2006-04-30

does youth participation hold the potential to change entrenched systems of power and to reshape civic life in youth power in precarious times melissa brough examines how the city of medellín colombia offers a model of civic transformation forged in the wake of violence and repression she responds to a pressing contradiction in the world at large where youth political participation has become a means of commodifying digital culture amid the ongoing disenfranchisement of youth globally brough focuses on how young people s civic participation online and in the streets in medellín was central to the city s transformation from having the world s highest homicide rates in the early 1990s to being known for its urban renaissance by the 2010s seeking to distinguish commercialized digital interactions from genuine political participation brough uses medellín s experiences with youth participation ranging from digital citizenship initiatives to the voices of community media to the beats of hip hop culture to show how young people can be at the forefront of fostering ecologies of artistic and grassroots engagement in order to reshape civic life

Gumshoes

1983

this handbook provides the first systematic integrated analysis of the role that states or state actors play in the construction of history and public memory after 1945 the book focuses on many different forms of state sponsored history including memory laws monuments and memorials state archives science policies history in schools truth commissions historical expert commissions the use of history in courts and tribunals etc the handbook contributes to the study of history and public memory by combining elements of state focused research in separate fields of study by looking at the state s memorialising capacities the book introduces an analytical perspective that is not often found in classical studies of the state the handbook has a broad geographical focus and analyses cases from different regions around the world the volume mainly tackles democratic contexts although dictatorial regimes are not excluded

National Union Catalog

2020-07-27

this book contends that child characters have taken on a critical representational role within latin american cinema because of their position on the threshold between nature and culture which converts them into a focus of and a limit to state or colonial biopower

Youth Power in Precarious Times

2018-02-03

this book is divided into different research areas relevant in bioinformatics such as biological networks next generation sequencing high performance computing molecular modeling structural bioinformatics molecular modeling and intelligent data analysis each book section introduces the basic concepts and then explains its application to problems of great relevance so both novice and expert readers can benefit from the information and research works presented here
