## **The Innovation Imperative Contributing to Productivity, Growth and Well-Being 2015-10-14**

well timed and targeted innovation boosts productivity increases economic growth and helps solve societal problems but how can governments encourage more people to innovate more of the time and how can government itself be more innovative the oecd innovation strategy provides a set of

## **The Socialist Imperative 2015-07-22**

in a little more than a decade economist michael a lebowitz has written several major works about the transition from socialism to capitalism beyond capital winner of the deutscher prize build it now the socialist alternative and the contradictions of real socialism here he develops and deepens the analysis contained in those pathbreaking works by tracing major issues in socialist thought from the nineteenth century through the twenty first lebowitz explores the obvious but almost universally ignored fact that as human beings work together to produce society s goods and services we also produce something else namely ourselves human beings are shaped by circumstances and any vision of socialism that ignores this fact is bound to fail or at best reproduce the alienation of labor that is endemic to capitalism but how can people transform their circumstances in a way that allows them to re organize production and at the same time fulfill their human potential lebowitz sets out to answer this question first by examining marx s critique of the gotha programme and from there investigates the experiences of the soviet union and more recent efforts to build socialism in venezuela he argues that socialism in the twenty first century must be animated by a central vision in three parts social ownership of the means of production social production organized by workers and the satisfaction of communal needs and communal purposes these essays repay careful reading and reflection and prove lebowitz to be one of the foremost marxist thinkers of this era

## ***The Imperative of Development 2017-09-12***

the achievements and legacy of the wolfensohn center for development at brookings the imperative of development highlights the research and policy analysis produced by the wolfensohn center for development at brookings the center which operated from 2006 to 2011 was the first home at brookings for research on international development it sought to help identify effective solutions to key development challenges in order to create a more prosperous and stable world founded by james and elaine wolfensohn the center s mission was to to create knowledge that leads to action with real scaled up and lasting development impact this volume reviews the center s achievements

and lasting legacy combining highlights of its most important research with new essays that examine the context and impact of that research six primary research streams of the wolfensohn center s work are highlighted in the imperative of development the shifting structure of the world economy in the twenty first century the challenge of scaling up the impact of development interventions the effectiveness of development assistance how to promote economic and social inclusion for middle eastern youth the case for investing in early child development and the need for global governance reform in each chapter a scholar associated with the particular research topic provides an overview of the issue and its broader context then describes the center s work on the topic and the subsequent influence and impact of these efforts the imperative of development chronicles the growth and expansion of the first center for development research in brookings s 100 year history and traces how the seeds of this initiative continue to bear fruit

## **Social Impact Investment 2019 The Impact Imperative for Sustainable Development 2019-01-17**

## **The Export Imperative 1980**

alan coppin is a rare individual his experience and insight span private and public sectors charities and the armed forces the vital importance of human capital is the thread which has bound all this together his book is a rich gold mine of data research wisdom and anecdote sir gerry

grimstone chairman of standard life deputy chairman of barclays non executive director of deloitte and lead non executive director at the ministry of defence in this new book alan coppin a leader with extensive cross sector experience draws on discussions with leaders in the public and private sectors as well as from charities the military and trade unions to offer you the ideas and practical applications that have proved effective in ensuring human capital is properly valued and managed most business decisions are based on lag data historical reporting of what happened last month last quarter or last year it s solid real and comforting unfortunately it s also not a very good indicator of what might happen next the best lead data information with genuine predictive power comes from understanding your people and what they can deliver all major organizations claim that people are their greatest asset and yet at the first sign of problems the first action they take is to fire people why because employees are also an organisation s biggest liability in terms of cost and their cost is much easier to quantify than their value but like any asset human capital will only deliver its full value if it is properly understood measured and managed the author offers you the tools you need to take the issue beyond the hr department and satisfy the number crunchers in the boardroom with their help you can make human capital part of the normal financial metrics essential to running a successful organisation isn t it time you understood and managed the metrics that can predict your organization s future rather than relying on those that simply report on its past

