Analysis of Longitudinal Data

1994

describes statistical models and methods for the analysis of longitudinal data with a strong emphasis on applications in the biological and health sciences addressed to advanced undergraduates or first year graduates in statistics and may also be accessible to readers with less technical knowledge but more experience in longitudinal studies annotation copyright by book news inc portland or

Modeling Longitudinal Data

2005-06-28

the book features many figures and tables illustrating longitudinal data and numerous homework problems the associated web site contains many longitudinal data sets examples of computer code and labs to re enforce the material weiss emphasizes continuous data rather than discrete data graphical and covariance methods and generalizations of regression rather than generalizations of analysis of variance

Analisis Data Longitudinal

2018-04-27

data longitudinal dapat digunakan untuk melihat perubahan dalam individu maupun perbedaan antarindividu dan pada akhirnya dapat digunakan untuk menganalisis pengaruh variabel atau faktor yang menjadi perhatian terhadap suatu respons tertentu sebagai contoh data longitudinal dapat digunakan untuk meneliti apakah suatu terapi berpengaruh terhadap kesembuhan pasien apakah kekurangan vitamin a pada anak menyebabkan tingginya insidensi infeksi saluran napas sebagian besar model dan metode yang banyak digunakan dalam analisis data longitudinal seperti model linear umum model marginal model efek random dan model transisional dibahas dalam buku ini dengan aplikasi dan contoh komputasi menggunakan perangkat lunak statistik r dan spss buku ini dapat digunakan sebagai buku pegangan untuk kuliah maupun untuk contoh praktis bagaimana melakukan analisis data longitudinal

Tutorial PHP machine learning menggunakan regresi linear berganda pada aplikasi bank sampah istimewa versi 2.0 berbasis web

2020-09-11

buku ini menjelaskan tentang pembuatan aplikasi bank sampah berbasis website dengan menerapkan php machine learning anda akan mendapatkan pembelajaran bagaimana membangun aplikasi berbasis web dengan menerapkan php machine learning khususnya metode regresi linear berganda buku ini cocok untuk pemula dalam mengenal dunia teknologi pengembangan aplikasi berbasis kecerdasan buatan selamat belajar

Child Development

2017-03-02

this book provides a good foundation for understanding influences on children s health and development the volume brings together in a single reference source the world s leading thinkers on children s health and development it sets out the basic concepts that underpin the study of child development and response to impairments to development including attachment changes in brain structure and resilience the book explores the idea of life course development explaining how experiences at each stage in a person s life shapes his or her future it goes on to example the relative contribution of societal neighbourhood school family and individual influences to child well being this includes a look at the way these forces interact such as when genes shape environments and vice versa the book summarises the evidence on the incidence and consequences of impairments to children s health and development covering both the majority of typical children and the minority who experience significant problems

Organisasi dan Industri: Pendekatan Integratif dalam Menghadapi Perubahan.

2022-03-30

buku industri dan organisasi yang ditulis oleh seta a wicaksana s psi m psi psikolog aisyah pia asrunputri b a m m dan andita putri ramadhania ini menantang untuk dibaca industri merupakan kegiatan ekonomi untuk memproses masukan mentah menjadi produk yang diperlukan pasar subjek yang menghasilkan produk itu mempunyai concerns agar produk yang dihasilkan berkualitas tinggi dengan efisiensi prosesnya yang tinggi pula meskipun buku ini tidak memberikan resep bagaimana seharusnya menghasilkan produk barang atau jasa yang berkualitas tinggi itu tetapi isinya

memberikan pemahaman tentang apa dan bagaimana unsur yang terlibat dalam produksi itu dapat berperan secara maksimal

Time Series Data Analysis Using EViews

2011-08-31

do you want to recognize the most suitable models for analysis of statistical data sets this book provides a hands on practical guide to using the most suitable models for analysis of statistical data sets using eviews an interactive windows based computer software program for sophisticated data analysis regression and forecasting to define and test statistical hypotheses rich in examples and with an emphasis on how to develop acceptable statistical models time series data analysis using eviews is a perfect complement to theoretical books presenting statistical or econometric models for time series data the procedures introduced are easily extendible to cross section data sets the author provides step by step directions on how to apply eviews software to time series data analysis offers guidance on how to develop and evaluate alternative empirical models permitting the most appropriate to be selected without the need for computational formulae examines a variety of times series models including continuous growth discontinuous growth seemingly causal regression arch and garch as well as a general form of nonlinear time series and nonparametric models gives over 250 illustrative examples and notes based on the author s own empirical findings allowing the advantages and limitations of each model to be understood describes the theory behind the models in comprehensive appendices provides supplementary information and data sets an essential tool for advanced undergraduate and graduate students taking finance or econometrics courses statistics life sciences and social science students as well as applied researchers will also find this book an invaluable resource

