this book can be highly recommended to corporate directors executives managers and interested academics at the same time however i think it should also be on the reading list of every politician involved in rethinking the regulations of the economic system in these times of social ecological and financial crisis frederic ghyssels ethical perspectives this is an interesting and thought provoking study that deals with a relatively neglected area of corporate and personal leadership this book makes a significant contribution to recognising the emerging social and moral responsibilities of the individual leader at board level the case studies used to support the author's argument are extremely detailed and would certainly be of interest to those on corporate boards and directors of organisations who maybe seeking answers to lessons learned and the author makes a clear recommendation regarding the teaching of virtuous values to corporate leaders trevor k horne leadership matters corporate governance and ethics is an illuminating and practical reading of aristotle's politics for today's corporate directors with a deft synthesis of ethics economics and politics alejo sison elevates the discussion of corporate governance out of the realm of abstract rules and structures into a more effective form of aristotelian politics he argues that corporate governance is a human practice where subjective ethical conditions outweigh the mastery of techniques since the firm is not a mere production function but above all a community of workers corporate governance issues are discussed in a holistic fashion using international case studies to embed the discussion in environments defined by their economic legal and cultural systems one of the author's key messages is that reform starts with the ethical and political education of directors alejo sison uses an integrative approach to corporate governance that incorporates ethical political considerations with the economic and legal dimensions of issues he backs his theoretical claims with a series of case histories including fiat from italy cheung kong holdings and whampoa limited from china banco popular from spain and united airlines from the us he provides a special focus on the education of corporate directors in accordance with the principles of aristotle's politics this accessible book will appeal to corporate directors executives and managers academics and students with an interest in corporate governance leadership and ethics corporate citizenship and corporate social responsibility and modern readers of aristotle's virtue theory and politics in relation to business ethics

Corporate Governance and Ethics

2010-01-01

this important volume looks at conflicts of interest codes of ethics and the regulation of corruption in the united states canada the united kingdom australia and the european community it finds that there is less corruption than ever before but the gap between public expectations and perceptions has nevertheless widened moreover it questions the dominant academic approach to applied ethics with its emphasis on training standards and procedures and ultimately regulation in contrast the authors featured in this volume argue that governance is a social process ethical governing means attending to the relational aftermath of complex decisions the ways in which decisions and their execution affect and sustain social relationships moreover applied ethical reasoning in this context must not only confront certain stock issues but must also lead to widespread participation in decision making processes viewed in this way ethical governing means a respectful discourse involving widespread participation of legitimate viewpoints consequently the authors suggest that the nearly universal dissatisfaction with the state of public ethics is a manifestation of something deeper and more profound as one author explains public perceptions won't look up so long as politics remains a spectator sport dominated by sleaze ball tactics and shrinking sound bites
