Security and Privacy for Mobile Healthcare Networks

2015-11-09

this book examines state of art research on designing healthcare applications with the consideration of security and privacy it explains the mobile healthcare network mhn architecture and its diverse applications and reviews the existing works on security and privacy for mhns critical future challenges and research problems are also identified using a quality of protection perspective the authors provide valuable insights on security and privacy preservation for mhns some promising solutions are proposed to accommodate the issues of secure health data transmission misbehavior detection health data processing with privacy preservation and access control in mhns specifically the secure health data aggregation explores social spots to help forward health data and enable users to select the optimal relay according to their social ties and health data priority the secure aggregation achieves the desirable delivery ratio with reasonable communication costs and lower delay for the data in different priorities a proposed misbehavior detection scheme distinguishes sybil attackers from normal users by comparing their mobile contacts and pseudonym changing behaviors the detection accuracy is high enough to resist various sybil attacks including forgery in addition the health data processing scheme can analyze the encrypted health data and preserve user s privacy at the same time attribute based access control can achieve fine grained acces s control with user defined access policy in mhns security and privacy for mobile healthcare networks is designed for researchers and advanced level students interested in healthcare security and secure data transmission

Computer Program NCALC User's Manual

1986

a great resource anywhere you go it is an easy tool that has just the words you want and need the entire dictionary is an alphabetical list of law words with definitions this ebook is an easyto understand guide to law terms for anyone anyways at any time usa ka dakung kapanguhaan bisan asa ka moadto kini usa ka sayon nga himan nga adunay mga pulong lamang nga imong gusto ug gikinahanglan ang tibuok nga diksyonaryo usa ka lista sa alpabetiko sa mga pulong sa balaod nga adunay mga kahulugan ang kini nga ebook usa ka sayon nga pagsabut nga giya sa mga termino sa balaod alang sa bisan kinsa bisan unsang panahon

Nimbus-7 Earth Radiation Budget Compact Solar Data Set User's Guide

1994

this book constitutes the thoroughly refereed proceedings of the 10th international conference on design science research in information systems and technology desrist 2015 held in dublin ireland in may 2015 the 22 full papers 11 short papers and 10 short papers describing prototypes and products were carefully reviewed and selected from 111 submissions the papers are organized in topical sections on design science research in action meta perspectives data mining and analytics emerging themes design practice and design thinking and prototypes

Herodotus I.-III.

1883

optimize your dynamic spectrum access approach using the latest applications and techniques dynamic spectrum access decisions local distributed centralized and hybrid designs prepares engineers to build optimum communications systems by describing at the outset what type of spectrum sensing capabilities are needed meant for anyone who has a basic understanding of wireless communications and networks and an interest in the physical and mac layers of communication systems this book has a tremendous range of civilian and military applications dynamic spectrum access decisions provides fulsome discussions of cognitive radios and networks but also dsa technologies that operate outside the context of cognitive radios dsa has applications in licensed spectrum bands unlicensed spectrum bands civilian communications military communications consisting of a set of techniques derived from network information theory and game theory dsa improves the performance of communications networks this book addresses advanced topics in this area and assumes basic knowledge of wireless communications

The Ancient Empires of the East

1892

this book is a companion to the 19th edition of the sears list and a complete course in the theory and practice of the list for practitioners teachers and learners the object of this small practical introduction is to be simple clear and illustrative assuming the reader has little prior knowledge either of the sears list or of subject headings work in general

The Ancient Empires of the East

1883

this book constitutes the refereed proceedings of the 21st international colloquium on structural information and communication complexity sirocco 2014 held in takayama japan in july 2014 the 24 full papers presented together with 5 invited talks were carefully reviewed and selected from 51 submissions the focus of the colloquium is on following subjects shared memory and multiparty communication network optimization congest algorithms and lower bounds wireless networks aggregation and creation games in networks patrolling and barrier coverage exploration rendezvous and mobile agents

Data User News

1984

get ready to travel to the polar regions of our planet and learn more about the arctic circle and antarctica readers will discover the plant life and animals that live in these harsh climates and the special traits that help them survive

Essential 25000 English-Cebuano Law Dictionary

2018-03-18

presents 66 contributions from the July 2000 conference the technical areas covered are multimedia systems group communications checkpointing and commitment based computing distributed shared memory multicast object oriented programming routing fault tolerant systems high performance databases parallel systems mobile systems distributed algorithms multi agent systems and parallel and distributed query processing annotation copyrighted by book news inc portland or

New Horizons in Design Science: Broadening the Research Agenda

2015-04-30

master the numerical simulation process required to design test and support mobile and parallel computing systems an accompanying ftp site contains all the visual c based programs discussed in the text to help readers create their own programs with its focus on problems and solutions this is an excellent text for upper level undergraduate and graduate students and a must have reference for researchers and professionals in the field of simulations more information about visual c based programs can be found at ftp.wiley.com/public/sci_tech_med/numerical_simulations

