this book is an attempt to bring the gender and development debate full circle from a much needed focus on empowering women to a more comprehensive gender framework that considers gender as a system that affects both women and men the chapters in this book explore definitions of masculinity and male identities in a variety of social contexts drawing from experiences in latin america the caribbean and sub saharan africa it draws on a slowly emerging realization that attaining the vision of gender equality will be difficult if not impossible without changing the ways in which masculinities are defined and acted upon although changing male gender norms will be a difficult and slow process we must begin by understanding how versions of masculinities are defined and acted upon

seminar paper from the year 2002 in the subject english language and literature studies linguistics grade 2 b technical university of braunschweig english seminar 22 entries in the bibliography language english abstract women are more emotional than men they speak in a different way than men but how are they spoken about throughout the last century there has been a lot of discussion concerning language and gender mainly linguists have focused on the different discourse strategies and conversational styles of women and men that is they dealt with the difference of women s and men s language sexism became an important point of discussion in the 1960s and especially feminist critiques have discussed the sexist representation of women in language many linguists tried to find alternatives for features of language that discriminate against women and thus sought to correct existing sex biases in a time where the inequality of the sexes is said to have diminished the anti sexism movement seems to have decreased as well people try to speak in a politically correct way a way that is not sexist or racist but certain stereotypes are nevertheless still part of the language system this can be seen when taking a closer look at the media which plays an important role in the process of language development newspapers articles for example have to be objective and without bias but as they employ language that is politically correct with regard to common language usage they reflect the language of a society consequently the media is a rich source for analysis when it comes to

examining to what extent sexism is still an issue today has the feminist fight against male supremacy been without effect the author discusses if sexism in language has diminished and how it is dealt with therefore sexist language is defined and the relationship to society with the help of several linguistic approaches as part of this the different features of sexism
