29 *Online JEE-Main Year Wise Solved Papers (2019-2012) with Solution and Detailed Analysis* 2020-07-22 salient features of the book are 1 2610 mcqs 2 authentic papers 3 errorless solutions 4 trend analysis of 2019 2018 2017 online papers 5 relevant high quality test papers prepared by highly experienced faculty members 6 detailed solution of each paper for self evaluation so that you can focus on your weak areas to improve 7 help student to plan question paper attempt strategy for maximum output 8 increases speed accuracy and builds confidence to face jee main competitive examination 9 develops sound examination temperament in students to face the competitive examination with a supreme state of confidence and ensures success 10 the student is advised to take these papers in the prescribed time limit by creating an exam like environment at home 11 we firmly believe that the book in this form will definitely help a genuine hardworking student 12 we have put our best efforts to make

Textbook of Periodontics 2021-02-10 european societies and economies continue to rely on services of general interest sgi to produce legitimacy fair access to basic services such as transport energy and communication infrastructures education and health care is regarded as a cornerstone of the european model of society as a way to promote territorial cohesion and lastly as a right held by every eu citizen these collective regional and individual perspectives on services of general interest are in the focus of this edited volume in the light of postmodern societies demographic aging migratory patterns globalization and economic crises territorially sensitive challenges arise and targeted solutions are needed accordingly

Services of General Interest and Territorial Cohesion 2015-10-28 the interlaw book on renewable energy is a comprehensive overview of renewable energy policies and developments in the major countries active in the field it addresses in a practical and legal perspective the main interrogations encountered by investors and policy makers on how to efficiently deploy renewable energy particularly in terms of support schemes grid connection costs priority and congestion rules or permitting

Interlaw Book on Renewables Energies 2015-03-05 the period between 2001 and 2008 saw the longest commodities boom in recent history resource rich countries across the world developed more interest in the profits control and ownership of their natural resources south africa which did not benefit much from the boom in commodity prices was nonetheless affected by the emergent resource nationalism trend and it became the focus of the governing party s 2010 national general council which ultimately resulted in the constitution of a committee to review the country s policy and legislative framework regarding natural wealth beneath the soil although the resurgence of resource nationalism is a recent phenomenon the idea of state intervention in the economy and the extractive sector in particular is not new resurgent resource nationalism is a qualitative study undertaken by mistra for sasol ltd that looks at the resurgence of resource nationalism over the past ten years it discusses the concept of resource nationalism and its manifestation in public policy it identifies the concerns drivers and instruments through which resource nationalism is pursued by various mining jurisdictions across regions it deliberately focuses more on the hydrocarbons sector in order to suit the target audience the aim is to observe macro trends emerging in various regions of the world and explore how best private actors can respond to the various forms of resource nationalism

Resurgent Resource Nationalism 2016-02-15 tulsian s quick revision for financial accounting is a self study handbook loaded with practical questions this book is a perfect revision text comprises structured questions based on pattern and scheme adopted in examinations

Quick Revision for Financial Accounting (For ICWA Intermediate: Paper 5) 2016 throughout the book theoretical foundations necessary for understanding electronic commerce ec are presented ranging from consumer behavior to the economic theory of competition furthermore this book presents the most current topics relating to ec as described by a diversified team of experts in a variety of fields

including a senior vice president of an e-commerce related company the authors provide website resources numerous exercises and extensive references to supplement the theoretical presentations at the end of each chapter a list of online resources with links to the websites is also provided additionally extensive vivid examples from large corporations small businesses from different industries and services governments and nonprofit agencies from all over the world make concepts come alive in electronic commerce these examples which were collected by both academicians and practitioners show the reader the capabilities of ec its cost and justification and the innovative ways corporations are using ec in their operations in this edition previous editions published by pearson prentice hall the authors bring forth the latest trends in e-commerce including social businesses social networking social collaboration innovations and mobility

Electronic Commerce 2015-01-29 this book fills the normative gap arising from the absence of a multilateral mechanism for sovereign debt restructuring

