Memoir of Rev. Joseph Harrington (Classic Reprint) 2018-01-23 excerpt from memoir of Rev. Joseph Harrington. Joseph Harrington Junior was born in Roxbury, Massachusetts, on the 21st day of February, A.D. 1813. His father was a lawyer who practised his profession many years in Norfolk and Suffolk counties and occasionally held court as a Justice of the Peace. His mother still resides at Roxbury, the survivor of her husband and eldest son whose life is the subject of this brief narrative. The years of childhood are not unfrequently passed over as unworthy of notice. It is true that they are usually wanting in striking incidents, but those are not the only ones to be deemed important which excite the imagination, arouse the feelings, or seem to have been followed by obvious results. Of Some Sky 2017 things come on is a broken and sutured hybrid of forms combining poetry prose narration primary documents dramatic dialogue and pictures the narrative is woven around the almost exact concurrence of the watergate scandal and the dates of the poet s mother s illness and death from breast cancer and weaves together private and public tragedies showing how the language of illness and of political cover up powerfully resonate with one another the resulting amneoir a blend of memoir and amnesia explores a time for which the author must rely largely on testimony and documentary evidence not unlike the congress and the nation did during the same period absences amnesia and silences count for at least as much as words as the double tragedy unfolds it refuses to become part of an overarching system metaphor or metanarrative but rather raises questions of memory and evidence gender and genre personal and political and expert vs lay language this haunting experimental biography challenges our assumptions about the distance between individual experience and history a reader s companion is available at thingscomeonreader site wesleyan edu

Understanding the Manufacturing Process 2020-11-25 the best short stories of 1920 and the yearbook of the american short story by edward joseph harrington o brien i suppose there is no one of us who can honestly deny that he is interested in one way or another in the american short story indeed it is hard to find a man anywhere who does not enjoy telling a good story but there are some people born with the gift of telling a good story better than others and of telling it in such a way that a great many people can enjoy its flavor most of you are acquainted with some one who is a gifted story teller provided that he has an audience of not more than one or two people and if you chance to live in the same house with such a man i think you will find that no matter how good his story may have been when you first heard it it tends to lose its savor after he has become thoroughly accustomed to telling it and has added it to his private repertory a writer of good stories is really a man who risks telling the same story to many thousand people did you ever take such a risk did you ever start to tell a story to a stranger and try to make your point without knowing what sort of a man he was if you did what was your experience you decided didn t you that story telling was an art and you wondered perhaps if you were ever going to learn it the american story teller in the magazines is in very much the same position except that we have much more patience with him usually he is a man who has told his story a good many times before the first time he told it we clapped him on the back as he deserved perhaps and said that he was a good fellow his

publishers said so too and it was a good story that he told the trouble was that we wanted to hear it again and we paid him too well to repeat it but just as your story became rather less interesting the twenty third time you told it so the stories i have been reading more often than not have made a similar impression upon me i find myself begging the author to think up another story of course you have not felt obliged to read so many stories and i cannot advise you to do so but it has made it possible for me to see in some sort of perspective just where the american short story is going as well as what it has already achieved it has made me see how american writers are weakening their substance by too frequent repetition and it has helped me to fix the blame where it really lies we are delighted to publish this classic book as part of our extensive classic library collection many of the books in our collection have been out of print for decades and therefore have not been accessible to the general public the aim of our publishing program is to facilitate rapid access to this vast reservoir of literature and our view is that this is a significant literary work which deserves to be brought back into print after many decades the contents of the vast majority of titles in the classic library have been scanned from the original works to ensure a high quality product each title has been meticulously hand curated by our staff our philosophy has been guided by a desire to provide the reader with a book that is as close as possible to ownership of the original work we hope that you will enjoy this wonderful classic work and that for you it becomes an enriching experience

