## ***Work Simplification Program 1953***

many americans seem convinced that government programs designed to help the poor have failed social programs that work shows that this is not true many programs have demonstrably improved the lives of people trapped at the bottom of the social and economic ladder social programs that work provides an in depth look at some of the nation s best interventions over the past few decades and considers their potential for national expansion examined here are programs designed to improve children s reading skills curb juvenile delinquency and substance abuse and move people off welfare into the workforce each contributor discusses the design and implementation of a particular program and assesses how well particular goals were met among the critical issues addressed are good results permanent or do they fade over time can they be replicated successfully under varied conditions are programs cost effective and if so are the benefits seen immediately or only over the long term how can public support be garnered for a large upfront investment whose returns may not be apparent for years some programs discussed in this volume were implemented only on a small experimental scale prompting discussion of their viability at the national level an important concern for social policy is whether one shot programs can lead to permanent results early interventions may be extremely effective at reducing future criminal behavior as shown by the results of the high scope perry preschool program evidence from the life skills training program suggests that a combination of initial intervention and occasional booster sessions can be an inexpensive and successful approach to reducing adolescent substance abuse social programs that work also acknowledges that simply placing welfare recipients in jobs isn t enough they will also need long term support to maintain those jobs the successes and failures of social policy over the last thirty five years have given us valuable feedback about the design of successful social policy social programs that work represents a landmark attempt to use social science criteria to identify and strengthen the programs most likely to make a real difference in addressing the nation s social ills

amazing benefits unique risks a stellar mentor can change the trajectory of a career and an enduring mentoring program can become an organization's most powerful talent development tool but fixing a broken mentoring program or developing a new program from scratch requires a unique process not a standard training methodology over the course of her career seasoned program development specialist jenn labin has encountered dozens of mentoring programs unable to stand the test of their organizations natural talent cycles these programs applied a

training methodology to a nontraining solution and were ineffective at best and poorly designed at worst what is needed is a solid planning framework developed from hands on experimentation and you will find it here mentoring programs that work is framed around labins axles model the first framework devoted to the unique challenges of a sustained learning process this step by step approach will help you navigate the early phases of mentoring program alignment all the way through program launch and measurement whether your goal is to recruit and retain millennials or deepen organizational commitment it is time to embrace mentoring as one of the most powerful tools of talent development mentoring programs that work will help your organization succeed by building mentoring programs that connect people and inspire learning transfer

## ***The Civil Works Administration Program in Pennsylvania 1934***

this document records the oral and written testimony given at a congressional hearing on school to work transitions focusing on four local programs that have involved cooperation between industry labor schools and the local community to help young people bridge the gap between school and work the four programs described are as follows 1 the general motors united auto workers quality education program designed to bring female and minority high school students into the skilled trades 2 boss business as on site schools a cooperative effort with southern bell the communication workers of america and the alachua county school board in florida in which at risk students work at a southern bell facility for 20 hours per week under the direction of a mentor 3 the pennsylvania youth apprenticeship program of the industrial modernization center in pennsylvania which is operated as a machine shop youth apprenticeship program primarily for the metal trades and 4 the roosevelt renaissance program a high school restructuring program in portland oregon all witnesses emphasized the cooperation needed in their programs and the successes they had achieved more such efforts were advocated and federal legislation addressing the need for such programs is being drafted kc

employee participation programs have many faces many definitions many forms and they change all the time for some people they are meant to solve every problem in the workplace for others they are ways to reduce resistance to management and its efforts to bring about organizational change still others see them as totally redundant and a hindrance to

efficiency and the implementation of good management practices to make sense of it all Barham integrates historically thematically analytically the wide but often incoherent knowledge we have about these programs and in doing so portrays them in a clear useful multidimensional manner the result is a work of scholarship and practical guidance that students scholars researchers and executives will find important an action oriented source of vital information Barham shows that participation programs in work organizations have always attempted to solve three basic human problems problems stemming from industrial democracy and equality work alienation and occupational and managerial effectiveness to do this he uses a rare multidimensional technique he describes and analyzes the processes and behavior of participation participants and organizational forms using a variety of conceptual and theoretical frames drawn from the social and management sciences he enhances our understanding of participation programs on micro and macro levels and then provides practical guidelines from the real world experience of other scholars and executives among the several ironies he discovers are that the roles of enthusiasts opponents and skeptics changed during the course of a jubilee of these programs by integrating a large body of research and suggesting a formal model to evaluate existing employee programs and projected ones his book attempts to ease the enigmatic ambivalence we have toward worker participation in general in fact he shows that by better understanding the dynamics of participation programs it is possible for those who desire such programs to create construct and maintain better ones

independent study programs aren't for the best students they are populated by students at their best student disengagement from school is a trending concern and many schools have turned their attention to independent study programs as a way to nurture student motivation and creativity but where to begin geraldine woods offers a practical step by step guide based on her experience designing and directing the much admired independent study program at the horace mann school under the supervision of teachers students embark on a remarkable variety of projects and become teachers themselves conducting seminars with their peers along the way to preparing their final product which could as easily be an interactive website or musical composition as a research paper woods book details the nuts and bolts of the approach and shows how to customize it for a variety of age groups budgets and curricular requirements it is a gift to all educators including homeschooling parents who want to give students the freedom to pursue their interests