Learning to read in a local language in Uganda

2021-06-14

the early grade reading assessment egra is used to evaluate studies and monitor projects that address reading skills in low and middle income countries results are often described solely in terms of a passage reading subtask thereby overlooking progress in related skills using archival data of cohort samples from uganda at two time points in three languages ganda lango and runyankore rukiga we explored a methodology that uses passage reading results to create five learner profiles nonreader beginner instructional fluent and next level ready we compared learner profiles with results on other subtasks to identify the skills students would need to develop to progress

from one profile to another we then used regression models to determine whether students learner profiles were related to their results on the various subtasks we found membership in four categories we also found a shift in the distribution of learner profiles from grade 1 to grade 4 which is useful for establishing program effectiveness the distribution of profiles within grades expanded as students progressed through the early elementary grades we recommend that those who are discussing egra results describe students by profiles and by the numbers that shift from one profile to another over time doing so would help describe abilities and instructional needs and would show changes in a meaningful way

Advanced Time Series Data Analysis

2019-03-18

introduces the latest developments in forecasting in advanced quantitative data analysis this book presents advanced univariate multiple regressions which can directly be used to forecast their dependent variables evaluate their in sample forecast values and compute forecast values beyond the sample period various alternative multiple regressions models are presented based on a single time series bivariate and triple time series which are developed by taking into account specific growth patterns of each dependent variables starting with the simplest model up to the most advanced model graphs of the observed scores and the forecast evaluation of each of the models are offered to show the worst and the best forecast models among each set of the models of a specific independent variable advanced time series data analysis forecasting using eviews provides readers with a number of modern advanced forecast models not featured in any other book they include various interaction models models with alternative trends including the models with heterogeneous trends and complete heterogeneous models for monthly time series quarterly time series and annually time series each of the models can be applied by all quantitative researchers presents models that are all classroom tested contains real life data samples contains over 350 equation specifications of various time series models contains over 200 illustrative examples with special notes and comments applicable for time series data of all quantitative studies advanced time series data analysis forecasting using eviews will appeal to researchers and practitioners in forecasting models as well as those studying quantitative data analysis it is suitable for those wishing to obtain a better knowledge and

understanding on forecasting specifically the uncertainty of forecast values

Visualisasi Data Covid-19 dengan tableau

2023-02-14

kemampuan visualisasi data merupakan salah satu literasi penting yang harus dimiliki oleh setiap orang di era saat ini buku ini hadir untuk meningkatkan literasi pembaca menghadirkan berbagai jenis grafik dan teknik visualisasi data yang atraktif dan komunikatif beberapa grafik dan teknik visualisasi yang disajikan dalam buku ini barangkali belum pernah dibuat oleh sebagian pembaca sebagian besar grafik yang disajikan dalam buku ini tidak mudah dibuat dengan microsoft excel atau program lainnya namun sangat mudah dan cepat bisa dibuat dengan menggunakan program tableau sejak diluncurkan tableau sudah menarik perhatian banyak pihak apalagi sejak ada versi tableau public free langkah langkah untuk membuat setiap jenis grafik akan dijelaskan secara detail untuk memastikan pembaca dapat menguasai tableau dalam beberapa hari saja dataset latihan dapat diakses di google drive buku ini juga menyajikan sumber dataset terutama yang berkaitan dengan data covid 19 baik nasional maupun internasional di samping itu metode mengekstrak informasi dan dataset dari berbagai website juga disampaikan yang sangat berguna tidak hanya untuk tujuan visualisasi data covid 19 tetapi juga untuk berbagai tujuan penelitian oleh mahasiswa s1 s2 maupun 3 mudah mudahan bermanfaat dan happy learning

