builders two thousand years ago alfred ribi s examination of jung s relationship with gnostic tradition comes at an important time initially authored prior to the publication of jung s red book current release of this english edition offers a bridge between the past and the forthcoming understanding of jung s gnostic roots

The Effective Protagonist in the Nineteenth-Century British Novel

2016-03-23

the effective protagonist in the nineteenth century british novel is an experiment in post jungian literary criticism and methodology its primary aim is to challenge current views about the correlation between narrative structure gender and the governing psychological dilemma in four nineteenth century british novels the overarching argument is that the opening situation in a novel represents an implicit challenge facing not the obvious hero heroine but the individual that terence dawson defines as the effective protagonist to illustrate his claim dawson pairs two sets of novels with unexpectedly comparable dilemmas ivanhoe with the picture of dorian gray and wuthering heights with silas marner in all four novels the effective protagonist is an apparently minor figure whose crucial function in the ordering of the events has been overlooked rereading these well known texts in relation to hitherto neglected characters uncovers startling new issues at their heart and demonstrates innovative ways of exploring both narrative and literary tradition
