2024-05-31

this book based on revised papers originally delivered at the vii international systemic functional workshop in valencia in 1995 explores some of the choices open to speakers and writers for the expression of meaning in different socio cultural contexts many of the papers draw their inspiration from models of language developed by michael halliday and in particular recent theories of variation in relation to texts and genres explored by halliday and his followers there is an emphasis on the interdependence and interaction of linguistic choices across sentence boundaries and speaking turns and also a consistent focus across many papers on the importance of lexicogrammar in the construction of texts several papers examine the differences between native speaker and non native speaker choices in speech and writing the volume also contributes to our understanding of differences and similarities between spoken and written varieties of english and of the central significance of interpersonal functions in the communication of messages by drawing on naturally occurring data collected on a range of genres as diverse as philosophy articles scientific research papers emergency telephone calls and casual conversation contributors both refine descriptions of the relations between text and context and offer numerous new insights and analyses

A Leap Across Centuries

1987

enlargement has been an almost constant part of european integration history going from an improvised exercise to the eu s most developed foreign policy tool however neither the longevity nor the complexity of enlargement has been properly historicised european enlargement across rounds and beyond borders offers three interdisciplinary innovative and indeed radical new ways of understanding and analysing ec eu enlargements first tracing longue durée developments second investigating enlargement beyond the road to membership and third exploring the entangled exchanges and synergies between the ec eu and its outside this edited volume will provide fresh perspectives on enlargement as one of the defining processes in europe in the second half of the 20th century how are we to understand enlargement as a policy how has it changed the eu what is the historical role of the british press in shaping the uk s visions of europe how has enlargement played into russia s relationship with today s eu giving answers to these questions and many more this volume wishes to spark a broad debate about the roots range and repercussions of enlargement and how historians and other scholars should engage with it this publication will be of key interest to scholars and students of modern european history and politics the european integration process eu studies and more broadly multilateral international institutions history law and the social sciences

Across the Centuries, Level B

1999-06-01

this edited collection explores the topic of constitutionalism across borders in the struggle against terrorism analyzing how constitutional rules and principles relevant in the field of counter terrorism move across borders various chapters underline how constitution like norms consolidate at the level of international and supranational organizations as a limit to the exercise of public power in the field of counter terrorism policy especially counter terrorism financing other chapters examine the extraterritorial application of constitutional rights and the migration of constitutional norms or anti constitutional practices from one state to another still others consider how transnational cooperation between states in areas such as intelligence gathering and data sharing may call for updating domestic constitutional law rules or for new international law compacts entrenching rights across borders what emerges is a picture of the complex interplay of constitutional law international law criminal law and the law of war

creating webs of norms and regulations that apply in the struggle against terrorism conducted across increasingly porous borders the book will be of particular interest to academics and graduate or postgraduate students working in the fields of constitutional law international law human rights comparative law and national security law it may also be of interest to practitioners concerned with national security counter terrorism and related questions of individual rights

1999-11-01

the current volume presents new empirical data on well being of youth and emerging adults from a global international perspective its outstanding features are the focus on vast geographical regions e g europe asia africa north and south america and on strengths and resources for optimal well being the international and multidisciplinary contributions address the complexities of young people s life in a variety of cultural settings to explore how key developmental processes such as identity religiosity and optimism social networks and social interaction in families and society at large promote optimal and successful adaptation the volume draws on core theoretical models of human development to highlight the applicability of these frameworks to culturally diverse youth and emerging adults as well as universalities and cultural specifics in optimal outcomes with its innovative and cutting edge approaches to cultural theoretical and methodological issues the book offers up to date evidence and insights for researchers practitioners and policy makers in the fields of cross cultural psychology developmental science human development sociology and social work

Across the Centuries

1988-08

juan diego to whom the virgin mary appeared in 1531 miraculously imprinting her likeness on his cape was canonised in mexico in 2002 by pope john paul ii in 1999 the revered image of our lady of guadalupe had been proclaimed patron saint of the americas by the pope how did a poor indian

and a sixteenth century mexican painting of the virgin mary attract such unprecedented honours across the centuries the enigmatic power of the image has aroused fervent devotion in mexico it served as the banner of the rebellion against spanish rule and despite scepticism and anti clericalism still remains a potent symbol of the modern nation this book traces the intellectual origins the sudden efflorescence and the adamantine resilience of the tradition of our lady of guadalupe and will fascinate anyone concerned with the history of religion and its symbols

