The Roman Martyrs 2018 the roman martyrs contains translations of forty latin passiones of saints who were martyred in rome or its near environs during the period before the peace of the church c 312 some of the roman martyrs are universally known ss agnes sebastian or laurence for example but others are scarcely recognized outside the ecclesiastical landscape of rome itself each of the translated passiones is accompanied by an individual introduction and commentary the translations are preceded by an introduction which describes the principal features of this little known genre of christian literature and are followed by five appendices which present translated texts which are essential for understanding the cult of roman martyrs this volume offers the first collection of the roman passiones martyrum translated into a modern language they were mostly composed during the period 425 675 by anonymous authors who were presumably clerics of the roman churches or cemeteries which housed the martyrs remains it is clear that they were composed in response to the explosion of pilgrim traffic to martyrial shrines from the late fourth century onwards at a time when authentic records protocols of their trials and executions had long since vanished and the authors of the passiones were obliged to imagine the circumstances in which martyrs were tried and executed the passiones are works of fiction and because they abound in ludicrous errors of chronology they have been largely ignored by historians of the early church although they cannot be used as evidence for the original martyrdoms they nevertheless allow a fascinating glimpse of the concerns which animated christians during the period in question for example the preservation of virginity or the ever present threat posed by pagan practices as certain aspects of roman life will have changed little between the second century and the fifth the passiones shed valuable light on many aspects of roman society not least the nature of a trial before an urban prefect and the horrendous tortures which were a central feature of such trials the passiones are an indispensable resource for understanding the topography of late antique rome and its environs as they characteristically contain detailed reference to the places where the martyrs were tried executed and buried

Poetry and the Cult of the Martyrs 1993 unlike some other reproductions of classic texts 1 we have not used ocr optical character recognition as this leads to bad quality books with introduced typos 2 in books where there are images such as portraits maps sketches etc we have endeavoured to keep the quality of these images so they represent accurately the original artefact although occasionally there may be certain imperfections with these old texts we feel they deserve to be made available for future generations to enjoy

Hypatia of Alexandria 2007 a look at the developing conflicts in christian muslim relations during late antiquity and the early islamic era how did the medieval middle east transform from a majority christian world to a majority muslim world and what role did violence play in this process christian martyrs under islam explains how christians across the early islamic caliphate slowly

converted to the faith of the arab conquerors and how small groups of individuals rejected this faith through dramatic acts of resistance including apostasy and blasphemy using previously untapped sources in a range of middle eastern languages christian sahner introduces an unknown group of martyrs who were executed at the hands of muslim officials between the seventh and ninth centuries ce found in places as diverse as syria spain egypt and armenia they include an alleged descendant of muhammad who converted to christianity high ranking christian secretaries of the muslim state who viciously insulted the prophet and the children of mixed marriages between muslims and christians sahner argues that christians never experienced systematic persecution under the early caliphs and indeed they remained the largest portion of the population in the greater middle east for centuries after the arab conquest still episodes of ferocious violence contributed to the spread of islam within christian societies and memories of this bloodshed played a key role in shaping christian identity in the new islamic empire christian martyrs under islam examines how violence against christians ended the age of porous religious boundaries and laid the foundations for more antagonistic muslim christian relations in the centuries to come

Toby Belfer Learns about Heroes and Martyrs 2023 not since thomas friedman's from beirut to jerusalem in 1989 has a journalist offered such a poignant and passionate portrait of lebanon a uniquely pluralist arab country struggling to defend its viability in a turbulent and treacherous middle east michael young who was taken to lebanon at age seven by his lebanese mother after the death of his american father and who has worked most of his career as a journalist there for american publications brings to life a country in the crossfire of invasions war domestic division incessant sectarian scheming and often living in fear of its neighbors young knows or has known many of the players politicians writers and religious leaders a country riven by domestic tensions that have often resulted in assassinations under the considerable sway of hezbollah in alliance with iran and syria frequently set upon by israel and syria nearly destroyed by civil war lebanon remains an exception among arab countries because it is a place where liberal instincts and tolerance struggle to stay alive an important and enduring symbol lebanon was once the outstanding example of an almost democratic society in an inhospitable dangerous region a laboratory both for modernity and violence as a lebanese intellectual who was later assassinated once put it young relates the growing tension between a domineering syria and a lebanese opposition in which charismatic leader and politician rafiq al hariri was assassinated and the independence intifada the cedar revolution broke out his searing account of his country's confrontation with its domestic and regional demons is one of hope found and possibly lost in this stunning narrative young tells us what might have been his country's history and what it may yet be

