In cammino con Paolo VI. Il Papa del dialogo col mondo 2018 the papers contained in this book reflect the ideas presented at the colloquium held on the same subject the event sponsored by the nordmann foundation was organized to the memory of the late jean nordmann by prof claude klein jerusalem and prof thomas fleiner institute of federalism university of fribourg jean nordmann and his family have always supported the good relations between the university of fribourg and the hebrew university in jerusalem the nordmann foundation was later created to develop further the cooperation between the two universities thus contributing substantially to the understanding of the jewish and christian communities notably in switzerland *Paul VI et la modernité dans l'Église* 1984 si l'on se penche sur les phénomènes de contestation de l'autorité politique par la littérature ou les arts qui constitue un axe de recherche majeur du laboratoire aux travaux duquel contribue ce volume il appert que dans bien des pays d'europe l'autorité politique s'est identifiée avec celle du monarque alors qu'en italie cas exceptionnel et pour cause puisque le siège de la papauté y est implanté depuis deux millénaires sans autre interruption que le demi siècle avignonnais c'est la papauté qui s'est constituée en pouvoir politique se revendiquant d'une double autorité spirituelle et morale et s'incarnant en un véritable organisme étatique le pape et la papauté représentent à leur tour deux incarnations de l'autorité l'une institutionnelle le gouvernement ecclésiastique l'autre individuelle le souverain pontife comme successeur de pierre investi d'une mission de divine inspiration et exerçant à ce titre une autorité suprême c'est en tout cas une spécificité italienne que d'être par tant un pays à la fois laïc et non laïc dans lequel la figure du pape remplace celle du roi suscitant depuis son affirmation comme telle polémiques et défenses de l'institution ecclésiastique autant que de papes en particuliers de fait l'affirmation de la primauté spirituelle et temporelle du pape sur le monde médiéval chrétien présente in nuce les failles juridiques et morales qui légitiment l'expression immédiate d'opposants à cette hégémonie aussi les vingt études regroupées dans ce volume illustrent elles à la fois l'ancrage et la permanence d'une tradition historique artistique littéraire la remise en cause en quelque sorte chronique du pouvoir du pape et de l'Église du xie siècle à nos jours chacune d'elles montre par ailleurs en creux ou explicitement selon les cas l'idéal d'une Église d'une papauté et de papes que leurs partisans comme leurs opposants eussent voulu au dessus des intérêts matériels et des stratégies de pouvoir tous se présentant en mal d'une autorité morale incontestable et littéralement incomparable celle des princes telle qu'elle ressort de ces travaux n'échappant pas non plus à une sévère critique dans le balayage temporel et thématique qu'elles effectuent ces études du même coup rendent compte du paradoxe proprement italien d'une tension ancestrale et originale entre la religion de la politique et la politique de la religion

Papes et Papauté 2013-11-12 attention to the issue of disabilities has intensified in recent decades prompting states and organizations to respond with appropriate measures to promote inclusion of persons with disabilities in all social environments this book's thesis is that the seeds of this inclusivity were planted by the development of tourism for people with disabilities in the nineteenth and twentieth centuries the book explores the development of tourism for people with disabilities in italy during this time period it adds an important tessera to the mosaic of international literature that has rarely considered the history of tourism and the history of disabilities in a unified manner while certainly of great interest to an italian audience the discussion of the various responses taking form in italy to the needs of persons with disabilities and the role these responses have played in the development of mass tourism generally is also quite pertinent to international contexts this book is based largely on unpublished sources the authors hope is that the presentation of these new materials combined with the innovative approach of a historical study of tourism through the lens of disabilities will open up international scholarly debate and discussion drawing in contributions from all disciplines

2002 2011-07-11 following after brilliant authoritarian pope pius xii and good humored pope john xxiii pope paul vi seemed hesitant anxious even tormented yet the impact of his fifteen year long papacy was colossal not a single aspect of church life was left untouched in the whirlwind of change unleashed by the ecumenical council he guided and sought to implement who was this man giovanni battista montini 1897 1978 who so altered the face the voice the bearing of catholicism versatile historian yves chiron is equal to the challenge of portraying this multifaceted and in many ways enigmatic figure who was ordained a priest without passing through the seminary and never held a simple parish assignment taking advantage of hitherto untapped archival sources and the testimony of numerous witnesses chiron builds up a faithful portrait of a figure controversial at every stage of his career from his anti fascist activities as university chaplain to his work in the diplomatic corps which would create tensions with pius xii from his heavy years as archbishop of milan to his janus like role at the second vatican council when his interventions alternately delighted and devastated both progressives and conservatives from his intimate involvement in the recasting of the roman catholic liturgy to his adamant rejection of contraception which left him abandoned by bishops and theologians who held the world's willing ear paul vi emerges as a pope torn between conflicting interpretations of aggiornamento and overwhelmed by crises in the church as he tried to reconcile fundamental principles of dogma with pressures from modernist reformers

