years and more after the revolution millions of peasants lived on as if in a timeless world their existence little different from that of the generations before them the author of this lively often witty and always provocative work traces how france underwent a veritable crisis of civilization in the early years of the french republic as traditional attitudes and practices crumbled under the forces of modernization local roads and railways were the decisive factors bringing hitherto remote and inaccessible regions into easy contact with markets and major centers of the modern world the products of industry rendered many peasant skills useless and the expanding school system taught not only the language of the dominant culture but its values as well among them patriotism by 1914 administrative history of the late ottoman period mobilizing for development tackles the question of how countries achieve rural development and offers a new way of thinking about east asia s political economy that challenges the developmental state paradigm through a comparison of taiwan 1950s 1970s south korea 1950s 1970s and china 1980s 2000s kristen e looney shows that different types of development outcomes improvements in agricultural production rural living standards and the village environment were realized to different degrees at different times and in different ways she argues that rural modernization campaigns defined as policies demanding high levels of mobilization to effect dramatic change played a central role in the region and that divergent development outcomes can be attributed to the interplay between campaigns and institutions the analysis departs from common portrayals of the developmental state as wholly technocratic and demonstrates that rural development was not just a byproduct of industrialization looney s research is based on several years of fieldwork in asia and makes a unique contribution by systematically comparing china s development experience with other countries relevant to political science economic history rural sociology and asian studies the book enriches our understanding of state led development and agrarian