Odysseus Across the Centuries

2000-01-01

from one of today s leading muslim scholars this compelling look at how the prophet muhammad has been portrayed throughout the centuries offers a fascinating history of the diversity of islamic cultures and beliefs the prophet muhammad has been revered for more than fifteen centuries today one in five people throughout the world calls for daily praises and blessings upon him and holds him up as a model of virtue in images of muhammad tarif khalidi examines the ways muhammad has been depicted and revered from the immediate aftermath of his death to the present day with scholarly authority khalidi explores how the biography of muhammad has been constructed reconstructed and utilized in various islamic cultures and traces the influences that have shaped his image including the profound effect of negative perceptions promulgated by the west as he describes the great variety of islamic beliefs and practices khalidi illuminates the values and ideas shared by the sunni shia and sufi sects as well as the differences among them providing western readers with a clear objective perspective on the current conflicts within the muslim world as well as their global repercussions from the hardcover edition

studies of digital communication technologies often focus on the apparently unique set of multimodal resources afforded to users and the development of innovative linguistic strategies for performing mediatised identities and maintaining online social networks this edited volume interrogates the novelty of such practices by establishing a transhistorical approach to the study of digital communication the transhistorical approach explores language practices as lived experiences grounded in historical contexts and aims to identify those elements of human behaviour that transcend historical boundaries looking beyond specific developments in communication technologies to understand the enduring motivations and social concerns that drive human communication the volume reveals long term patterns in the indexical functions of seemingly innovative written and multimodal resources and the ideologies that underpin them and shows that methods are not necessarily contingent on their datasets historical analytic frameworks can be applied to digital data and newer approaches used to understand historical data these insights present exciting opportunities for english language researchers both historical and modern

Vedute del Foro romano attraverso i secoli

2007

american revenge narratives critically examines the nation s vengeful storytelling tradition with essays on late twentieth and twenty first century fiction film and television it maps the coordinates of the revenge genre s contemporary reinvention across american culture by surveying american revenge narratives this book measures how contemporary payback plots appraise the nation s political social and economic inequities the volume s essays collectively make the case that retribution is a defining theme of post war american culture and an artistic vehicle for critique in another sense this book presents a scholarly coming to terms with the nation s love for vengeance by investigating recent iterations of an ancient genre contributors explore how the revenge narrative evolves and thrives within american literary and filmic imagination taken together the book s diverse chapters attempt to understand american culture s seemingly

inexhaustible production of vengeful tales

Freethought Across the Centuries

1996-01-01

as climate change becomes an increasingly important part of public discourse the relationship between time in nature and history is changing nature can no longer be considered a slow and immobile background to human history and the future can no longer be viewed as open and detached from the past times of history times of nature engages with this historical shift in temporal sensibilities through a combination of detailed case studies and synthesizing efforts focusing on the history of knowledge media theory and environmental humanities this volume explores the rich and nuanced notions of time and temporality that have emerged in response to climate change

European Enlargement across Rounds and Beyond Borders

2017-03-16

this groundbreaking book investigates the clash between a desire for unfettered mobility and the prevalence of inequality exploring how this generates frictions in everyday life and how it challenges the ideal of just cosmopolitanism reading fictional and popular cultural texts against real global contexts it develops an aesthetics of justice that does not advocate cosmopolitan mobility at the expense of care and hospitality but rather interrogates their divorce in neoliberal contexts

Constitutionalism Across Borders in the Struggle Against Terrorism

2016-06-29

a foreign affairs best book of the year from the front lines of economics and policymaking a compelling case that economic growth is a force for good and a blueprint for enrolling it in the fight against climate change economic growth is wrecking the planet it s the engine driving climate change pollution and the shrinking of natural spaces to save the environment will we have to shrink the economy might this even lead to a better society especially in rich nations helping us break free from a pointless obsession with material wealth that only benefits the few alessio terzi takes these legitimate questions as a starting point for a riveting journey into the socioeconomic evolutionary and cultural origins of our need for growth it s an imperative he argues that we abandon at our own risk terzi ranges across centuries and diverse civilizations to show that focus on economic expansion is deeply interwoven with the human quest for happiness well being and self determination growth he argues is underpinned by core principles and dynamics behind the west s rise to affluence these include the positivism of the enlightenment the acceleration of science and technology and ultimately progress itself today growth contributes to the stability of liberal democracy the peaceful conduct of international relations and the very way our society is organized through capitalism abandoning growth would not only prove impractical but would also sow chaos exacerbating conflict within and among societies this does not mean we have to choose between chaos and environmental destruction growth for good presents a credible agenda to enroll capitalism in the fight against climate catastrophe with the right policies and the help of engaged citizens pioneering nations can set in motion a global decarbonization wave and in parallel create good jobs and a better greener healthier world
