the valorous but troubled career of the civil war general best known for defending little round top and averting a union defeat at gettysburg the lieutenant colonel of a new york regiment and rising star in the army of the potomac gouverneur k warren performed heroically at gettysburg for his service at bristoe station and mine run he was awarded command of the fifth corps for the 1864 virginia campaign but warren s peculiarities of temperament and personality put a cloud over his service at the wilderness and spotsylvania and cost him the confidence of his superiors grant

and Meade he was summarily relieved of his command by Philip Sheridan after winning the battle of Five Forks just eight days before Appomattox. Warren continued as an engineer of distinction in the army after the war but he was determined to clear his name before a board of inquiry which conducted an exhaustive investigation into the battle. Warren's conduct and Sheridan's arbitrary action however the findings of the court vindicating Warren were not made public until shortly after his death. For this major biography of Gouverneur Warren David M. Jordan utilizes Warren's own voluminous collection of letters, papers, orders and other items saved by his family as well as the letters and writings of such contemporaries as his aide and brother-in-law Washington Roebling, Andrew Humphreys, Winfield Hancock, George Gordon Meade and Ulysses S. Grant. Jordan presents a vivid account of the life and times of a complex military figure.

In the late 1930s a number of American women especially those allied with various peace and isolationist groups protested against the nation's entry into World War II while their story is fairly well known. Margaret Paton Walsh reveals a far less familiar story of women who fervently felt that American intervention was absolutely necessary. Paton Walsh recounts how the United States became involved in the war but does so through the eyes of American women who faced it as a necessary evil covering the period between 1935 and 1941 she examines how these women functioned as political actors even though they were excluded from positions of power through activism in women's organizations, informal women's networks and even male dominated lobbying groups in the great debate over whether America should enter the war. Some women favored aid to the allies not because they hoped for war but because they hoped aid would forestall more direct U.S. involvement but also because they believed war was preferable to a Nazi victory. Paton Walsh shows that this activism involved some of the most prominent women of their day. Elizabeth Cutter Morrow whose son-in-law Charles Lindbergh was an isolationist spokesman supported the revision of the Neutrality Acts to allow the sale of arms to the allies and expressed her support in a national radio broadcast. Soon other women joined this debate. Esther Brunauer of the AAUW, journalist Dorothy Thompson and organizations like the League of Women Voters and National Women's Trade Union League broke from the pacifist tradition to advocate American aid for the allied cause focusing on the conflict in Europe. Paton Walsh shows how these women grasped the implications of the Lend Lease program for America's entry into the war but supported it nevertheless. By late 1941 the Women's Division of the Fight for Freedom Committee had been established no longer merely advocating aid to Britain to keep American boys out of

battle this organization supported direct american involvement in the war as a means of stopping nazi oppression while most historians have focused on women s pacifism paton walsh connects women more directly to world events and shows how those interventionists reformulated maternalist ideas to justify and explain their beliefs our war too is a story of american women trying to reconcile the irreconcilable to preserve both their principles and their peace it expands our understanding of women as political actors and thinkers about foreign policy as it sheds new light on american public opinion over the build up to the war

masterfully researched there is no book like this either in the field of lbj literature or in the field of chicano history mario t garcía author of mexican americans leadership ideology and identity 1930 1960 as he worked to build his great society lyndon johnson often harkened back to his teaching days in the segregated mexican school at cotulla texas recalling the poverty and prejudice that blighted his students lives johnson declared it never occurred to me in my fondest dreams that i might have the chance to help the sons and daughters of those students and to help people like them all over this country but now i do have that chance and i ll let you in on a secret i mean to use it this book explores the complex and sometimes contradictory relations between lbj and mexican americans julie pycior shows that johnson s genuine desire to help mexican americans and reap the political dividends did not prevent him from allying himself with individuals and groups intent on thwarting mexican americans organizing efforts not surprisingly

these actions elicited a wide range of response from grateful loyalty to in some cases outright opposition mexican americans complicated relationship with lbj influenced both their political development and his career with consequences that reverberated in society at large

most accounts of canada and the first world war either ignore or merely mention in passing the churches experience such neglect does not do justice to the remarkable influence of the wartime churches nor to the religious identity of the young dominion the churches support for the war was often wholehearted but just as often nuanced and critical shaped by either the classic just war paradigm or pacifism s outright rejection of violence the war heightened issues of canadianization attitudes to violence and ministry to the bereaved and the disillusioned it also exacerbated ethnic tensions within and between denominations and challenged notions of national and imperial identity the authors of this volume provide a detailed summary of various christian traditions and the war both synthesizing and

taking as its focus memorials of the first world war in britain this book brings a fresh approach to the study of public symbols by exploring how different motives for commemorating the dead were reconciled through the processes of local politics to create a widely valued form of collective expression it examines how the memorials were produced what was said about them how support for them was mobilized and behaviour around them regulated these memorials were the sites of contested multiple and ambiguous meanings yet out of them a united public observance was created the author argues that this was possible because the interpretation of them as symbols was part of a creative process in which new meanings for traditional forms of memorial were established and circulated the memorials not only symbolized emotional responses to the war but also ambitions for the post war era contemporaries adopted new ways of thinking about largely traditional forms of memorial to fit the uncertain social and political climate of the inter war years this book represents a significant contribution to the study of material culture and memory as well as to the social and cultural history of modern warfare
