Cambridge Preparation for the TOEFL® Test Book with CD-ROM 2002-03-11

these days nobody really wants to learn everything there is to know about working with digital

video images music and dvds and even if you did who has the time to endlessly tinker and play with it until you figure everything out you just want a book that will quickly show you how to get things done a things that arenat already covered in the docs and things you canat just figure out on your own ilife in a snap is designed specifically for todayas computer user somebody who is new to managing digital media with ilife but not new to macs somebody who doesnat have time for long winded mind numbing explanations a and certainly no time or patience for bad jokes organized into a series of well organized bite sized quickly accomplished tasks this book lets the reader zero right in on the one particular task he or she wants to accomplish quickly figure out what to do do it and then get back to work

this book is primarily concerned with the classical music catalog of mercury living presence recordings recorded and published by the mercury record corporation mercury records made some of the finest and most natural sounding audio recordings ever made mostly of excellent and committed performances of classical music but this is not a history of mercury records or even of the living presence series of recordings my main focus was to create a list of all the mercury living presence classical records i am mostly interested in the stereo recordings but there are also many earlier mono recordings of great interest too so i have included those also specifically what is included is information on the sr 90000 series of stereo recordings and the mg 50000 series of mono recordings but there is also a listing of the wing classical reissue series decades ago when i began collecting mercury records and years later when i started collecting the cds i was looking for a complete list of all the mercury living presence records and later the cds though i found some information that was helpful to get what i wanted i had to make the list myself i started with lists of records on the record sleeves of the albums got some information from the absolute sound magazine and in the internet age found useful information on several internet sites but mostly to get the list i

wanted i had to dig up the information and build it myself having completed the list it occurred to me that other collectors might find it helpful too so i put together a group of databases and spreadsheets in microsoft excel and microsoft works database format files and issued the databases i had created on a cd rom disc in early 2013 by that time i had all the original series of cds mastered by wilma cozart fine and many of the records that had been reissued on cd and virtually all of the stereo records not issued on cd plus most of the mono records in which i had a strong interest now it is available as a book among other things it includes the following lists complete mercury living presence cds including every cd with its track information identifying composer title soloist conductor orchestra cd lp where originally published and recording date complete mercury living presence lps including every lp with its track information identifying composer title soloist conductor orchestra lp cd on which it was reissued if any and recording date different versions of the files are arranged by composer and title recording date record number and cd number there are also a listings of lps and lp tracks that have not been reissued in the mercury living presence cd series included are listings of all original mercury living presence records in the sr 90000 and mg 50000 series all cds originally mastered by wilma cozart fine all sacds and the more recent reissues and new issues in the large 50 cd box sets and the 10 cd box sets of marcel dupré and janos starker there are also a few chapters of background information little known facts and other topics of interest hopefully readers will find it interesting and useful

forty years ago when plant and soil first appeared europe was still recovering from the devastating effects of world war ii during the war years work in many centres of agricultural research had come to a virtual standstill buildings and equipment were destroyed scientists were often forced to terminate their research and teaching activities and funds allocated to such work were diverted to other at that time more pressing needs during the first post war

years reconstruction was undertaken with great zeal and in that light the founding of the new journal plant and soil must be viewed in the pre war period most agricultural science journals were still primarily national ones and consequently many articles were published in languages mastered by only a limited number of potential readers in small countries whose languages are not widely understood the desire arose to publish research findings in one of the major languages it is therefore understandable that in the early years of the journal s existence large portions of plant and soil were filled with articles from the scandinavian countries and the nether lands originally rather frequent use was made of the opportunity to publish also in german and french but with the advance of english as a major language of communication a decline was noticeable in the number of german and french manuscripts submitted as a consequence the edi torial board has recently decided to terminate the publishing of articles in these languages
