paul atkinson explores the remarkable world of opera through his fieldwork with the internationally known welsh national opera company in order to show us how cultural phenomena are produced and enacted he takes us on stage and behind the scenes into the collective social action that goes into the realization of an opera the author demonstrates how artistic interpretation is translated into the routine work of the rehearsal studio and the theatre and how producers negotiate a practical reality with her or his performers to ultimately create extraordinary performances through the mundane everyday work that makes them possible the author calls for a sustained investigation of cultural phenomena not based solely on textual analysis but on the importance of collective work and social organization atkinson's work will appeal to anthropologists and sociologists who study the performance arts as well as to those engaged in theatre arts opera and music

Mary Wollstonecraft wrote these two novellas at the beginning and end of her years of writing and political activism though written at different times they explore some of the same issues: ideals of femininity as celebrated by the cult of sensibility, the unequal education of women and domestic subjugation. Mary counters the contemporary trend of weak emotional heroines with the story of an intelligent and creative young woman who educates herself through her close friendships with men and women. Darker and more overtly feminist, *The Wrongs of Woman* is set in an insane asylum where a young woman has been wrongly imprisoned by her husband. By presenting the novellas in light of such texts as Wollstonecraft's *Letters*, her polemical and educational prose, similar works by other feminists and political reformists, the literature of sentiment and contemporary medical texts, this edition encourages an appreciation of the complexity and sophistication of Wollstonecraft's writing goals as a radical feminist in the 1790s.
