huge savings off the individual book cost under dark skies book 1 eleri eames didn t think she d ever be allowed to work for the fbi again so the special fbi division of nightshade seems like an amazing opportunity but all too soon her chance to start over starts to disturb her when the fbi offers donovan a chance to leave his job as a medical examiner and try his hand at something new he takes a chance on the nightshade division somehow he has to try to escape from his shadows but can he trust eleri with the truth thrown together on their first case eleri and donovan must deal with a charismatic cult leader and his true believers the cult is mixed up with several decade old kidnapping cases and the missing daughter of a prominent fbi agent as eleri and donovan dig deeper they discover that nightshade s mysteries aren t coincidence their secrets will save them or destroy them fracture five book 2 nightshade s newest agents are in l a to bring down a burgeoning terrorist cell to make things worse it s not just one terrorist cell it s two or is it three there is little to go on only links between missing army munitions and a veteran named cooper rollins with his special ops training and severe ptsd it s impossible to tell what kind of game rollins is playing eleri and donovan will have to use their unique skills to stop the attack before it happens but in the crowded city there are too many people who might reveal what donovan is if he dares to make the change and eleri is starting to show signs of powers she didn t know she had and can t control on the surface the cells seem unrelated each with separate perpetrators and different motives but they are all linked by rollins and the very disturbing passcode fracture five the atlas defect book 3 eleri wanted a different kind of case she should have been careful what she wished for when an odd human skeleton in michigan s manistee huron national forest triggers a nightshade investigation eleri and donovan arrive to find it missing but two other skeletons are a little too easily uncovered each displays different anomalies that raise alarming questions the bones aren t from the area or probably even the continent a decades old abandoned building doesn t register on satellite images files detailing genetic experiments on children are even more disturbing and most of the children are unaccounted for who were the test subjects and where are the bodies if the case itself wasn t enough of a problem someone is watching someone with a particular interest in donovan s own skeletal anomalies echo and ember book 4 fbi agents donovan and eleri left their last case with a sense of unease unable to close the investigation they ve been thrown into their next assignment far too fast a string of strange arson based murders are just part of the trouble not only is former agent wade de gottardi on their team for this one so are two other nightshade agents dana brantley and christina pines the problem is eleri is no longer the senior agent dana is maybe their boss no longer trusts them or maybe it s simply because four people have already died either way donovan and eleri are no longer in control of the case as they hunt a serial killer who s getting bolder with each success while eleri and donovan are just getting their special skills in hand dana and christina are more at ease with theirs while dana s talents prove useful christina s are frightening and suspicious these are the first through fourth books in the nightshade forensic fbi files series by usa today bestselling author a j scudiere these books can each be read as a standalone but readers who love paranormal investigations and fbi thrillers will want to read the entire series
