110 graph pages perfect binding 60 offset paper 8 5 x 11

Canadian Journal of Mathematics

1949

includes section recent publications

Everyday Mathematics 4, Grade 1, Student Math Journal 2

2014-05-16

use the teacher s guide with your students problem solver s math journal teacher s guides include the answer key

Math-Time Journal

2004-01-01

the calculus collection is a useful resource for everyone who teaches calculus in high school or in a 2 or 4 year college or university it consists of 123 articles selected by a panel of six veteran high school teachers each of which was originally published in math horizons maa focus the american mathematical monthly the college mathematics journal or mathematics magazine the articles focus on engaging students who are meeting the core ideas of calculus for the first time the calculus collection is filled with insights alternate explanations of difficult ideas and suggestions for how to take a standard problem and open it up to the rich mathematical explorations available when you encourage students to dig a little deeper some of the articles reflect an enthusiasm for bringing calculators and computers into the classroom while others consciously address themes from the calculus reform movement but most of the articles are simply interesting and timeless explorations of the mathematics encountered in a first course in calculus

Everyday Mathematics Student Journal Bundle, Vols. 1 & 2, Grade 3

2015-05-12

are you looking for new ways to help your children learn math in a math journal children explore their own ideas about numbers shapes and patterns through drawing or writing in response to a question journaling encourages students to develop a rich mathematical mindset they begin to see connections and make sense of math concepts they grow confident in their ability to think through new ideas all they need is a piece of paper a pencil and a good prompt to launch their mathematical journey 312 things to do with a math journal includes number play prompts games math art story problems mini essays geometry investigations brainteasers number patterns research projects and much more these activities work at any grade level and most can be enjoyed more than once it doesn t matter whether your students are

homeschooled or in a classroom distance learning or in person everyone can enjoy the experience of playing around with math early reviews from my journaling beta testers we really enjoyed these i remember doing pages and pages of dull equations with no creativity or puzzle thinking but now as a homeschool mom i m actually enjoying math for the first time my daughter s math skills have skyrocketed and she always asks to start homeschool with math thank you for a great intro to playful math all of the kids were excited about their journals my oldest kept going without prompting and did several more pages on his own we had a lot of fun doing your math prompts we had never done any math journaling before but we will certainly integrate this into our weekly routine from now on pick up a copy of 312 things to do with a math journal and begin your family s math journaling adventure today
