anglo indians are a mixed race christian and anglophone minority community which arose in south asia during the long period of european colonialism an often neglected part of the british raj their presence complicates the traditional binary through which british imperialism is viewed of ruler and ruled coloniser and colonised the book analyses the processes of ethnic group formation and political organisation beginning with petitions to the east india company state through the raj s constitutional communalism to constitution making for the new india it details how anglo indians sought to preserve protected areas of state and railway employment amidst the growing demands of indian nationalism anglo indians both suffered and benefitted from colonial british prejudices being expected to loyally serve the colonial state as a result of their ties of kinship and culture to the colonial power whilst being the victims of racial and social discrimination this mixed experience was embodied in their intermediate position in the raj s evolving socio racial employment hierarchy the question of why and how a numerically small group who were privileged relative to the great majority of people in south asia were granted nominated representatives and reserved employment in the new indian constitution amidst a general curtailment of minority group rights is tackled directly based on a wide range of source materials from indian and british archives including the anglo indian review and the debates of the constituent assembly of india the book illuminatingly foregrounds the issues facing the smaller minorities during the drawn out process of decolonisation in south asia it will be of interest to students and researchers of south asia imperial and global history politics and mixed race studies

this book is an attempt to find new ways of inter disciplinary theorisation about this moment when both the unitary idea of the indian nation and the bureaucratic dream of a centralised indian state are falling apart at this juncture the indian state has two choices either it can recognise the political nature of the struggles confronting it and radically re imagine itself or it can wage a losing war against the democratic aspirations of people it is essential that political movements in the subcontinent let go of their differences and organise together to agitate for modernisation by bringing these disparate struggles together this book explores the possibility of an alliance between them such that they are able to inform each other against a colonial state taken together this book is thus an experiment in politics rather than being about specific events the chapters in this book were originally published in various taylor francis journals

the twentieth century has witnessed the rise of a large population of postcolonial intellectual migrants willingly arriving from formerly colonized countries into the united kingdom the united states and canada to pursue intellectual goals embedded in this movement from the formerly colonized spaces into the west is the vexed question of dislocation and displacement

for these intellectual subjects the postcolonial citizen traces how such modes of un belonging are represented within literary and cultural space and how migrancy and in particular the postcolonial intellectual migrant is symbolically and philosophically understood as a cultural icon of displacement in the west using literary texts autobiographical narrative of displacement and cultural criticism this book treats the cultural reception of intellectual migrancy particularly within america as both an uneasy and ambiguous condition what is timely about this book s treatment of migrancy is the current threat imposed on postcolonial writers and scholars in the united states post 9 11 the book examines and exposes the consequences of intellectually intervening into democratic ideals after the rise of the national security state giving the migrant sensibility of dislocation a socio political dimension thus in dealing with the cultural reception of migrancy the postcolonial citizen clearly marks the shift between pre and post 9 11 migrant subjectivity and particularly addresses how the third world intellectual migrant has become synonymous with the voice of dissent and threat to the established democratic order in the united states
