Essential Tremor 2006-11-15

essential tremor is the most common movement disorder in the world and affects between 4 and 40 people per 1000 of the population amongst all ethnic groups characterised by shaking hands this disorder can affect the head voice and legs and is often made worse by physical and emotional stress essential tremor the facts provides a comprehensive guide to understanding this disorder and minimising its impact upon the lives of sufferers their friends and families it begins with a close look at what essential tremor is and how it should be diagnosed as well as details on who gets the disorder the causes and how it affects sufferers day to day lives current treatment options are covered along with patient advice on how to cope with the stigma of essential tremor as well as the disability and social handicap it invokes the book concludes with a chapter on the future and prospects of a potential cure

Experts 2011-02-23

in this book stehr and grundmann outline the theoretical significance and practical importance of the growing stratum of experts counsellors and advisors in contemporary society and claim that the growing spectrum of knowledge based occupations has led to the pluralisation of expertise as decision makers in organizations and private citizens for various reasons increasingly seek advice from experts the authors examine the nature of expert activity and suggest that the role of experts needs to be distinguished from other roles such as professionals scientists or intellectuals experts they argue perform knowledge based activities that mediate between the context of knowledge creation and application existing approaches tend to restrict the role of the expert to scientists or to conflate the roles of professionals with experts in avoiding such restrictions this book sets out a framework to understanding the growing role of expertise in a better way experts provides thought provoking discussion that will be of interest to postgraduate students and academics working within the fields of social theory knowledge and consumption

Transnationalism 2009-03-30

while placing the notion of transnationalism within the broader study of globalization this book particularly addresses the emergence and impacts of migrant transnational practices each chapter demonstrates ways in which new and contemporary transnational activities of migrants are fundamentally transforming social religious political and economic structures within their homelands and places of settlement

Risk 2013-07-04

risk second edition is a fully revised and expanded update of a highly cited influential and well known book it reviews the three major approaches to risk in social and cultural theory devoting a chapter to each one these approaches were first identified and described by deborah lupton in the original edition and have since become widely used as a categorisation of risk perspectives the first draws upon the work of mary douglas to articulate the cultural symbolic perspective on risk the second approach is that of the risk society perspective based on the writings of ulrich beck and anthony giddens the third approach explored here is that of the governmentality perspective which builds on michel foucault s work other chapters examine in detail the relationship between concepts of risk and concepts of selfhood and the body the notion of otherness and how this influences the ways in which people respond to and think about risk and the pleasures of voluntary risk taking including discussion of edgework this new edition examines these themes in relation to the newly emerging threats of the twenty first century such as climate change extreme weather events terrorism and global financial crises it will appeal to students and scholars

throughout the social sciences and humanities

A History of Egypt 1894

fantasy is a genre in motion gradually expanding its reach and historical sources to embrace a global identity historical dictionary of fantasy literature second edition is a snapshot of the genre in this moment identifying new themes and sources that are emerging to inspire enhance and invigorate the published works of fantasy writers

Historical Dictionary of Fantasy Literature 2023-06-12

developing the argument that identity is both individual and collective the author explores the work of major social theorists such as mead goffman and barth to explain the experience of identity in everyday life

Social Identity 2008

sustainability as a reference frame for dealing with the interconnection of environmental economic and social issues on a global scale is not only characterized by complex problems and long term strategies but also by differences and disagreements with regard to its meanings and how they should be realised therefore rather than seeking a single most appropriate definition of sustainability the main focus of this book is on how specific sustainability problems are defined by whom and in which contexts what solutions are pursued to tackle them and which effects they have in practice this account of the social nature of sustainability is intended to assist its readers to better understand the complexities dynamism and ambivalence of this concept as well as to find their own position in relation to it for this purpose the book traces the historical development of the larger discourse on sustainability and investigates responses to three grand sustainability challenges climate change energy and agricultural food production it suggests that promoting sustainability requires continuous and active care and is inseparable from political debate about the normative foundations of society

Sustainability 2016-05-26

one of the most powerful forces in world culture american cinema has a long and complex history that stretches through more than a century this history not only includes a legacy of hundreds of important films but also the evolution of the film industry itself which is in many ways a

microcosm of the history of american society historical dictionary of american cinema second edition contains a chronology an introduction and an extensive bibliography the dictionary section has more than 600 cross referenced entries covering people films companies techniques themes and subgenres that have made american cinema such a vital part of world culture

Historical Dictionary of American Cinema **2021-06-01**

from poverty to power argues that a radical redistribution of power opportunities and assets rather than traditional models of charitable or government aid is required to break the cycle of poverty and inequality the forces driving this transformation are active citizens and effective states published in association with oxfam gb

From Poverty to Power, 2nd Edition 2012
