the study of a large scale economy at the level of a government for example is known as macro economics while most consumers wouldn t think that macro economics don t personally affect them the opposite is actually true the current economic climate in a country state or city will affect all the residents and businesses within especially when it comes to tax allotments this is why people who want to control their personal finance or help their small business pamphlets and other educational material can encourage consumers to pay more attention to the economy and use the information

that they glean to their advantage