Focus On: 100 Most Popular Unreal Engine Games 2022-09-22 in the past foreign shocks arrived to national economies mainly through trade channels and transmissions of such shocks took time to come into effect however after capital globalization shocks spread to markets almost immediately despite the increasing macroeconomic dangers that the situation generated at emerging markets in the south nobody at the north was ready to acknowledge the pro-cyclicality of the financial system and the inner weakness of decontrolled financial innovations because they were enjoying from the great moderation monetary policy was primarily centered on price stability objectives without considering the mounting credit and asset price booms being generated by market liquidity and the problems generated by this glut mainstream economists in turn were not majorly attracted in integrating financial factors in their models external pressures on emerging market economies emes were not eliminated after 2008 but even increased as international capital flows augmented in relevance thereafter initially economic authorities accurately responded to the challenge but unconventional monetary policies in the us began to create important spillovers in emes furthermore in contrast to a previous surge in liquidity funds were now transmitted to emes throughout the bond market the perspective of an increase in us interest rates by the fed is generating a reversal of expectations and a sudden flight to quality emerging countries currencies began to experience higher volatility levels and depreciation movements against a newly strong us dollar are also increasingly observed consequently there are increasing doubts that the unexpected favorable outcome observed in most emes at the aftermath of the global financial crisis gfc would remain

The International Law of Sovereign Debt Dispute Settlement 2018-03-15 vince cable's bestselling book the storm explored and explained the causes of the 2008 world economic crisis and how britain should respond to the great challenges it brought in after the storm cable who was business secretary in the 2010-2015 coalition government provides a unique perspective on the state of the global financial markets and how the british economy has fared since 2008 providing a previously unreported inside view of the coalition after the storm offers a carefully considered perspective on how the british economy should be managed over the next decade and beyond this timely book is a fascinating and urgent intervention from one of the key figures in british politics of the past two decades

Emerging Market Economies and Financial Globalization 2015-09-17 the end of the cold war ushered in an age of american triumphalism best characterized by the washington consensus the idea that free markets democratic institutions limitations on government involvement in the economy and the rule of law were the foundations of prosperity and stability the last fifteen years starting with the asian financial crisis have seen the gradual erosion of that consensus many commentators have pointed to the emergence of a powerful new rival model state capitalism in state capitalist regimes the government typically owns firms in strategic industries not beholden to private sector shareholders such firms are allowed to operate with razor thin margins if the state deems them strategically important

china soon to be the world's largest economy is the best known state capitalist regime but it is hardly the only one in state capitalism joshua kurlantzick ranges across the world china thailand brazil russia south africa turkey and more and argues that the increase in state capitalism across the globe has on balance contributed to a decline in democracy he isolates some of the reasons for state capitalism's resurgence the fact that globalization favors economies of scale in the most critical industries and the widespread rejection of the washington consensus in the face of the problems that have plagued the world economy in recent years that said a number of democratic nations have embraced state capitalism and in those regimes state backed firms like brazil's embraer have enjoyed considerable success kurlantzick highlights the mixed record and the evolving nature of the model yet he is more concerned about the negative effects of state capitalism when states control firms whether in democratic or authoritarian regimes the government increases its advantage over the rest of society the combination of new technologies the perceived failures of liberal economics and democracy in many developing nations the rise of modern kinds of authoritarians and the success of some of the best known state capitalists have created an era ripe for state intervention state capitalism offers the sharpest analysis yet of what state capitalism's emergence means for democratic politics around the world

After the Storm 2016-03-08 the presented book uppsc uttar pradesh public service commission general studies paper i preliminary examination solved papers is a compilation of previous years examination question papers 2023 2005 aspirants can find all these question papers easily where most of the syllabus is covered in the form of mcqs the solutions are supplemented lucidly with analytical explanations to promote a clearer understanding to various levels of questions depending upon the complexity this book seeks to make the aspirants fully aware about the developments in the papers throughout these years along with preparing them to face the upcoming examination with confidence