CARA SISTEMATIS BERLATIH MENELITI

2019-04-25

mahasiswa memiliki kewajiban menyusun tugas akhir penelitian dalam bentuk skripsi tesis atau disertasi dosen juga memiliki kewajiban melaksanakan penelitian maupun membimbing tugas penelitian mahasiswa peristiwa yang paling ditakutkan oleh peneliti pemula adalah bila mereka dinyatakan tidak layak atau tidak lulus karena tidak mampu merangkai ide sistematis di dalam proposal atau laporan penelitian atau sering disebut dengan istilah benang merah dalam makalah penelitian penulis menyusun buku ini didasarkan pada pengalaman bahwa mahasiswa atau dosen di bidang kedokteran dan kesehatan mengalami kesulitan mencari sumber rujukan yang praktis dan komprehensif yang mampu menuntun mereka menyusun proposal sampai ke laporan penelitian secara runtut dan sistematis di dalam buku ini dipaparkan secara lengkap panduan untuk mempersiapkan rencana penelitian dan menyusun proposal penelitian pembahasan dimulai dari alasan perlunya penelitian di bidang kedokteran dan kesehatan dan manfaat penelitian untuk kepentingan tatalaksana masalah kesehatan selain itu buku ini membahas jenis desain penelitian yang lazim dilakukan pada bidang kedokteran dan kesehatan serta alasan pemilihan jenis desain penelitian tersebut pembahasan

dilanjutkan pada topik penyusunan proposal yang sistematis pembaca akan diajak untuk membahas cara pengembangan ide penelitian menyusun rangkaian proposal mulai dari latar belakang rumusan masalah tujuan penelitian manfaat penelitian hipotesis kajian pustaka dan kerangka teori serta kerangka konsep penulis juga memaparkan cara merencanakan metode penelitian yang runtut dan sistematis pembaca dapat memahami pengertian metode penelitian menentukan desain penelitian yang cocok populasi dan subjek penelitian prosedur pengambilan sampel menetapkan variabel penelitian menentukan definisi operasional dan alur penelitian buku ini juga membahas prinsip metode analisis data dan uji hipotesis atau uji statistik etika merupakan topik yang krusial di dalam penelitian kedokteran dan kesehatan sehingga para peneliti harus memahami kelayakan etika didalam penelitian yang dibahas di dalam buku ini secara ringkas pembaca juga akan dipaparkan topik cara mengutip kepustakaan yang baik dan terhindar dari plagiarisme pada bagian akhir dari buku ini penulis membahas kiat kiat yang baik dalam menyusun hasil penelitian kajian yang harus dibahas di sesi diskusi dan pembahasan serta kiat menyusun kesimpulan saran dan abstrak makalah penelitian pada kesimpulan akhir pembaca akan dipaparkan cara menyusun benang merah penelitian yang runtut dan sistematis buku disusun dari pengalaman penulis membimbing metode penelitian mahasiswa dan dosen muda di bidang kesehatan sejak tahun 2003 15 tahun penulis membimbing metodologi tugas penelitian mahasiswa mulai dari level sarjana master profesi spesialis dan kandidat doktor pada berbagai program studi seperti kedokteran umum kedokteran gigi keperawatan biomedis kebidanan kesehatan masyarakat dan psikologi serta beberapa dosen muda yang melakukan penelitian buku ini disusun dengan bahasa yang relatif mudah dimengerti disertai contoh contoh kasus penelitian untuk membantu pembaca mengaplikasikan rancangan proposal dan laporan penelitian di semua kajian rumpun ilmu kesehatan buku ini membahas rancangan metode penelitian secara komprehensif mulai dari merancang ide mengembangkan dan menyusun metodologi sampai cara menyusun laporan penelitian serta pertimbangan etika penelitian cukup dengan membaca 1 buku ini dan ditambah latihan biostatistik mahasiswa atau peneliti pemula diharapkan mampu untuk melaksanakan penelitian secara runtut dan sistematis

