love our hearts yearn for it we fall into it or out of it we

It does almost anything to attain and keep it those who have experienced the power of love whirl from its embrace it is delicious anguish gut wrenching pain and intoxicating allure nations go to war over it crimes are committed to satisfy its demands lives are often ruined because of it and extraordinary feats of courage and sacrifice are performed in its name but beyond the clichés and greeting card platitudes do we really understand what love is and how it alters the way we think feel and behave should love be viewed as little more than a lusty romp or is there more to it what is the relationship between love and romance caring concern compassion thoughtfulness sex and the many other components that our society jumbles together in this potent potpourri whose power can give strength to the weakest among us or turn powerhouses of strength into emotional mush it is precisely because love is such an important part of our lives that we owe it to ourselves to reach beyond overwhelming passion and the roadblocks of illusion to achieve real understanding of this extraordinary human phenomenon it won't always be easy in fact it's sometimes quite painful but the rewards are many for those who will risk exploring their own cherished attitudes about a subject that has held us in its grip for centuries and shows no signs of letting go some of the topics covered are what I feel in my heart on the alleged origins of romantic love what do I want when I want you why do I love you the importance of being honest love sex and intimacy beyond sex and gender what's so good about love

The Science of Love and Betrayal

2013

since ancient times people have been enthralled by the complex and multifaceted emotion of love however the true nature of love is much more complex than that it is frequently described as an intense feeling of affection devotion and attachment toward someone love can be many different things but there isn t a single universal definition that everyone can agree on if you ever made a mistake in love regretted a broken relationship developed the wrong ideology due to betrayal unreciprocated love or probably for no reason at all you have a negative mindset about love from the standpoint of the original author the misperception resulted from an inability to comprehend love and demonstrate love love isn t a lot of things among them it s about respecting the autonomy of the other person

and encouraging their personal development rather than owning or controlling them for a relationship to be truly loving both partners must feel free to pursue their interests and ambitions and have a mutual feeling of trust in one another love is not always simple a strong and happy relationship needs work flexibility and open communication to stay that way love is a support system that aids you in overcoming the difficulties and roadblocks you encounter in life rather than a miracle solution to all of life s issues the supply of love is limitless it is a resource that can keep increasing and expanding throughout your life rather than being something that depletes or wears out love can be shared with friends relatives and even strangers it is not exclusive to one person or one relationship in essence god is love therefore to truly express someone who is love you must first have a close relationship with them only the source of love can enable you to be filled with love

we make sense of love with fantasies stories that shape feelings that are otherwise too overwhelming incoherent and wayward to be tamed for love is a complex bewildering and ecstatic emotion covering a welter of different feelings and moral judgements drawing on philosophy fiction art letters memoirs and evidence from everyday life historian barbara h rosenwein explores five of our most enduring fantasies of love like minded union transcendent rapture selfless giving obsessive longing and insatiable desire each has had a long and kaleidoscopic history with lasting effects on how we in the west think about love today yet each leads to a different conclusion about what we should strive for in our relationships if only we could peel back the layers of love and discover its true essence but love doesn't work like that it is constructed on the shards of experience story and feeling shared over time intertwined with other fantasies by understanding the history of how we have

what is love what is it to be loved can we trust love is it overrated these are just some of the questions tony milligan pursues in his novel exploration of a subject that has occupied philosophers since the time of plato tackling the mood of pessimism about the nature of love that reaches back through schopenhauer and kierkegaard he examines the links between love and grief love and nature and between love of others and loving oneself we love too few things in the world milligan concludes adding that we need to be loved too to appreciate our own value and the worth of life itself

Love and Friendship

since the end of the eighteenth century the pursuit of true love has been enshrined in the expectations of western societies we regard this pursuit as our right and organize our lives around it however the possibility that love is becoming more difficult to achieve in the west has begun to attract considerable attention the consensus is that love is both deeply desirable and extremely difficult to find this highly original book explores two aspects of the nature of the apparently

socially essential glue of love the first theme concerns the sources of our ideas about love where the concept originated and most importantly what its relationship has been to morality and moral systems the second theme is our determination to find love whatever the social and personal costs the desire for identification with another person drives us to impossible expectations and occasionally damaging alternatives in a compelling critique this book rejects the high romantic version of love as well as what could be described as a contractual version of love in their place it describes a love that depends upon reasoned care and commitment and argues that we should abandon love in its romanticized and commercialized form

love has a history it has meant different things to different people at different moments and has served different purposes this book tells the story of love at a crucial point a moment when the emotional landscape changed dramatically for large numbers of people it is a story based in england but informed by america and covers the period from the end of the first world war until the break up of the beatles to the casual observer this era was a golden age of marriage more people married than ever before they did so at increasingly younger ages and there was a revolution in our idea of what marriage meant pragmatic notions of marriage

as institution were superseded by the more romantic ideal of a relationship based upon individual emotional commitment love sex and personal fulfilment and yet this new idea of marriage based on a belief in the transformative power of love and emotion carried within it the seeds of its own destruction romantic love particularly when tied to sexual satisfaction ultimately proved an unreliable foundation upon which to build marriages fatally it had the potential to evaporate over time and under pressure scratching beneath the surface of the apparent golden age of marriage claire langhamer uncovers the real story of love in the twentieth century via the recollections of ordinary people who lived through the period it is a tale of quiet emotional instability persistent subversion and unsettling change at its end the idea of life long marriage was in serious decline and as langhamer shows this was a decline directly rooted in the contradictions and tensions that lay at the heart of the emotional revolution itself