## **The Human Capital Imperative 2017-08-18**

in 2010 the idb published the imperative of innovation a survey of the status of science technology and innovation in the latin american and caribbean region the regions technological progress was found to be uneven and insufficient especially in relation to other regions of the world the main purposes of this document are to present updated information and to introduce some of the new research and policy know how accumulated in the course of idb lending and technical assistance operations in science technology and innovation most of the original diagnostic remains unchanged mostly in the initial section although figures have been updated reflecting the most recently available data the new figures and indicators presented in this edition are derived from the compendium of science technology and innovation indicators compiled by the idb in late 2010

empowering india the imperative for entrepreneurship education

## **Empowering India: The Imperative for Entrepreneurship Education** **2024-02-01**

the world of tertiary education has changed significantly in the past fifteen years developing countries have seen tremendous enrollment growth especially in the private sector many nations are facing an exponentially rising demand as more young people graduate from high school as a result of the successful implementation of the education for all agenda the launch of the sustainable development goals by the united nations in september 2015 has given renewed consideration to the importance of education for development and the urgency of putting in place viable financing strategies against this background this book explores the crucial role played by tertiary education towards achieving the sustainable development goals it observes that tertiary education finds itself at a crossroad today as national systems are pulled in several directions by a combination of factors crisis factors rupture factors and stimulation factors bringing about both opportunities and challenges how these forces in the tertiary education ecosystem play out in each country will determine the new perils and promises that are likely to shape the contribution of tertiary education to economic and social development in the years to come

## **The Tertiary Education Imperative 2017-09-12**

belgium and the netherlands were perfect examples of the welfare without work policy that characterized european welfare states until a political crisis in both countries during the early 1990s produced a surprising divergence in administration while belgium's government announced major reforms its social security policy remained relatively resilient in the netherlands however policymakers implemented unprecedented cutbacks as well as a major overhaul of the disability benefits program the crisis imperative explains this difference as the result of crisis rhetoric that is the deliberate construction of a crisis as the imperative for change it will be a valuable resource for policymakers researchers and anyone interested in welfare reform in the united states and abroad

## **The Crisis Imperative 2006**

European economic recovery appears to be taking hold so is the European crisis over the acute phase of the crisis passed however a number of medium and long term issues remain the policies of internal devaluations are working albeit slowly to restore competitiveness in the countries most affected by the crisis however growth remains at best sluggish the medium and long term outlook remains highly uncertain fomenting social tensions and endangering political stability the restoration of economic dynamism is increasingly perceived as the answer to the question of the European future economically politically and socially there is a broad consensus that dynamic structural reforms and the restoration of competitiveness at the level of the global economy are key answers to current European challenges however whatever the form these may take the transfer of resources is implicit and seemingly necessary to underpin the current structure of Eurozone this indeed raises the question of governance both fiscal and monetary after all the provision of resources implies an allocation and it is hard to imagine that resources will be provided to the common pool unless the providers have some say with respect to allocation and that requires some form of common i.e. centralized decision making procedures in all likelihood exceeding the common understanding of the *acquis communautaire* as it exists today i.e. some form of the effective political arrangement in this context the basic idea which connects all contributions in this volume is the analysis of the problems which affected the Eurozone in the past decade and the challenges and dilemmas the Eurozone will face in the coming years

## **Imperative of Economic Growth in the Eurozone: Competitiveness, Capital Flows and Structural Reforms 2018-01-15**

Discipline specific writing provides an introduction and guide to the teaching of this topic for students and trainee teachers this book highlights the importance of discipline specific writing as a critical area of competence for students and covers both the theory and practice of teaching this crucial topic with chapters from practitioners and researchers working across a wide range of contexts around the world discipline specific writing explores teaching strategies in a variety of specific areas including science and technology social science and business discusses curriculum development course design and assessment providing a framework for the reader analyses the teaching of language features including grammar and vocabulary for academic writing demonstrates the use of genre analysis annotated bibliographies and corpora as tools for teaching provides practical suggestions for use in the classroom questions for discussion and additional activities with each chapter discipline specific writing is key reading for students taking courses in English for specific purposes applied linguistics TESOL TEFL and CELTA

## ***Discipline-Specific Writing 2016-09-13***

robert clark delves into 100 millennia of human history to create a unified and consistent explanation for humankind's inner need to spread itself across the globe he examines key events from different eras such as the voyages of the chinese treasure fleet the shaping of the aztec's trade system in mesoamerica the role of steam powered transport in the supply of an english city the rise of the gas powered engine and the digitization of information in the computer age melding them together to form a framework for understanding the process of globalization drawing on a variety of academic disciplines including the physical sciences biology anthropology geography economics political science sociology and demography clark reveals the spread of humans and their cultures to be part of an ongoing struggle to supply the energy needs of an increasingly large and complex society entropy and thermodynamics terms often ignored or misunderstood by social science students clearly frame a fascinating vision of humans inherent tendency toward a globalized world although human expansion has drawn increasing attention in the last several decades as this tumultuous century has progressed clark shows that the process of globalization is not a recent concept from the very roots of the species humankind has been driven by a range of internal and external factors to expand in order to survive the increasing complexity of human civilization