Research Reporting Series

1972

this book broadly covers the given spectrum of disciplines in computational life sciences transforming it into a strong helping hand for teachers students practitioners and researchers in life sciences problem solving and data analysis often depend on biological expertise combined with technical skills in order to generate manage and efficiently analyse big data these technical skills can easily be enhanced by good theoretical foundations developed from well chosen practical examples and inspiring new strategies this is the innovative approach of computational life sciences data engineering and data mining for life sciences we present basic concepts advanced topics and emerging technologies introduce algorithm design and programming principles address data mining and knowledge discovery as well as applications arising from real projects chapters are largely independent and often flanked by illustrative examples and practical advice

Journal of Management Information Systems

1988

intelligent computing refers greatly to artificial intelligence with the aim at making computer to act as a human this newly developed area of real time intelligent computing integrates the aspect of dynamic environments with the human intelligence this book presents a comprehensive practical and easy to read account which describes current state of the art in designing and implementing real time intelligent computing to robotics alert systems iot remote access control multi agent systems networking mobile smart systems crowd sourcing broadband systems cloud computing streaming data and many other applications areas the solutions discussed in this book will encourage the researchers and it professional to put the methods into their practice

Dynamic Spectrum Access Decisions

2020-08-24

the aim of the ceemas conference series is to provide a biennial forum for the presentation of multi agent research and development results with its particular geographical orientation towards central and eastern europe ceemas has become an internationally recognised event with participants from all over the world after the successful ceemas conferences in st petersburg 1999 cracow 2001 and prague 2003 the 2005 ceemas conference takes place in budapest the programme committee of the conference series consists of established researchers from the region and renowned international colleagues showing the prominent rank of ceemas among the leading events in multi agent systems in the very competitive field of agent oriented conferences and workshops nowadays such as aamas wiat eumas ciama etc the special profile of ceemas is that it is trying to bridge the gap between applied research achievements and theoretical research activities our ambition is to provide a forum for presenting theoretical research with an evident application potential implemented application prototypes and their properties as well as industrial case studies of successful but also unsuccessful agent technology deployments this is why the ceemas proceedings volume provides a collection of research and application papers the technical research paper section of the proceedings see pages 11 499 contains pure research papers as well as research results in application settings while the application papers section see pages 500 530 contains papers focused on application aspects the goal is to demonstrate the real life value and commercial reality of multi agent systems as well as to foster communication between academia and industry in this field

User's Guide for HIWAY, a Highway Air Pollution Model

1975

cryptography is hard but it's less hard when it's filled with adorable japanese manga the latest addition to the manga guide series the manga guide to cryptography turns the art of encryption and decryption into plain comic illustrated english as you follow inspector jun meguro in his quest to bring a cipher wielding thief to justice you'll learn how cryptographic ciphers work ciphers are the algorithms at the heart of cryptography like all books in the manga guide series the manga guide to cryptography is illustrated throughout with memorable japanese manga as it dives deep into advanced cryptography topics such as classic substitution polyalphabetic and transposition ciphers symmetric key algorithms like block and des data encryption standard ciphers and how to use public key encryption technology it also explores practical applications of encryption such as digital signatures password security and identity fraud countermeasures the manga guide to cryptography is the perfect introduction to cryptography for programmers security professionals aspiring cryptographers and anyone who finds cryptography just a little bit hard

Structural Information and Communication Complexity

2014-07-16

the objective of this book is to report on contemporary trends in the defence research community on trust in teams including inter and intra team trust multi agency trust and coalition trust the book also considers trust in information and automation taking a systems view of humans as agents in a multi agent socio technical community the different types of trust are usually found to share many of the same emotive behavioural cognitive and social constructs but differ in the degree of importance associated with each of them trust in military teams is written by defence scientists from the usa canada australia and the uk under the auspices of the transfer cooperation programme it is representative of the latest thinking on trust in teams and is written for defence researchers postgraduate students academics and practitioners in the human factors community

Cool Creatures: Animals From The Ends Of The Earth

2022-01-21

this book constitutes the thoroughly refereed post proceedings of the second international conference on the quality of software architectures qosa 2006 held in västerås sweden in june 2006 co located with the 9th international symposium on component based software engineering cbse 2006 coverage includes architecture evaluation managing and applying architectural knowledge and processes for supporting architecture quality

Seventh International Conference on Parallel and Distributed Systems

2000

structural irregularities are one of the most frequent causes of severe damages in buildings as evidenced by the numerous earthquakes in recent years this issue is of particular importance since real structures are almost all irregular furthermore structural irregularities depend on several factors often very difficult to predict this book is an essential tool for understanding the problem of structural irregularities and provides the most up to date review on this topic covering the aspects of ground rotations analysis design control and monitoring of irregular structures it includes 24 contributions from authors of 13 countries giving a complete and international view of the problem

Numerical Simulations and Case Studies Using Visual C++.Net

2005-06-17

this two volume set lncs 10915 and 10916 constitutes the refereed proceedings of the 12th international conference on augmented cognition ac 2018 held as part of the 20th international conference on human computer interaction hci 2018 in las vegas nv usa in july 2018 the 1171 papers presented at hci 2018 conferences were carefully reviewed

and selected from 4346 submissions the papers cover the entire field of human computer interaction addressing major advances in knowledge and effective use of computers in a variety of applications areas the papers in this volume are organized in the following topical sections cognitive modeling perception emotion and interaction augmented learning and training shared cognition team performance and decision making