State Capitalism 2019-11-08 this book makes an original contribution to our knowledge of the world's major defence industries experts from a wide range of different countries from the major economies of north america and western europe to developing economies and some unique cases such as china india singapore south africa and north korea describe and analyse the structure conduct and performance of the defence industry in that country each chapter opens with statistics on a key nation's defence spending its spending on defence r d and on procurement over the period 1980 to 2017 allowing for an analysis of industry changes following the end of the cold war after the facts of each industry the authors describe and analyse the structure conduct and performance of the industry the analysis of structure includes discussions of entry conditions domestic monopoly oligopoly structures and opportunities for competition the section on conduct analyses price non price competition including private and state funded r d and performance incorporates profitability imports and exports together with spin offs and technical progress the conclusion explores the future prospects for each nation's defence industry do defence industries have a future what might the future defence firm and industry look like in 50 years time this volume is a vital resource and reference for anyone interested in defence economics industrial economics international relations strategic studies and public procurement

UPPSC UP Combined State/Upper Subordinate Services General Studies (Paper-1) Preliminary Examination | Solved Papers 2023-2005 2015-06-04 fy 2015 net income is now projected at sdr 1.5 billion lending continues to be the main source of income although advance repurchases have lowered projected lending income in fy 2015 by sdr 0.3 billion investment income remains constrained in the low interest environment but the returns were somewhat stronger than projected a revaluation of pension obligations required under accounting standard ias 19 and stemming from a further fall in the discount rate is projected to entail an adjustment to fy 2015 net income of about sdr 0.8 billion the paper proposes that gra net income of sdr 1.3 billion which excludes the retained earnings of the gold endowment

be placed to the special reserve after the placement to reserves precautionary balances are projected at sdr 14 0 billion at the end of fy 2015 the paper further proposes to retain currencies available for transfer to the investment account in the gra pending completion later this year of the board s review of the mandate for the fixed income subaccount

Review of the Fund's Income Position for FY 2015 and FY 2016 2021-04-12 this edited volume explores the analytical possibilities of contrasting brazil and the united kingdom as examples of emerging and established powers respectively it is organised around several themes focusing on the roles of brazil and the united kingdom in the management of global economic governance international development international security the politics of regional integration global climate change governance and the political leveraging of sports mega events each chapter explores brazil s and or the uk s particular foreign policies and their resulting impact on these key areas of global governance and politics the conceptual focus is on these states motivations as either status seekers brazil or status maintainers uk in the context of a fast moving international landscape the chapters in this book directly or indirectly indicate that these states wish to draw attention to their aspiring or established positions as key global players through either visible foreign policy action and or symbolic rhetoric this book was originally published as a special issue of global society

Marketplace Lending, Financial Analysis, and the Future of Credit 2017-10-02 tourism is acclaimed to be one of the world s biggest revenue generating industries accounting for billions of dollars and thousands of jobs technological innovations urbanization improvement in living standard introduction of fuel efficient cars made journeys relatively easier all these factors have generated a vibrant tourism activity and brought a bloom in domestic tourism the tourism sector is having multiplier effect on the economy and its contribution to the gdp is one of the highest and its ability to generate employment is much more than any other sector it is the largest single employer and industry in several island nations the world travel tourism council calculated that tourism generated at an average annual rate of 7 9 from 2013 to 2023 this gives india the third rank among countries with the fastest growing tourism industries over the next decade india s rich history and its cultural and geographical diversity make its international tourism appeal large and diverse it presents heritage and cultural tourism along with medical business educational and sports tourism water is an attractive element and plays an important role in recreation and holidays rivers lakes waterfalls have an aesthetic significance for attracting tourists today there are a number of established lake tourism destinations all over the world water tourism

assumes significance in the national economies of several european and asian countries there are several water based tourism destinations in the world which are very popular and drawing large number of both domestic and international tourists across the world in india such as rivers tanks lakes and waterfalls etc all these water bodies are sources of life for flora and fauna all the important cities in india have been developed on the banks of the rivers and lakes from ancient times these water bodies provided irrigation facilities and became great centers of civilizations those centers are also popular as pilgrimage canter since ancient times and are all also emerging as tourism destinations in modern times the author has tried to make harmonious blend of theory and practice which hopefully will make the book more useful to the students teachers and practicing tourism professionals the author would appreciate constructive comments and suggestions from the students teachers practicing tour planners and executives in the improvements of this book

