eventually the food synthesizer took a leap in technology and became voice activated with a much broader menu these machines were known as replicators later in the series and featured a complex technology that both produced and recycled

the food replicators could create dishes that tasted as fresh and delicious as if they had been made by hand alcoholic beverages desserts entrees and other delicacies from across the universe were available at the touch of a button or a command this type of system was perfect for a multi cultural inter species crew such as you would find on the enterprise

FoD Community Cookbook

2021-11-14

there was one thing that i actually missed when watching the shows as a child and it was the type of alcoholic drinks that were featured in the shows the universe of mixology was opened to new worlds and new civilizations and boldly drank where no one has drunk before from the blazing surface of aldebaran to the beautiful moonless glow of vulcan galactic alcohol takes on many different names and flavours in the star trek universe whether you watch a classic episode featuring william shatner or a newer spot from picard with sir patrick stewart a drop of aldebaran whiskey or a mug full of andorian ale is never far away in the background old friends new acquaintances a power lunch between captains are all scenarios that clearly need a drink
