From the Ground Up 2001 amy stewart had a simple dream she yearned for a garden filled with colorful jumbles of vegetables and flowers after she and her husband finished graduate school they pulled up their texas roots and headed west to santa cruz california with little money in their pockets they rented a modest seaside bungalow with a small backyard it wasn't much a twelve hundred square foot patch of land with a couple of fruit trees and a lot of dirt a good place to start from the ground up is stewart's quirky humorous chronicle of the blossoms and weeds in her first garden and the lessons she's learned the hard way from planting seeds her great grandmother sends to battling snails gophers and aphids stewart takes us on a tour of four seasons in her coastal garden confessing her sins and delighting in small triumphs she dishes the dirt for both the novice and the experienced gardener along the way she brings her quintessential california beach town to life complete with harbor seals monarch butterfly migrations and an old fashioned seaside amusement park just down the street each chapter includes helpful tips alongside the engaging story of a young woman's determination to create a garden in which the plants struggle to live up to the gardener's vision

Research from the Ground Up 2000 cole director california rural legal assistance foundation's center on race poverty and the environment and foster law rutgers university examine the movement for environmental justice in the united states tracing the movement's roots and illustrating the historical and contemporary causes of environmental racism they combine their analysis with a narrative account of struggles from around the country including those in kettleman city california chester pennsylvania and dilkon arizona in so doing they consider the transformative effects this movement has had on individuals communities and environmental policy annotation copyrighted by book news inc portland or

From the Ground Up 2001 when a teaspoon of soil contains millions of species and when we pave over the earth on a daily basis what does that mean for our future what is the risk to our food supply the planet's wildlife the soil on which every life form depends how much undeveloped untrodden ground do we even have left paul bogard set out to answer these questions in the ground beneath us and what he discovered is astounding from new york where more than 118 000 000 tons of human development rest on top of manhattan island to mexico city which sinks inches each year into the aztec ruins beneath it bogard shows us the weight of our cities footprints and as we see hallowed ground coughing up bullets at a civil war battlefield long hidden remains emerging from below the sites of concentration camps the dangerous alluring power of fracking the fragility of the giant redwoods our planet's oldest living things the surprises hidden under a major league ballpark's grass and the sublime beauty of our few remaining wildest places one truth becomes blazingly clear the ground is the easiest resource to forget and the last we should bogard's the ground beneath us is deeply transporting reading that introduces farmers geologists ecologists cartographers and others in a quest to understand the importance of something too many of us take for granted dirt from growth and life to death and loss and from the subsurface technologies that run our cities to the dwindling number of idyllic edens that remain this is the fascinating story of the ground beneath our feet

The Gardener's Assistant: Practical and Scientific ... 1878 quickly master c and use the new features of the latest standard written by leading programming author herb schildt c from the ground up fourth edition is substantially updated to cover the features in the new c standard c 0x the book includes two new chapters and integrates a great deal of new material into existing chapters this in depth tutorial starts with the basics covers the fundamentals moves on to the core of the language and concludes with advanced features by the time you finish the book you'll be an accomplished c programmer c from the ground up fourth edition teaches you how to become an accomplished c programmer utilizing the new features of the new standard contains margin notes in depth sidebars reminders and hands on examples includes new coverage of concepts multithreading regular expressions lambda expressions the new keywords such as constexpr and nullptr and upgrades to the for loop features retested and updated code examples
