'Charaiveti' (Vivekananda's Dialogue on People, Politics & Space) 2020-08-19

the hindu thinker swami vivekananda 1863 1902 was and remains an important figure both within india and in the west where he was notable for preaching vedanta scholarship surrounding vivekananda is dominated by hagiography and his mis appropriation by the political hindu right this work demonstrates that vivekananda was no simplistic pluralist as portrayed in hagiographical texts nor narrow exclusivist as portrayed by some modern hindu nationalists but a thoughtful complex inclusivist the book shows that vivekananda formulated a hierarchical and inclusivistic framework of hinduism based upon his interpretations of a four fold system of yoga it goes on to argue that vivekananda understood his formulation of vedanta to be universal and applied it freely to non hindu traditions and in so doing demonstrates that vivekananda was consistently critical of low level spirituality not only in non hindu

traditions but also within hinduism demonstrating that vivekananda is best understood within the context of advaitic primacy rather than hindu chauvinism this book will be of interest to scholars of hinduism and south asian religion and of south asian diaspora communities and religious studies more generally

this book presents in the words of swami vivekananda 1863 1902 a history of vedanta the deep exploration of the inner human world going back to the most ancient rishis or seers whose testimony is still revered in india he traces the tradition up to the beginning of the twentieth century showing how the dynamics of social structures within vedanta and the appearance from within vedanta of traditions such as jainism buddhism hinduism and sikhism influenced and molded the tradition in addition he studies the impact of the western abrahamic invasions of india that began around the eleventh century ce these brought to bear on vedanta a worldview which operated on the assumption that the physical world was the primary reality and that the kind of radical exploration of the inner world embraced by vedanta was highly suspect and not valid the vedantic tradition adapted in many different ways producing a variety of philosophical positions that are still extant today along with these traditions went various forms of yoga or self transformation in vedanta the key to experiencing the inner meaning of not only philosophy but also of our human condition and of reality itself this tradition presents four contexts of experience chatuspad suggesting the right brain mode of approach as described by iain mcgilchrist 2009 under the influence of shri ramakrishna 1836 1886 vivekananda gained access to vijnana or a knowledge higher than those classically described and known in the chatuspad vijnana permitted the acceptance of not only the traditional deeply experiential truths of vedanta but also of the validity of western materialism when seen as related to each other on a continuum of consciousness to be traversed by contemporary forms of yoga i see the result as a resolution of right left brain conflict à la mcgilchrist and thereby a model for universal human understanding conciliation and co operation in my introduction i attempt to show how the whole picture can be related both experientially and conceptually to matrices of consciousness developed in india as far back as the early medieval period a large glossary and index cum concordance indicate the various

contexts and depths of thought that emerge from vivekananda s multi contextual vijñana

swami vivekananda the nineteenth century hindu monk who introduced vedānta to the west is undoubtedly one of modern india s most influential philosophers unfortunately his philosophy has too often been interpreted through reductive hermeneutic lenses typically scholars have viewed him either as a modern day exponent of āṣaṅkara s advaita vedānta or as a neo vedāntin influenced more by western ideas than indigenous indian traditions in swami vivekananda s vedāntic cosmopolitanism swami medhananda rejects both of these prevailing approaches to offer a new interpretation of vivekananda s philosophy highlighting its originality contemporary relevance and cross cultural significance vivekananda the book argues is best understood as a cosmopolitan vedāntin who developed novel philosophical positions through creative dialectical engagement with both indian and western thinkers inspired by his guru sri ramakrishna vivekananda reconceived advaita vedānta as a nonsectarian life affirming philosophy that provides an ontological basis for religious cosmopolitanism and a spiritual ethics of social service he defended the scientific credentials of religion while criticizing the climate of scientism beginning to develop in the late nineteenth century he was also one of the first philosophers to defend the evidential value of supersensuous perception on the basis of general epistemic principles finally he adopted innovative cosmopolitan approaches to long standing philosophical problems bringing him into dialogue with a galaxy of contemporary philosophers medhananda demonstrates the sophistication and enduring value of vivekananda s views on the limits of reason the dynamics of religious faith and the hard problem of consciousness

for some years one thing had bothered me why does the ramakrishna order believe in the equality of religions when they ought to know that it could simply not be true there is so much published material readily available on the subject and the swamis have ample time at

their disposal to study them within a year of beginning to write on religion history and current events from an auditor s point of view my works became fairly well known which prompted one of the important branches of ramakrishna order to send me a prepaid order for books that included judaism christianity islam secularism hinduism the truth contained in that book had shaken up many intellectually inclined people but failed to impress the ramakrishna order therefore i sent a complimentary copy afterward to the president mahaaraaj at belur math note 1 with a personal note by registered post but he too chose to ignore the truth and continue treading on the path of untruth too many large religious social and socio political organizations take pride in parroting note 2 the well established untruth all religions are equal without any independent verification or application of individual mind this work will focus on ramakrishna order hoping to persuade it to recognize the truth and spread it further which will then prompt relatively smaller organizations to follow the same course success is not in our hand the karm ॐ ॐ is we are spreading the seeds fertile grounds will nourish them barren lands will stay neutral in due time your mind will make you stand by the side of truth a silent mass uprising will take place as swami vivekananda would have dreamt hindoo will learn to assert himself lost glory of hindooism will be regained note 1 a plot of land was acquired by swami vivekananda in 1899 and three years later 1902 he left his body age 40 belur math rkm headquarter stands today on that plot of land swami vivekananda did not see this building during his lifetime note 2 parrot humanoid syndrome as discussed in know the truth behind vasudhaiv kutumbakam yashodharma 2012