Institutionalizing health technology assessment mechanisms 2016-08-05 this book is a very timely account of the legal economic and political consequences for border states caught in the current tug of war between the west and russia the ukraine crisis of 2014 focused policy makers attention on a geographical area full of dangers that had gone relatively unnoticed since the breakup of the soviet union namely the security dynamics of the border states of eastern europe and the black sea twenty five years after the collapse of the soviet union a strong russia returns alternatively threatening and cajoling but at risk itself of suffering economic injury from western reprisals over its nostalgia for the map drawn at yalta that conflict which hotted up over the ukraine was soon being played out over and in the air space over syria and turkey while the border states themselves are likely to be drawn into the european refugee crisis and have the potential after the 2015 paris atrocities to be breeding grounds for international terrorists this groundbreaking book contains prescient warnings that must be heeded by leaders and diplomats on both sides of the east west divide

Challenges to Emerging and Established Powers: Brazil, the United Kingdom and Global Order 2016-03-21 this innovative reference examines how consumer health informatics chi can transform healthcare systems stressed by staffing shortages and budget constraints and challenged by patients taking a more active role in their care it situates chi as vital to upgrading healthcare service delivery detailing the relationship between health information technologies and quality healthcare and outlining what stakeholders need to learn for health it systems to function effectively wide ranging content identifies critical issues and answers key questions at the consumer practitioner administration and staff levels using examples from diverse conditions countries technologies and specialties in this framework the benefits of chi are seen across service domains from individual patients and consumers to healthcare systems and global health entities included in the coverage use of video technology in an aged care environment a context aware remote health monitoring service for improved patient care accessibility issues in interoperable sharing of electronic health records physician s perspective managing gestational diabetes with mobile web based reporting of glucose readings an organizing vision perspective for developing and adopting e health solutions an ontology of consumer health informatics contemporary consumer health informatics combines blueprint and idea book for public health and health informatics students healthcare professionals physicians medical administrators managers and it practitioners

WATER RESOURCES AND TOURISM PROMOTION IN TELANGANA STATE 2015-05-22 this book examines the drivers of regionalism and integration in both europe and asia and seeks to forge comparative perspectives between the two regions comprising contributions from scholars analysts and policymakers this volume explores and debates how and why regional bodies such as the european union eu and the association of southeast asian nations asean are formed and sustained furthermore it examines the drivers of and impediments to regionalism and integration the debates regarding what and who

constitute drivers are presented in a fresh thematic and comprehensive manner leadership and core states are also critically examined whilst material ideational and normative factors are all assessed comparatively significantly in light of the global financial crisis the book considers the role of crisis as a driver of regionalism and integration this book will be of interest to students scholars and policymakers interested in asian and european politics and comparative politics

Torn between East and West 2017-04-18 this report assesses the annexation of crimea by russia february march 2014 and the early phases of political mobilization and combat operations in eastern ukraine late february late may 2014 it examines russia s approach draws inferences from moscow s intentions and evaluates the likelihood of such methods being used again elsewhere

Contemporary Consumer Health Informatics 2017-06-01 constitutional orders constitute political communities and international orders deriving from them by managing conflicts that threaten peace this book explores how a european political community can be advanced through eu constitutional law the constitutional role of the union is to ensure peace by addressing two types of conflict the first are static conflicts of interests between the national polities in the eu these are avoided by ensuring reciprocal non interference between member states in the union through deregulation in union law the second are dynamic conflicts of ideas about positive liberty held by the peoples of europe these can be resolved through regulation in a european political space here eu law enables a continuous process of re negotiating a shared european idea of positive liberty that can be accepted as its own by each national polity in the eu these solutions to the two types of conflicts correspond to the liberal and republican models for europe the claim of this book is that the constitutional design of europe presents both liberal and republican features taking an innovative approach which draws on arguments from substantive law constitutional theory case law analysis insights from psychology and philosophy it identifies how best to strengthen the union through constitutional law

