about doing it the traditional way in a long essay on the long poem duplessis invokes a quote from ronald johnson americans like to write big poems even if people don t read them it s a joke in part but also a telling indication of the difficulty of the subject long poems are elusive particularly in the slippery forms that have emerged in the postmodern mode duplessis quotes both nathaniel mackey and anne waldman in metaphorizing the poem as a box both in the sense of a vessel that contains and as a machine that processes an instrument on which language is played to reckon with a particularly noncompliant variant of a notoriously slippery form duplessis works in a polyvalent mode a hybrid of critical analysis and speculative essay she resists a single focus approach to the long poem and does not venture a bravura one size all thesis yet there is an arc of argument here even as the book ranges across five chapters and a host of disparate writers duplessis roughly divides the long poem and the long poets into three genres epics quests and something she terms assemblages the poets surveyed will be familiar for most readers of twentieth century american and english poetry t s eliot ezra pound louis zukofsky charles olson alice notley anne waldman nathaniel mackey ron silliman and robert duncan but rather than attempting a definitive treatment of such a long roster duplessis assumes a certain familiarity in order to focus on key works a standout example comes in the third chapter in which duplessis reads dante by way of the modern long poem to generate surprising insights but she also carefully avoids the self confirming search for genealogical patterns e g eliot to pound to williams to zukofsky instead she deliberately seeks to see different but intersecting patterns

---

of connection between poems a nexus rather than a lineage in doing so she works around the metatextual challenge of the long poem and of her own attempt to essay it how to encompass everything the end result is a fascinating and generous work that defies neat categorization as anything other than essential the landscape of international education has changed significantly in the last ten years and our understanding of concepts such as international global and multicultural are being re evaluated fully updated and revised and now including new contributions from research in south east asia the middle east china japan australasia and north america the new edition of this handbook analyses the origins interpretations and contributions of international education and explores key contemporary developments including internationalism in the context of teaching and learning leadership standards and quality in institutions and systems of education the promotion of internationalism in national systems this important collection of research is an essential resource for anyone involved in the practice and academic study of international education including researchers and teachers in universities governmental and private curriculum development agencies examination authorities administrators and teachers in schools economics skills and practice is aimed at the new 2011 economics diploma programme and is suitable for higher and standard level packed full of examples and activities this new series takes the ib student step by step through the essential skills development needed to be successful in the course and examination special attention is paid to unpacking the language of the subject with plenty of workbook style exercises to engage students and

---

reinforce the lessons learnt in the course detailed guidance on the new mathematical elements of the higher level syllabus will provide extra reinforcement and build confidence plenty of activities to practise essential skills improving exam performance information on designing selecting and using diagrams to explain challenging concepts unpicks tricky terminology and guides the correct use of language supporting your real students includes lots of examples and model answers to ensure full comprehension and strengthen exam potential detailed step by step the diploma programme was the first programme to be devised and implemented by the international baccalaureate over fifty years ago since its creation the curriculum upon which the programme is based has been continuously developed to take into account the rapidly changing needs of students schools higher education and employment contexts for much of that time the programme has included three essential components that must be undertaken by students who wish to graduate with the diploma theory of knowledge extended essay and creativity activity service has taken together over time these have come to be regarded as a core of the diploma programme although they were not described as such at the outset this edited collection is intended to provide input into the current review of the ib diploma programme it comprises contributions from experienced authors researchers and practitioners who were invited to reflect upon the nature of the core as it exists at present to raise issues in relation to the future development of the core and to share experience in the learning and teaching of the core components across a wide range of schools in both national and international systems of education
