management and decision sciences with a specialization in leadership and organizational change the inspiration to write this book was the finale of a lengthy healing process growing up for me consisted of a life surrounded by vices which could cause a man to become powerless i remember relying on the serenity prayer god grant me the serenity to accept the things i cannot change courage to change the things i can and wisdom to know the difference the power of prayer is an awesome thing through prayer i was given serenity courage and wisdom serenity helped me stand still and allow god to fight the battles for me as i was only a child and was not equipped courage helped me tobreak the cycles and provided me with determination to beat the odds wisdom helped me understand that the cards i was dealt in life are required ingredients for me to become self empowered in 2004 god revealed to me that my purpose in life is to impact social change on a macro level particularly with african american males i have realized through mentoring african american males that the same vices that surrounded me two decades ago still exist in their lives i am obligated through my purpose in life to represent the survival growth and successes of black men who by defeating the odds are as a result changing the odds i pray that this book is received as a fundamental tool to help move african
