0 10000 0000 0000000 000 00000 000000 201500000 0000000000000000 the committee s report examines the
challenges involved in efforts to reduce carbon emissions from the uk transport sector and makes
recommendations to improve future progress as part of its overall priority for the current parliament of
focusing on climate change issues topics discussed include the government s strategic priorities measures
to reduce carbon emissions from road transport trains water freight and aviation emissions from developing
economies the future price and availability of oil the report finds that reducing carbon emissions from
transport is particularly challenging given its dependence on oil with transport being the only sector of
the uk economy in which carbon emissions were higher in 2004 than the baseline year of 1990 and projected
emissions likely to be higher in 2020 than in 1990 amongst the report s 66 conclusions and recommendations
the committee raises concerns over the lack of consistency and accuracy in methods used by the government
to calculate emissions projections and highlights the need for more decisive action to actively encourage
modal shift towards lower carbon modes of transport such as trains buses and low carbon cars and lorries
and to discourage marginal car and plane journeys it recommends the introduction of a national road user
charging scheme as soon as technically possible and a new policy to enforce speed limits and an increase
in air passenger duty apd and taxes on domestic flights the report also calls for better local rail
services and the need to make rail fare and ticketing structures simpler and more transparent in order to
encourage greater use of rail services and the need for a public information campaign to raise awareness
about the reality and dangers of climate change and a cross party approach to the measures required to
tackle it chaque année la publication phare de l'unicef la situation des enfants dans le monde examine de
près un problème principal affectant les enfants le rapport comprend des données justificatives et des
statistiques et est disponible en versions anglaise française et espagnole