Martyrs Mirror 1993-01-01 in may 1555 a broadsheet was produced in rome depicting the torture and execution in london and york of the carthusians of the charterhouses of london axeholme beauvale and sheen during the reign of henry viii this single page martyrology provides the basis for an in depth exploration of several interconnected artistic scientific and scholarly communities active in rome in 1555 which are identified as having been involved in its production their work and concerns which reflect their time and intellectual environment are deeply embedded in the broadsheet especially those occupying the groups and individuals who came to be known as spirituali and in particular those associated with cardinal reginald pole who is shown to have played a key role in its production following an examination of the text and a

discussion of the narrative intentions of its producers a systematic analysis is made of the images this reveals that the structure content and intention of what at first sight seems to be nothing more than a confessionally charged catholic image of the english carthusian martyrs typical of the genre of propaganda produced during the reformation is astonishingly dominated by the most celebrated name of the italian renaissance the artist michelangelo buonarotti not only are there direct borrowings from two works by michelangelo which had just been completed in rome the conversion of st paul and the crucifixion of st peter in the pauline chapel but many other of his works are deliberately cited by the broadsheet s producers through the use of a variety of artistic scientific and historical approaches the author makes a compelling case for the reasons for michelangelo s presence in the broadsheet and his influence on its design and production the book not only demonstrates michelangelo s close relationship with notable catholic reformers but shows him to have been at the heart of the english counter reformation at its inception this detailed analysis of the broadsheet also throws fresh light on the marian religious policy in england in 1555 the influence of spain and the broader preoccupations of the counter reformation papacy while at the same time enriching our understanding of martyrology across the confessional divide of the reformation

Fenian Heroes and Martyrs 1876 an old woman shares a story of violence and tragedy during world war ii when marci asks her to make her beautiful

Memorials of St. Michael's 2015-11-19 early in 1974 a small group of religious friends began gathering periodically at the modest home of thomas and olive ashman in christchurch new zealand we would reverently pray for protection and be silent says the rev michael cocks an anglican priest from christchurch tom would sit upright in a chair relaxed after two or three minutes he would begin to pale and to breathe deeply then his body would give a slight jerk as stephen seemed to take over in effect tom ashman was a trance medium and was entering an altered state of consciousness as his body was being taken over by the entity called stephen who would then speak to the group using ashman s vocal

cords stephen would dialogue with the group which in addition to cocks and ashman s wife olive also included a liberal catholic priest a buddhist and other curious observers but this was not just any stephen it was saint stephen the first christian martyr cocks states that normally stephen spoke through ashman in a rather curious english but that he twice spoke in an ancient greek dialect which apparently was for the purposes of confirming his identity for myself i do not speak english and i never have stephen related in one of the sittings i activate these words that are in thomas s memory and are known to him occasionally there is a little magic when i join together sounds and symbols that are in thomas s mind so that words may be spoken that are not known to thomas after one of the early sittings in which stephen spoke in greek cocks consulted a lecturer in greek at a university about stephen s greek words she reported my request to the then bishop who called me for a chat cocks recalls to him i denied being interested in spiritualism as was definitely the case in those days in one philosophical discussion during 1973 stephen offered an analogy in explaining why humans do not fully comprehend the physical life he likened god to a surgeon think how a surgeon would act if when he had to operate he had to keep the patient conscious adjust mirrors so the patient could see the operation that would be beyond his understanding in any case should he perhaps have each patient undertake advanced studies before an operation or would it perhaps not be better only to operate on a surgeon stephen went on to say that the complexity is such that the patient must trust his surgeon
