in two volumes compiled by li zhongzi of the ming dynasty was carefully proofread by xue shengbai of the qing dynasty among the hundred or so annotated editions of neijing suwen and lingshu that appeared in different formats and styles in previous generations only neijing zhiyao compiled by mr li nianer of the ming dynasty is the most succinct but pithy from sibu zonglu yiyaobian this book introduces the major works and debates in chinese children s literature within the framework of china s revolution and modernization it demonstrates that the guiding rationale in children s literature was the political importance of children as the nation s future between the sixth and twentieth centuries the civil service examinations created and maintained political coherence across the chinese polity preparation for the examinations transformed the lives of literate elites by defining educational standards and disseminating a language that determined elite status however as participation in the examinations became central to that status an intense competition to determine the educational curriculum and the subject matter of the examinations erupted between intellectual and political rivals the principal goal of this book is to explain the restructuring of the examination field during a critical point in its history the southern song dynasty 1127 1279 which witnessed the increasing domination of the examinations by the neo confucian learning of the way movement by analyzing textbooks examination questions and essays and official and private commentary hilde de weerd examines how occupational political and intellectual groups shaped curricular standards and examination criteria and how examination standards in turn shaped political and intellectual agendas these questions reframe the debate about the civil service examinations and their place in the imperial order in classical chinese the great enterprise means winning the mandate of heaven to rule over china the central kingdom this second volume of a two volume work on the great enterprise of the manchus is the first scholarly narrative in any language relating their conquest of china during the seventeenth century this book was originally published as a boxed two volume set it is now available as separate volumes with plain hardcover the page numbering continues from the first volume to the second urban riverbanks are attractive locations and highly prized recreational environments however