## ***The Global Imperative 2018-02-12***

the authors argue that with more integration and cooperation between businesses governments and communities a more sustainable economy is possible the environmental magazine we find ourselves between a rock and a hot place compelled by the intertwined forces of peak oil and climate change to reinvent our economic life at a much more local and regional scale the resilience imperative argues for a major see social ecological economic change as a prerequisite for replacing the paradigm of limitless economic growth with a more decentralized cooperative steady state economy the authors present a comprehensive series of strategic questions within the broad areas of energy sufficiency local food systems interest free financing affordable housing and land reform sustainable community development each section is complemented by case studies of pioneering community initiatives rounded out by a discussion of transition factors and resilience reflections with a focus on securing and sustaining change this provocative book challenges deeply embedded cultural assumptions profoundly hopeful and inspiring the resilience imperative affirms the possibilities of positive change as it is shaped by individuals communities and institutions learning to live within our ecological limits resilience is the watchword for our dawning era of economic and environmental instability the resilience imperative is exactly what's needed to get us moving in the right direction richard heinberg author of power limits and prospects for human survival exceptionally valuable in vision in strategic understanding in concrete ways to build

forward a handbook for a morally meaningful and sustainable future gar alperovitz author of america beyond capitalism

## **The Resilience Imperative 2012-06-12**

although there is no one size fits all approach for reforming higher education this clearly written book will productively advance understanding of the challenges colleges and universities face by providing a mapping of the configuration of the market for an undergraduate education

## **The Market Imperative 2017-12-22**

## **The Institutional Imperative 2011-08-18**

this report strengthens the economic case for increased public investment and more robust policy attention to food safety in low and middle income countries and provides guidance on ways to achieve significant broad based impact from such actions

## **The Safe Food Imperative 2018-12-11**

after a half century of transformative economic progress that moved hundreds of millions of people out of poverty countries in developing east asia are facing an array of challenges to their future development slowed productivity growth increased fragility of the global trading system and rapid changes in technology are all threatening export oriented labor intensive manufacturing the region s engine of growth significant global challenges such as climate change and the covid 19 pandemic are exacerbating economic vulnerability these developments raise questions about whether the region s past model of development can continue to deliver rapid growth and poverty reduction against this background the innovation imperative in developing east asia aims to deepen understanding of the role of innovation in future development the report examines the state of innovation in the region and analyzes the main constraints that firms and countries face to innovating it assesses current policies and institutions and lays out an agenda for action to spur more innovation led growth a key finding of the report is that countries current innovation policies are not aligned with their capabilities and needs policies need to strengthen the capacity of firms to innovate and support technological diffusion rather than just invention

policy makers also need to eliminate policy biases against innovation in services a sector that is growing in economic importance moreover countries need to strengthen key complementary factors for innovation including firms managerial quality workers skills and finance for innovation countries in developing east asia would also do well to deepen their tradition of international openness which could foster openness in other parts of the world doing so would help sustain the flows of ideas trade investment and people that facilitate the creation and diffusion of knowledge for innovation

## **The Innovation Imperative for Developing East Asia 2021-05-07**

the united states has the highest per capita spending on health care of any industrialized nation but continually lags behind other nations in health care outcomes including life expectancy and infant mortality national health expenditures are projected to exceed 2 5 trillion in 2009 given healthcare s direct impact on the economy there is a critical need to control health care spending according to the health imperative lowering costs and improving outcomes the costs of health care have strained the federal budget and negatively affected state governments the private sector and individuals healthcare expenditures have restricted the ability of state and local governments to fund other priorities and have contributed to slowing growth in wages and jobs in the private sector moreover the number of uninsured has risen from 45 7 million in 2007 to 46 3 million in 2008 the health imperative lowering costs and improving outcomes identifies a number of factors driving expenditure growth including scientific uncertainty perverse economic and practice incentives system fragmentation lack of patient involvement and under investment in population health experts discussed key levers for catalyzing transformation of the delivery system a few included streamlined health insurance regulation administrative simplification and clarification and quality and consistency in treatment the book is an excellent guide for policymakers at all levels of government as well as private sector healthcare workers

## **The Healthcare Imperative 2011-01-17**

what do young people want from life this book shows how the internal conversation guides individual choices

