### More Tools for Teaching Content Literacy 2008

in an era characterized by the rapid evolution of the concept of literacy the handbook of research on teaching

literacy through the communicative and visual arts focuses on multiple ways in which learners gain access to knowledge and skills the handbook explores the possibilities of broadening current conceptualizations of literacy to include the full array of the communicative arts reading writing speaking listening viewing and to focus on the visual arts of drama dance film art video and computer technology the communicative and visual arts encompass everything from novels and theatrical performances to movies and video games in today s world new methods for transmitting information have been developed that include music graphics sound effects smells and animations while these methods have been used by television shows and multimedia products they often represent an unexplored resource in the field of education by broadening our uses of these media formats and genres a greater number of students will be motivated to see themselves as learners in 64 chapters organized in seven sections teachers and other leading authorities in the field of literacy provide direction for the future i theoretical bases for communicative and visual arts teaching paul messaris section editor ii methods of inquiry in communicative and visual arts teaching donna alvermann section editor iii research on language learners in families communities and classrooms vicki chou section editor iv research on language teachers conditions and contexts dorothy strickland section editor v expanding instructional environments teaching learning and assessing the communicative and visual arts nancy roser section editor vi research perspectives on the curricular extracurricular and policy perspectives james squire section editor vii voices from the field bernice cullinan and lee galda section editors the international reading association has compiled in the handbook of research on teaching literacy through the communicative and visual arts an indispensable set of papers for educators that will enable them to conceptualize literacy in much broader contexts than ever before the information contained in this volume will be extremely useful in planning literacy programs for our students for today and tomorrow

# Handbook of Research on Teaching Literacy Through the Communicative and Visual Arts 2004–09–22

for three fascinating disturbing years writer patricia hersch journeyed inside a world that is as familiar as our own children and yet as alien as some exotic culture the world of adolescence as a silent attentive partner she followed eight teenagers in the typically american town of reston virginia listening to their stories observing their rituals watching them fulfill their dreams and enact their tragedies what she found was that america s teens have fashioned a fully defined culture that adults neither see nor imagine a culture of unprecedented freedom and baffling complexity a culture with rules but no structure values but no clear morality codes but no consistency is it society itself that has created this separate teen community resigned to the attitude that adolescents simply live in a tribe apart adults have pulled away relinquishing responsibility and supervision allowing the unhealthy behaviors of teens to flourish

ultimately this rift between adults and teenagers robs both generations of meaningful connections for everyone s world is made richer and more challenging by having adolescents in it