Eye of Evil 1993 author joseph d harrington has written an informative and insightful history of the nisei second generation japanese americans working for the u s armed forces in the pacific during world war ii this is no

whitewashed narrative as it exposes u s internment camps prejudices and the frustrations of patriotic japanese americans who wanted to fight for their country but were initially rebuffed as the book relates not all nisei were in favor of fighting and even those that did encountered another kind of prejudice at first from hawaiian born nisei who more than occasionally felt that continental japanese americans just didn t measure up linguistically speaking like other children of immigrants the nisei were to a large extent caught between japanese tradition and u s culture the concept of honor an essential element in japanese american family life ended up serving u s military interests well the author has done an outstanding job of uncovering names and telling little known stories especially fascinating are the ones that describe the analytical acumen of nisei translators

The Best Short Stories of 1917 and the Yearbook of the American Short Story 2018-06-27 a review of the theoretical research on unlawful collusion focusing on the impact and optimal design of competition law and enforcement collusion occurs when firms in a market coordinate their behavior for the purpose of producing a supracompetitive outcome the literature on the theory of collusion is deep and broad but most of that work does not take account of the possible illegality of collusion recently there has been a growing body of research that explicitly focuses on collusion that runs afoul of competition law and thereby makes firms potentially liable for penalties this book by an expert on the subject reviews the theoretical research on unlawful collusion with a focus on two issues the impact of competition law and enforcement on whether how long and how much firms collude and the optimal design of competition law and enforcement the book begins by discussing general issues that arise when models of collusion take into account competition law and enforcement it goes on to consider game theoretic models that encompass the probability of detection and penalties incurred when convicted and examines how these policy instruments affect the frequency of cartels cartel duration cartel participation and collusive prices the book then considers the design of competition law and enforcement examining such topics as the formula for penalties and leniency programs the book concludes with suggested future lines of inquiry into illegal collusion

A Renegade Poet, and Other Essays 2023-07-18 the best short stories of 1919 and the yearbook of the american short story by edward joseph harrington o brien introduction i should like to take the text for my remarks this year on the american short story from that notable volume of criticism our america by waldo frank for the past year it has been a source of much questioning to me to determine why american fiction as well as

the other arts fails so conspicuously in presenting a national soul why it fails to measure sincerely the heights and depths of our aspirations and failures as a nation and why it lacks the vital élan which is so characteristic of other literatures we know of course that we are present at the birth of a new national consciousness in our people but why is it that this national consciousness seems so tangled in evasion of reality and in deep inhibitions that stultify it mr frank suggests for the first time the root of the cancer and like a skilful surgeon points out how it may be healed his book is the first courageous diagnosis of our weakness and i think that the attentive and honest reader will not feel that he is unduly harsh or spiritually alienated from us briefly put he finds that our failure lies in not distinguishing between idealism in itself and idealization of ourselves we regard a man who challenges our self righteousness and self admiration as an enemy of the people what we call our idealism is rooted in materialism and the goal we set ourselves virtuously is a goal of material comfort for ourselves and that once attained perhaps also for others no american can hope to run a journal win public office successfully advertise a soap or write a popular novel who does not insist upon the idealistic basis of his country a peculiar sort of ethical rapture has earned the term american and the reason is probably at least in part the fact that no land has ever sprung so nakedly as ours from a direct and consciously material impulse we are delighted to publish this classic book as part of our extensive classic library collection many of the books in our collection have been out of print for decades and therefore have not been accessible to the general public the aim of our publishing program is to facilitate rapid access to this vast reservoir of literature and our view is that this is a significant literary work which deserves to be brought back into print after many decades the contents of the vast majority of titles in the classic library have been scanned from the original works to ensure a high quality product each title has been meticulously hand curated by our staff our philosophy has been guided by a desire to provide the reader with a book that is as close as possible to ownership of the original work we hope that you will enjoy this wonderful classic work and that for you it becomes an enriching experience

