subject description form the hong kong polytechnic

May 14 2024

generate control programs for building or industrial embedded systems
contribution of the subject to the attainment of the programme outcomes
programme outcomes this subject contributes to programme outcomes 1 5 8 and 10
through practical training in electronic and information engineering

subject description form department of electronic and

Apr 13 2024

subject description form to introduce the fundamental concepts and design
principles in deep learning and optoelectronic devices to introduce the state
of the art modelling methods in deep learning and photonic devices

subject description form hong kong polytechnic

university Mar 12 2024

subject description form to provide an understanding of various aspects of vlsi
system design in particular to look at how different design methodologies and
styles are utilized to achieve high performance cost effective integrated
circuits derive feasible and efficient testing and design for testability
structures to achieve high quality

subject description form department of electronic and

Feb 11 2024

please contact the subject lecturer for details objectives this subject will
introduce students with the conventional and advanced technologies used in
satellite communication systems the students will study the design parameters
of the transceiver on the performance of the link quality

subject description form subject code eie3106 the

hong kong Jan 10 2024

the scope to be covered shall either include mechanical work embedded software
development and circuit design or multimedia and network system design the
project s shall not be close ended in nature and shall provide ample headroom
for the more enthusiastic students to excel

subject description form subject code the hong kong

Dec 09 2023

this subject aims to equip students with the comprehensive knowledge in a
selected research topic from the following areas in electronic and information
engineering advanced communications systems advanced power electronics
multimedia signal processing and biosensor technologies intended learning
outcomes