Maternal Sensitivity

2016-04-14

mary ainsworth s work on the importance maternal sensitivity for the development of infant attachment security is widely recognized as one of the most revolutionary and influential contributions to developmental psychology in the 20th century her longitudinal studies of naturalistic mother infant interactions in uganda and baltimore played a pivotal role in the formulation and acceptance of attachment theory as a new paradigm with implications for developmental personality social and clinical psychology the chapters in this volume collectively reveal not only the origins and depth of her conceptualizations and the originality of her assessment methods but also the many different ways in which her ideas about maternal sensitivity continue to inspire innovative research and

clinical applications in western and non western cultures the contributors are leading attachment researchers including some of mary ainsworth s most influential students and colleagues who have taken time to step back from their day to day research and reflect on the significance of the work she initiated and the challenges inherent in assessing parental sensitivity during naturalistic interactions in infancy and beyond this volume makes ainsworth s pioneering conceptual and methodological breakthroughs and their continuing research and clinical impact accessible to theorists researchers and mental health specialists this book was originally published as a special issue of attachment human development

Human Attachment

1996

this study explains the theory research methodology research results in the area of attachment and discusses both health and pathological development in infancy childhood adolescence and adulthood personality relationships and marriage are some of the issues assessed in attachment patterns

Moral Development: Defining perspectives in moral development

1994

first published in 1994 routledge is an imprint of taylor francis an informa company

Data Arsitek Jl. 2 Ed. 33

2014-07-17

this groundbreaking reconceptualization of attachment theory brings together leading scholars from psychology anthropology and related fields to reformulate the theory to fit the cultural realities of our world it will be of particular interest to scholars and graduate students interested in developmental psychology developmental anthropology evolutionary biology and cross cultural psychology

Different Faces of Attachment

1988

pembahasan dalam buku ini dimulai dengan membahas perlunya metodologi penelitian kriminologi yang bertujuan untuk menunjukkan kekhasan ciri objek penelitian kriminologi yang khas yang tidak selalu sama dengan gejala sosial yang lain bab bab berikutnya membahas tentang dominasi kelemahan dan kelebihan statistik kriminal yang merupakan data utama dalam analisis kriminalitas kemudian berbagai tema yang merupakan objek penelitian kriminologi dibahas dengan memberikan contoh penelitian penelitian yang baik yang dapat dijadikan sebagai inspirasi ketika melakukan penelitian tema tema yang dibahas tersebut meliputi survei korban kejahatan survei pengakuan diri pengukuran keseriusan kejahatan pengukuran penggentarjeraan pengukuran residivisme penelitian eksperimental studi peramalan dan penelitian penelitian kualitatif yang meliputi penelitian kasus individual kasus berganda sub kebudayaan maupun tingkah laku kolektif untuk memudahkan pembaca merujuk referensi daftar bacaan ditulis pada setiap akhir pembahasan buku persembahkan penerbit prenadamedia group

Resources in Education

2015-01-01

this book focuses on improving orthopaedic surgery in low and middle income countries lmic over the last 35 years orthopaedic surgeons have made multiple innovations locally in pakistan that have never come to the surface many surgeons in our world work in a resource constrained setting and have to use frugal innovations to work their way out these are the ground realities of working in a lmic which will be shared globally through this book starting from seeing patients in the clinic and to the operating room very high standards have been set in pakistan for others to follow and replicate within their own resources this book will be a narrative of how these innovations were achieved and the way forward considering the resource constraints that are present in low middle income countries compared to western countries

Metodologi Penelitian Kriminologi

1985

this new edition includes the most up to date information about the pathophysiology and new therapeutic alternatives for osteoporosis of advanced age it is written by investigators clinicians and basic scientists in

the field of aging bone research it was just recently that a new syndrome osteoporosis of advanced age was recognized as a new entity with its own pathophysiology and potential treatments unfortunately and despite the fact that hip fractures are mostly a consequence of this process and apart from the first edition of this book there are few publications about this subject the first edition of this book demonstrated that there is a need to understand the particular features of osteoporosis in older persons which is the main aim of this book the institutions where the authors are affiliated are highly recognized as the main centers in aging bone research as an innovation the second edition includes some aspects of muscle and bone interaction focusing of the impact of age related muscle loss sarcopenia on the pathogenesis of falls and fractures in older persons as in the previous edition this book is expected to be the reference guide for geriatricians gerontologists and bone biologists as well as medical trainees in order to understand the mechanisms of senile osteoporosis with a practical approach to the treatment of its consequences

