The Censorship Files

2012-02-01

drawing on extensive research in the spanish national archive alejandro herrero olaizola examines the role played by the censorship apparatus of franco s spain in bringing about the latin american literary boom of the 1960s and 1970s he reveals the negotiations and behind the scenes maneuvering among those involved in the spanish publishing industry converging interests made strange bedfellows of the often left wing authors and the staid officials appointed to stand guard over francoist morality and to defend the supposed purity of castilian spanish between these two uneasily allied groups circulated larger than life real world characters like the barcelona publisher carlos barral and the all powerful literary agent carmen balcells the author details the fascinating story of how novels by mario vargas llosa guillermo cabrera infante gabriel garcía márquez and manuel puig achieved publication in spain and in doing so reached a worldwide market this colorful account underpins a compelling claim that even the most innovative and aesthetically challenging literature has its roots in the economics of the book trade as well as the institutions of government and the exigencies of everyday politics and ideology

the spanish element in our nationality delves beneath the traditional english only narrative of u s history using spain s participation in a series of international exhibitions to illuminate more fully the close and contested relationship between these two countries written histories invariably record the spanish financing of columbus s historic voyage of 1492 but few consider spain s continuing influence on the development of u s national identity in this book m elizabeth boone investigates the reasons for this problematic memory gap by chronicling a series of spanish displays at international fairs studying the exhibition of paintings the construction of ephemeral architectural space and other manifestations of visual culture boone examines how spain sought to position itself as a contributor to u s national identity and how the united states in comparison to other nations in north and south america subverted and ignored spain s messages making it possible to marginalize and ultimately obscure spain s relevance to the history of the united states bringing attention to the rich and understudied history of spanish artistic production in the united states the spanish element in our nationality recovers the spanishness of u s national identity and explores the means by which americans from santiago to san diego used exhibitions

of spanish art and history to mold their own modern self image

the spanish civil war 1936 1939 pitted conservative forces including the army the church the falange fascist party landowners and industrial capitalists against the republic installed in 1931 and supported by intellectuals the petite bourgeoisie many campesinos farm laborers and the urban proletariat provoking heated passions on both sides the civil war soon became an international phenomenon that inspired a number of literary works reflecting the impact of the war on foreign and national writers while the literature of the period has been the subject of scholarship women s literary production has not been studied as a body of work in the same way that literature by men has been and its unique features have not been examined addressing this lacuna in literary studies this volume provides fresh perspectives on well known women writers as well as less studied ones whose works take the spanish civil war as a theme the authors represented in this collection reflect a wide range of political positions writers such as maria zambrano mercè roreda and josefina aldecoa were clearly aligned with the republic whereas others including mercedes salisachs and liberata masoliver sympathized with the nationalists most however are situated in a more ambiguous political space although the ethics and character portraits that emerge in their works might suggest republican sympathies taken together the essays are an important contribution to scholarship on literature inspired by this pivotal point in spanish history

in 25 innovative thematic essays the bloomsbury handbook of the spanish civil war sees an interdisciplinary team of scholars examine a conflict that more than 80 years after its conclusion continues to generate both scholarly and public controversy split into four main sections covering military and diplomatic issues society and culture politics and debates the volume offers a number of unique features it is unprecedented in its comprehensiveness and includes chapters on topics that are rarely if ever explored in the literature of the field humanitarianism children and families material conditions the decimation of elites archives and sources archaeological approaches digital approaches public history and cultural studies approaches instead of discussing each of the two warring sides republicans and francoists separately as is so often the case the book s thematic structure means that these opposing forces are examined together facilitating comparison and fresh understanding in numerous areas of study contributors from the uk the usa canada spain and denmark also analyse the major controversies and disputes surrounding each topic as part of a detailed exploration of one of the seminal events of the 20th century

Ben Macintyre's Espionage Files

2018-02-26

few causes before or since have inspired such passion determination and sacrifice than the spanish civil war 1936 9 this book explores the many ways in which scots responded to the war in spain covering the activists and humanitarians who raised funds and awareness at home as well as the hundreds of scots who journeyed to spain to fight as part of the international brigades their stories reflect much larger narratives of the rise of european fascism the networks and cultures of international communism and the wider modern phenomenon of transnational foreign fighters scots and the spanish civil war is a groundbreaking study of scottish involvement in one of the 20th century s most famous and divisive conflicts drawing on newly declassified government documents and international archives in spain and beyond as well as shedding new light on scottish politics in the 1930s fraser raeburn argues that this case study part of the largest wave of foreign war volunteering in the 20th century can help us understand other such mobilisations past and present