Drivers of Integration and Regionalism in Europe and Asia 2015-05-20 a concise and powerful account of how the great recession happened and what should be done to avoid another one well argued and consistently informative wall street journal the great american recession of 2007 2009 resulted in the loss of eight million jobs and the loss of four million homes to foreclosures is it a coincidence that the united states witnessed a dramatic rise in household debt in the years before the recession that the total amount of debt for american households doubled between 2000 and 2007 to 14 trillion definitely not armed with clear and powerful evidence atif mian and amir sufi reveal in house of debt how the great recession and great depression as well as less dramatic periods of economic malaise were caused by a large run up in household debt followed by a significantly large drop in household spending though the banking crisis captured the public s attention mian and sufi argue strongly with actual data that current policy is too heavily biased toward protecting banks and creditors increasing the flow of credit they show is disastrously counterproductive when the fundamental problem is too much debt as their research shows excessive household debt leads to foreclosures causing individuals to spend less and save more less spending means less demand for goods followed by declines in production and huge job losses how do we end such a cycle with a direct attack on debt say mian and sufi we can be rid of painful bubble and bust episodes only if the financial system moves away from its reliance on inflexible debt contracts as an example they propose new mortgage contracts that are built on the principle of risk sharing a concept that would have prevented the housing bubble from emerging in the first place thoroughly grounded in compelling economic evidence house of debt offers convincing answers to some of the most important questions facing today s economy why do severe recessions happen could we have prevented the great recession and its consequences and what actions are needed to prevent such crises going forward

Lessons from Russia's Operations in Crimea and Eastern Ukraine 2016-10-21 standards and regulations are an integral if easily overlooked part of our daily life they determine whether a plug fits into a

socket whether food is safe for human consumption or whether a bank is allowed to take deposits they are also an indispensable part of international trade using new evidence from itc databases this report reveals how standards and regulations are holding sme competitiveness back but crucially what smes and other stakeholders can do to make standards and regulations work for and not against smes in this report advice targeted at sme managers is presented as well as how trade and investment support institutions and policymakers can influence the business environment to boost competitiveness and integration into global markets

Republican Europe 2017-08-16 this book explores the phenomena of both political catholicism and the growth of euroscepticism across eastern and western europe it focuses in particular on political catholicism in poland but sets this in its wider european context it examines the nature of political catholicism as a political movement discusses the circumstances in which political catholicism which has traditionally been pro european can turn to being eurosceptic and argues that political catholicism in poland is a special case because of its catholic nationalist nature the book concludes by assessing the role religion plays in the politics of modern europe and outlines the implications for the future studies of european integration

House of Debt 2016-04-11 nations carry out geopolitical combat through economic means yet america often reaches for the gun over the purse to advance its interests abroad robert blackwill and jennifer harris show that if u s policies are left uncorrected the price in blood and treasure will only grow geoeconomic warfare requires a new vision of u s statecraft

SME Competitiveness Outlook 2016 2015-07-17 this 2015 oecd economic survey of south africa examines recent economic developments policies and prospects special chapters cover infrastructure and business regulation tax policy and inclusive growth

Political Catholicism and Euroscepticism 2015-06-11 this book looks both backward and forward with regard to the european union s political strategies towards its neighbouring countries by bringing together the perspectives of critical geopolitics policy studies and border studies it presents a comprehensive review of the european neighbourhood policy and how it impacts the ongoing construction of the eu s external frontiers is the eu committed to promoting integration in a wider european space or is a fortress europe emerging where the strengthening of internal cohesion is coupled with the militarisation of its external borders the book aims to problematize this question by showing how the eu s external policies are based on a mixture of openness and closure inclusion and exclusion cooperation and securitisation the european neighbourhood policy is a controversial strategy where regionalization and bordering homogenisations and differentiations centrifugal and centripetal forces proceed side by side in an explicit attempt to construct a selective mobile and fragmented border a specific focus is devoted to the diversity of geo strategies the eu is pursuing in its neighbouring countries and regions macro regional strategies and cross border cooperation initiatives as new scales of cooperation and the role of other global players