Disability and Tourism in Nineteenth- and Twentieth-Century Italy 2021-05-10 the book takes a practical look at the complexity of the nature of violence terrorism in nigeria in the light of the catholic social teaching on non violent resistance with the critical analyses of some policies strategies used to address the problem of boko haram terrorism in nigeria the book explores a range of questions does severe punishment work effectively as deterrence against possible involvement in terrorism does applying lex talionis reduce or exacerbate recidivism what are the right mechanisms to stop terrorism violence in nigeria this book is convinced that nothing is resolved through violence and that violence begets violence alluding that responding to terror with terror is a retaliatory method that is self defeating on the whole it has been noted that the principle or law of retaliation lex talionis alone cannot stop armed insurgency in nigeria thus the book suggests non violent resistance as the best way to address terrorism and violent conflicts non violent resistance does not mean condoning violent attacks against innocent civilians based on the christian ethical principles of the dignity of the human person and justice this book explicitly declares that the killing of innocent civilians is absolutely immoral the book explores the use of the term islamic terrorism and the islamic ethics of justice peace and nonviolence and underlines that the islamic core moral principles in no way support terrorism while stating that terrorism is morally wrong this book states that the causes of terrorism must be addressed with justice and fairness on this basis the book insists on critically investigating the following religious extremism corruption bigotry in politics and religion the glaring sense of apathy among the political elite to the suffering of the oppressed and the mismanagement and abuse of political positions or the nation s resources for selfish interest there must be a rethink aimed at finding the best way to build an ethical society a framework for justice and peace

Christian Democracy in the European Union, 1945/1995 1997 in 1962 pope john xxiii opened the second vatican council with the prophecy that a new day is dawning on the church bathing her in radiant splendour desiring to impart an ever increasing vigour to the christian life of the faithful the council fathers devoted particular attention to the laity and set in motion a series of sweeping reforms the most significant of these centred on refashioning the church s liturgy the source and summit of the christian life in order to make it pastorally efficacious to the fullest degree over fifty years on however the statistics speak for themselves in america only 15 of cradle catholics say that they attend mass on a weekly basis meanwhile 35 no longer even tick the catholic box on surveys in britain the signs are direr still of those raised catholic just 13 still attend mass weekly and 37 say they have no religion but is this all the fault of vatican ii and its runaway reforms or are wider social cultural and moral forces primarily to blame catholicism is not the only christian group to have suffered serious declines since the 1960s if anything catholics exhibit higher church attendance and better retention than most protestant churches do if vatican ii is not the cause of catholicism s crisis might it instead be the secret to its comparative success mass exodus is the first serious historical and sociological study of catholic lapsation and disaffiliation drawing on a wide range of theological historical and sociological sources stephen bullivant offers a comparative study of secularization across two famously contrasting religious cultures britain and the usa

Handbook of Research on Catholic Education 2001-09-30 for massimo faggioli the debate about the meaning of vatican ii too often misses the profound significance of that council s first and perhaps most consequential document sacrosanctum concilium the result is a misunderstanding of both the council as a whole and the liturgical reform that followed from it in true reform faggioli takes sacrosanctum concilium as a hermeneutical key to the council he offers a thorough reflection on the relationship between the liturgical constitution and the whole achievement of vatican ii and argues that the interconnections between the two must emerge if we want to understand the impact of the council on global catholicism

Le vite de' piu eccellenti pittori, scultori e architetti. Con ritratti 1870 la configurazione e l immagine attuale di un opera architettonica antica è il prodotto stratificato delle vicende delle quali essa nel corso del tempo è stata oggetto e soggetto vale a dire che l insieme delle modificazioni che hanno condotto quell opera ad essere quale oggi essa ci appare è al fondo né più né meno che la dimostrazione della sua persistente validità e vitalità tanto in senso fisico e funzionale quanto anche in senso simbolico in quest ottica il complesso romano di san paolo fuori le mura è un caso paradigmatico del divenire di un edificio che pur profondamente mutato nel tempo continua a trasmettere il suo specifico e riconoscibile messaggio di intrinseca persistente validità ed unità concettuale perché come dice l autrice di questo volume al fondo l attuale san paolo fuori le mura è la terza mutazione genetica della basilica quella che come araba fenice è risorta dalle ceneri del grave incendio che nella prima metà del xix secolo ne ha messo in crisi la sopravvivenza si danno insomma tre differenti modi di essere della medesima basilica quello dell edificio piuttosto piccolo dovuto a costantino quello enormemente più vasto conseguente all iniziativa di valentiniano teodosio ed arcadio infine quello che ha preso forma con gli interventi di ricostruzione successivi all incendio ottocentesco