## **The Reflexive Imperative in Late Modernity 2012-05-03**

time is of the essence climate change looms as a malignant force that will reshape our economy and society for generations to come if we are going to avoid the worst effects of climate change we

are going to need to effectively decarbonize the global economy by 2050 this doesn't mean a modest or even a drastic improvement in fuel efficiency standards for automobiles it means 100 percent of the cars on the road being battery powered or powered by some other non carbon emitting powertrain it means 100 percent of our global electricity needs being met by renewables and other non carbon emitting sources such as nuclear power it means electrifying the global industrial sector and replacing carbon intensive chemical processes with green alternatives eliminating scope one emissions emissions in production across all industries particularly steel cement petrochemicals which are the backbone of the global economy it means sustainable farming while still feeding a growing global population responding to the existential threat of climate change michael lenox and rebecca duff propose a radical reconfiguration of the industries contributing the most and most harmfully to this planetary crisis disruptive innovation and a particular calibration of industry dynamics will be key to this change the authors analyze precisely what this might look like for specific sectors of the world economy ranging from agriculture to industrials and building energy and transportation and examine the possible challenges and obstacles to introducing a paradigm shift in each one with regards to existent business practices and products how much and what kind of transformation can be achieved the authors assert that markets are critical to achieving the needed change and that they operate within a larger scale of institutional rules and norms lenox and duff conclude with an analysis of policy interventions and strategies that could move us toward clean tech and decarbonization by 2050

## **The Decarbonization Imperative 2021-10-19**

clear and frost chart the rise of penal severity in the u s and the forces necessary to end it over the last 40 years the us penal system has grown at an unprecedented rate five times larger than in the past and grossly out of scale with the rest of the world in the punishment imperative eminent criminologists todd r clear and natasha a frost argue that america's move to mass incarceration from the 1960s to the early 2000s was more than just a response to crime or a collection of policies adopted in isolation it was a grand social experiment tracing a wide array of trends related to the criminal justice system this book charts the rise of penal severity in america and speculates that a variety of forces fiscal political and evidentiary have finally come together to bring this great social experiment to an end the authors stress that while the doubling of the crime rate in the late 1960s represented one of the most pressing social problems at the time it was instead the way crime posed a political problem and thereby offered a political opportunity that became the basis for the great rise in punishment clear and frost contend that the public's growing realization that the severe policies themselves not growing crime rates were the main cause of increased incarceration eventually led to a surge of interest in taking a more rehabilitative pragmatic and cooperative approach to dealing with criminal offenders that still

continues to this day part historical study part forward looking policy analysis the punishment imperative is a compelling study of a generation of crime and punishment in america

## **The Punishment Imperative 2013-11-01**

this practical guide to artificial intelligence and its impact on industry dispels common myths and calls for cross sector collaborative leadership for the responsible design and embedding of ai in the daily work of businesses and oversight by boards artificial intelligence has arrived and it s coming to a business near you the disruptive impact of ai on the global economy from health care to energy financial services to agriculture and defense to media is enormous technology literacy is a must for traditional businesses their boards policy makers and governance professionals this is the first book to explain where ai comes from why it has emerged as one of the most powerful forces in mergers and acquisitions and research and development and what companies need to do to implement it successfully it equips business leaders with a practical roadmap for competing and even thriving in the face of the coming ai revolution the authors analyze competitive trends provide industry and governance examples and explain interactions between ai and other digital technologies such as blockchain cybersecurity and the internet of things at the same time ai experts will learn how their research and products can increase the competitiveness of their businesses and corporate boards will come away with a thorough knowledge of the ai governance ethics and risk questions to ask

## **The Artificial Intelligence Imperative 2018-04-12**

jake dalton is determined to live his life as an anonymous face in the crowd he has had enough of the political backstabbing and lack of leadership that infests washington dc unfortunately he learns through his extensive knowledge of the country s national security networks and associated safeguards that those in high political office intend to make a complete mockery of their sworn oaths to protect and defend the constitution of the united states he finds himself in a tumbling vortex of deceit and dishonor in his attempt to prevent those in high public office who would destroy the country from accomplishing their task

## **An Imperative for Caribbean Agricultural Development: "boutique Agriculture". 2016-05-17**

axiom business book awards 2020 gold medalist in philanthropy nonprofit sustainability the time to impact the future is now impact imperative author pamela ryan explores the likely realities facing

our planet and humanity for the next few decades we are as she tells us at a pivotal moment in history individuals organizations and investors are doing immense good but extraordinary challenges are enveloping the planet threatening life and humanity itself escalating extreme weather events shifting global population and power balances widening socioeconomic disparities and rising tensions among extremists and mainstream populations impact imperative stems from consultations with over 130 professionals in the burgeoning impact innovation entrepreneurship and investment space as dr ryan shares insights from these impact innovators about how we can meet these challenges in the next few decades and beyond she encourages readers to think about how our own consequential actions in the present can propel us individually and collectively toward more optimal futures or increasingly destructive futures
