The Scottish Legal System 1992

attmoll takes scots law as a case study because it is considered to be a hybrid between continental civilian traditions and english common law and so more representative of a broader range of legal systems and perhaps also because it was easiest to access from her base at the university of glasgow she juxtaposes the legal system with a number of theories most contemporary of or about law and produces some tentative conclusions about legal theory rather than endorsing any particular one law students are her primary audience but academics or practitioners of law may also find the account of interest no subject index annotation copyrighted by book news inc portland or

papers delivered at a symposium that took place at the university of aberdeen on september 4 5 1995

Sir Walter Scott and Scots Law 1932

in Britain at least changes in the law are expected to be made by the enactment of statutes or the decision of cases by senior judges lawyers express opinions about the law but do not expect their opinions to form part of the law it was not always so this book explores the relationship between the opinions expressed by lawyers and the development of the law of Scotland in the century preceding the parliamentary union with England in 1707 when it was decided that the private law of Scotland was sufficiently distinctive and coherent to be worthy of preservation credit for this surprising decision which has resulted in the survival of two separate legal systems in Britain has often been given to the first Viscount Stair whose institutions of the law of Scotland had appeared in a revised edition in 1693 the present book places Stair's treatise in historical context and asks whether it could have been his intention in writing to express the type of authoritative opinions that could have been used to consolidate the emerging law and whether he could have been motivated in writing by a desire to clarify the relationship between the laws of Scotland and England in doing so the book provides a fresh account of the literature and practice of Scots law in its formative period and at the same time sheds light on the background to the 1707 union it will be of interest to legal historians and Scots lawyers but it should also be accessible to lay readers who wish to know more about the law and legal history of Scotland

Human Rights and Scots Law 2002-11-04

examines the influence of classical philosophy on revenge narratives by Shakespeare and his contemporaries

Domestic Abuse and Scots Law 2011

the close links between Scots and English law in the middle ages have long been recognised but S F C Milsom has recently challenged the received views of English legal development common law and feudal society assesses the relevance of the new approach to Scottish legal history setting the development of medieval law within the context of a society in which private lordship exercised through courts and other less formal methods of dispute settlement played a key role alongside royal justice based on extensive research this book examines the briefs of novel disseisin mortmain and right and legal remedies for the recovery of the land as well as aspects of the early history of the Scottish legal profession and the origins of the court of session exploring the relationship between law and society this book is for social and legal historians alike
