~~plants animals cell structure functions reproduction in~~  
animals reaching the age of adolescence force  
pressure friction sound chemical effects of electric  
current some natural phenomena light stars the solar  
system and pollution of air water covering the syllabi  
of science for class viii this book has been worked out  
with an aim of overall development of the students in  
such a way that it will help students define the way  
how to write the answers of the science textbook  
based questions the book covers selected ncert  
exemplar problems which will help the students  
understand the type of questions and answers to be  
expected in the class viii science examination through  
comprehensive solutions the students can learn the  
concepts which will enhance their thinking learning  
abilities for the overall benefit of the students along  
with the solutions the book also covers the text matter  
of ncert textbooks in easy reading notes format  
covering all definitions key words important points etc  
the book also contains intext questions paheli boojho  
questions chapter end exercises along with selected  
ncert exemplar problems for the overall benefit of  
students the book has been designed in such a way  
that it not only gives solutions to all the exercises but  
also gives detailed explanations which will help the  
students in learning the concepts and will enhance  
their thinking and learning abilities as the book has  
been designed strictly according to the ncert textbook  
of science for class viii and contains simplified text  
material in the form of quick reading notes and  
answers to all the questions in lucid language for
