Sociological Aspects of Economic Growth

1964

within development economics there has always been a tendency to draw a distinction between the domestic and international aspects of the subject with many economists arguing that the domestic context is of much greater interest than the international arena in which it exists this is an extreme view which ignores the complex interplay between the internal and external environments international aspects of economic development examines important aspects of economic development debt energy environment industrialization trade and aid and shows that these are problems that cannot be viewed solely from one country s perspective but must be viewed as part of an international system to gain the greatest understanding key features written by well known international economists discusses all aspects of economic development

International Aspects of Economic Development

1992

a quantitative account of european growth since 1950 which combines historical and economic expertise

Sociological Aspects of Economic Growth

1952

Quantitative Aspects of Post-War European Economic Growth

1996

the collection of papers presented in this special issue arose out of two events the first was the symposium escaping satiation increasing product variety preference change and the demand side of economic growth which was held at the max planck institute in jena germany in december 1997 the fritz thyssen foundation provided financial support for this seminal symposium which is gratefully acknowledged wilhelm ruprecht was of great help in preparing the symposium and i

would like to express my gratitude to him on this occasion many stimulating exchanges with him over the past few years while he was a research associate at the institute working on long term changes in consumption convinced me of the relevance and importance of this problem for understanding modern economic growth i also owe thanks to many people who encouraged me to go ahead with the symposium among them stanley metcalfe carl christian von weizsäcker and also ehud zuscovitch who died so unexpectedly last year

Economic Geography

1980

first published in 2005 the carolingian empire short lived as it was is the central feature of those centuries of european history which are usefully if now somewhat unfashionably known as the dark ages this book looks at complexity and diversity of economic conditions and economic aspects of the dark age

Industrialization and Labor

1951

there are in simple terms three principal kinds of capital that come necessarily into play when a society is evolving towards improving the lives livelihoods and qualities of life of its people the first form of capital is financial this normally includes physical forms of invested money in plant buildings and infrastructure the second form of capital is human seen simply as the level and range of skills and capabilities that are available for use in the society when people are literate numerate skilled experienced informed cooperative and inquisitive they and their societies can do much more the third form of capital is social here cooperativeness shows its effects and the rules of how that works vary greatly between societies it is the second of these elements human capital that is the main focus of this book but it overlaps with social capital extensively in these accounts and can only be understood in terms of its connections into the wider societal system the varying patterns of its workings and influence in different asian contexts are explained against the background of a theory

of societal progress this book was originally published as a special issue of the asia pacific business review

Sociological Aspects of Economic Development

1967

sustainable development has become one of the topics in modern economics since the club of rome pointed to limitations of economic growth caused by shortage of natural resources and environmental destruction western industrial countries have made efforts to avoid these limitations and to establish conditions for sustainable growth this is the background of a collection of articles published in this book they are focused on theoretical analysis of growth and environment political activities concerning environmental improvement and actual problems of sustainable development in poland

Economic Science and Practice

1896

this is the fourth volume in a series of books published for the egon sohmen foundation like its predecessors it contains the papers discussed at a symposium this symposium was held in vancouver canada thanks to the organizational support of herbert grubel who also gave advice on finding and selecting competent participants the format was the same as for the previous conferences that had taken place in europe at laxenburg austria towards a market economy in central and eastern europe tegernsee bavaria money trade and competition and linz austria egon sohmen s birthplace economic concerns and that led to similar gress and environmental conference volumes published by the springer verlag the topic economic aspects of international migration was chosen because we thought that migration from east to west would soon become an issue in europe that its implications should be discussed in a sober manner publicly as well as among experts and that a conference volume on its economic implications and on the well researched experience of immigration countries like the u s a and canada would be the best contribution the egon sohmen foundation could make in this field it is also remarkable in this context that egon sohmen was a migrant of sorts just as some of those who shared responsibility for this
