friends that have been replaced by more contemporary cases these new cases present students with relevant issues stated in a currently recognizable voice

Contract Law 2000

derived from the renowned multi volume international encyclopaedia of laws this practical analysis of the law of contracts in greece covers every aspect of the subject definition and classification of contracts contractual liability relation to the law of property good faith burden of proof defects penalty clauses arbitration clauses remedies in case of non performance damages power of attorney and much more lawyers who handle transnational contracts will appreciate the explanation of fundamental differences in terminology application and procedure from one legal system to another as well as the international aspects of contract law throughout the book the treatment emphasizes drafting considerations an introduction in which contracts are defined and contrasted to torts quasi contracts
2023-04-02

and property is followed by a discussion of the concepts of consideration or cause and other underlying principles of the formation of contract subsequent chapters cover the doctrines of relative effect termination of contract and remedies for non performance the second part of the book recognizing the need to categorize an agreement as a specific contract in order to determine the rules which apply to it describes the nature of agency sale lease building contracts and other types of contract facts are presented in such a way that readers who are unfamiliar with specific terms and concepts in varying contexts will fully grasp their meaning and significance its succinct yet scholarly nature as well as the practical quality of the information it provides make this book a valuable time saving tool for business and legal professionals alike lawyers representing parties with interests in greece will welcome this very useful guide and academics and researchers will appreciate its value in the study of comparative contract law