War by Other Means 2018-05-22 a compelling history of liberalism from the nineteenth century to today despite playing a decisive role in shaping the past two hundred years of american and european politics liberalism is no longer the dominant force it once was in this expanded and updated edition of what has become a classic history of liberalism edmund fawcett traces its ideals successes and failures through the lives and ideas of exemplary thinkers and politicians from the early nineteenth century to today significant revisions including a new conclusion reflect recent changes affecting the world political order that many see as presenting new and very potent threats to the survival of liberal democracy as we know it a richly detailed account of a vulnerable but critically important political creed this book reminds us that to defend liberalism it is vital to understand its character and history

OECD Economic Surveys: South Africa 2015 2015 the central aim of the book is to present in the form of a collection of papers a variety of views on nato from member states formerly known as new and to assess in this context the prospects for nato enlargement therefore the book consists of two parts the main objective of the first part is to present how nato is now perceived in central and south eastern europe papers collected here offer an opportunity to reflect on the impact of the enlargements starting from 1999 on nato functioning and evolution roles tasks and capabilities the issue of how accession has transformed accessioning states will also be discussed last but not least the perspective of new members on nato's future will be presented the authors of the articles in this part mainly come from those countries that joined the alliance after the end of the cold war the second part is devoted strictly to the topic of enlargement in this part we asked experts from nato members both old and new potential candidates and other nato partners including russia georgia ukraine azerbaijan sweden finland etc how they view the future of nato cooperation with external partners in europe and the prospects for enlargement of the alliance

Neighbourhood Policy and the Construction of the European External Borders 2020-08-13 in this timely book new zealand's best known commentator on population trends distinguished professor paul spoonley shows how as new zealand moves into the 2020s the demographic dividends of the last 70 years are turning into deficits our population patterns have been disrupted more boomers fewer children an ever bigger auckland and declining regions are the new normal we will need new economic models new ways of living spoonley says it is not a crisis even if at times it feels like it but rather something that needs to be understood and responded to but i fear that policy makers and politicians are not up to the challenge that would be a crisis

Liberalism 2017-05-15 this paper presents new evidence on the empirical relationship between bank solvency and funding costs building on a newly constructed dataset drawing on supervisory data for 54 large banks from six advanced countries over 2004-2013 we use a simultaneous equation approach to estimate the contemporaneous interaction between solvency and liquidity our results show that liquidity and solvency interactions can be more material than suggested by the existing empirical literature a 100 bps increase in regulatory capital ratios is associated with a decrease of bank funding costs of about 105 bps a 100 bps increase in funding costs reduces regulatory capital buffers by 32 bps we also find evidence of non-linear effects between solvency and funding costs understanding the impact of solvency on funding costs is particularly relevant for stress testing our analysis suggests that neglecting the dynamic features of the solvency liquidity nexus in the 2014 eu wide stress test could have led to a significant underestimation of the impact of stress on bank capital ratios

Newcomers No More? Contemporary NATO and the Future of the Enlargement from the Perspective of "Post-Cold War" Members 2015-06-12 a typical consumer underestimates the benefits of future energy savings and underinvests in energy efficiency relative to a description of the socially optimal level of energy efficiency to alleviate this energy efficiency gap problem various programs have been implemented in recent years many governments have started providing consumers with subsidies on the purchases of eco-friendly products such as hybrid cars and energy efficient appliances this book conducts a comprehensive analysis of the environmental subsidy programs conducted in japan and examines their impacts on consumer product selection consumer product use and environmental outcome the book also proposes recommendations for future environmental and industrial policies the book's empirical findings will be of interest to those who are researching on and policymakers of environmental and industrial policies