Struktur organisasi di Indonesia

2024-04-18

this book tells the story of the german democratic republic from the inside out using the lens of generational change to deconstruct an intriguing array of social identities that had little to do with the official gdr version authoritarian rulers regularly sought to impose on their citizens the author compares the identities of five societal subgroups gdr writers and intellectuals pastors and dissidents women youth and working class men exploring the policies defining their lives and status before during after the 1989 wende as well as the diverging exit voice and loyalty dilemmas encountered by each the dialectical components treated in this work center on the extent to which eastern identities were lost found and reconfigured across three generations from 1949 to 1989 from 1990 to 2005 then up to 2020 it explores how the existence of a separate east german state and the socialization processes imposed on each subculture has not only complicated the search for national unity since 1990 but also perhaps more controversially invoked new challenges directly related to ongoing east west structural disparities since unification and the treatment of eastern germans by often more privileged western germans

Orthopaedic Innovations in Developing Countries

2016-07-11

the oxford handbook of acculturation and health expertly brings together two very distinct but complementary streams of work and thought theoretical and methodological work on acculturation and the applied work linking

acculturation to various health outcomes among international migrants and their families in this important volume the work of landmark acculturation theorists and methodologists come together to showcase applied epidemiologic and intervention work on the issues facing acculturation and public health today edited by seth j schwartz and jennifer b unger this handbook is divided into two important parts for readers part one features chapters that are dedicated to theoretical and methodological work on acculturation including definitional issues measurement issues and procedures for studying acculturation across immigrant groups and national contexts the second part focuses on the links between acculturation and various health outcomes such as obesity physical activity drug and alcohol abuse mental health delinquency and suicide notably because a majority of the research on acculturation and health has been conducted on hispanic immigration this volume contextualizes that research and offers readers compelling insight for how to apply these principles to other immigrant groups in the united states and around the world

Osteoporosis in Older Persons

2023-03-11

this volume in the routledge global human resource management series is dedicated to analyzing the process of trust development between managers and subordinates in different countries of the main cultures of the world behaviors and trust are linked in a process that can reinforce or diminish the trust between the two parties this book examines that process in an array of countries contextualizing each setting through a brief historical institutional and cultural overview addressing the dominant hr practices and the main local leadership styles of each country it draws upon an extensive country by country data set of leader subordinate trust to analyze the universal and culturally specific elements of this process with its rigorous research insightful analysis and consistent presentation this book will help readers to systematically compare the process across countries to draw conclusions and analyze hr implications this book is intended as a text for graduate courses in cross cultural business international human resource management and cross cultural organisational psychology in addition to a student market the text will also be of interest to the reflective practitioner operating in different cultural settings who requires a contextual knowledge of key aspects of workplace relations management style and host country situation

Neuropsychology of Cardiovascular Disease

2001

Neuropsychology of Cardiovascular Disease is a book that discusses the relationship between the brain and the heart. It covers topics such as the effects of heart disease on the brain, the role of the brain in heart disease, and the use of neuropsychological tests to diagnose and monitor heart disease. The book is written by a leading expert in the field and is a valuable resource for clinicians and researchers alike.

Manajemen otonomi daerah

2021-05-01

the economic and social prospects are daunting for the 89 million out of school youth who comprise nearly half of all youth in sub saharan africa within the next decade when this cohort becomes the core of the labor market an estimated 40 million more youth will drop out and will face an uncertain future with limited work and life skills furthermore out of school youth often are policy orphans positioned between sectors with little data low implementation capacity lack of interest in long term sustainability of programs insufficient funds and little coordination across the different government agencies this report provides a diagnostic analysis of the state of out of school youth in sub saharan africa focusing on the 12 to 24 year old cohort this report also examines the decision path youth take as they progress through the education system and the factors that explain youth s school and work choices it finds that individual and household characteristics social norms and characteristics of the school system all matter in understanding why youth drop out and remain out of school in particular six key factors characterize out of school youth i most out of school youth drop out before secondary school ii early marriage for female youth and iii rural residence increase the likelihood of being out of school iv parental education level and v the number of working adults are important household factors and vi lack of school access and low educational quality are binding supply side constraints policy discussions on out of school youth are framed by these six key factors along with three entry points for intervention retention remediation and integration this report also reviews policies and programs in place for out of school youth across the continent ultimately this report aims to inform public discussion policy formulation and development practitioners actions working with youth in sub saharan africa

RISET PENDIDIKAN DAN APLIKASINYA