The Theory of Collusion and Competition Policy 2017-11-16 in the spring of 1992 robert alton harris execution the first in twenty five years was scheduled to take place at san quentin state prison in california there was no

question of harris guilt in 1978 he murdered two sixteen year old boys for their vehicle which he and his brother used as a getaway car in a subsequent bank robbery a newspaper reporter is assigned to cover the story of the double murder and since her father had also been a murder victim she possessed a passionate belief in the death penalty fourteen years later when assigned to cover the harris execution she prepares for being a witness to the punishment by interviewing the executioners at san quentin and learning as much as she could about the process and protocol of putting a man to death in the gas chamber the story is the reporter s own odyssey through research observations and interviews as she comes to the conclusion that no matter what she believes or wants the death penalty does not work the events described in an execution s odyssey however transcend far beyond the death of robert alton harris the book demonstrates how in a very unusual sense his death created a spiritually uplifting resolution for the reporter the harris execution also brings into sharp focus questions being raised today involving not only the eighth amendment but also the first and fourteenth in 1992 at the time of harris execution 80 of californians favored the death penalty in 2012 californians went to the polls and voted 52 to 48 to retain the punishment an appalling number of those citizens who supported the ballot measure thought capital punishment was cost effective this book proves the exact opposite

Computer Integrated Manufacturing 1979 of mists and monsoons traces the life and fortunes of the principal character from the mists of ireland to the monsoons of india born the eldest child of an irish catholic family of subsistent potato farmers sean o hara was in his teens when ireland was overwhelmed by the great famine in 1845 his family struggled to survive two successive years of potato blight but succumbed one by one leaving sean the sole survivor the only way out offered was the chance to join a unit of the british army stationed in dublin and with them he was transported to india he changed his name which was customary for irish recruits and arrived in india as joseph harrington years on joe was overwhelmed again this time by the indian sepoy mutiny of 1857 in the meantime this remarkable young man overcame every challenge he was set he married an irish girl he found in a convent and with her raised a family of four the story is loosely based on the author s own family history as her great grandfather was indeed born in ireland joined the british army and went to india he stayed there for the rest of his life and founded a family that remained there until partition in 1946 drove them to england and uganda anecdotes from the author s childhood told by her mother are woven into the story

wherever possible it is worthy of note that Joseph Harrington prophesied to his close friend Rajah Saeed Khan that though the Indians were defeated in their mutiny of 1857 they would finally rise and throw off the British overlords. He was proved right in 1947.

Trauma, Shame, and Secret Making 2017-09-11 This innovative textbook makes the tools and applications of game theory and strategic reasoning both fascinating and easy to understand. Each chapter focuses on a specific strategic situation as a way of introducing core concepts informally at first, then more fully with a minimum of mathematics. At the heart of the book is a diverse collection of strategic scenarios not only from business and politics but from history, fiction, sports, and everyday life. As well as this approach, students don't just learn clever answers to puzzles but instead acquire genuine insights into human behaviour. Written for major courses in economics, business, political science, and international relations, this textbook is accessible to students across the undergraduate spectrum.

Of Mists and Monsoons 2014-11-05 This is the story of the People's Republic of China's success in having Washington recognize Beijing as the legitimate capital of mainland China, replacing Taiwan's nationalist government's claims. To the contrary, this is a unique story given the mindset of Washington in 1952 that Communism was evil and had to be contained. Who would have anticipated that the 1954 Geneva Conference talks about the repatriation of detained nationals would lead to President Carter granting Beijing diplomatic recognition on January 1, 1979? Throughout the negotiations in Warsaw, Shanghai, Beijing, and Washington, Moscow's presence was often felt in the Forbidden City and in the White House. This is the story of how unintended consequences, coupled with unexpected changes in leadership, transformed relations from enemies to friends and antagonists to partners without abandoning Taiwan. In the process, from enemy to ally is based heavily upon documents found in the Foreign Relations Series of the United States, especially its latest two volumes on China, the most recent covering the period 1977-1980, published in 2013.
