egypt's other wars vividly reconstructs the nation's struggle against malaria relapsing fever and cholera and explores the unique combination of forces that put public health at the top of the national political agenda. egypt in the 1940s as in the throes of a nationalist upheaval, nationalists of all political ideologies attributed the severe epidemics that the country was experiencing to egypt's status as an underdeveloped and colonized nation. the epidemics were therefore viewed for the first time as not only a public health crisis but also a political problem that called for a political solution. the importance of lutfi al khuli and the intellectual circle associated with the nasserist regime is examined here. rami ginat looks at al khuli's contribution to the short-lived yet formidable success of arab socialism. this is a book about an ancient writer, the j-writer, the yahwist who produced a work of political imagination. this work is embedded mainly in the first four books of the bible, best known for some of the most popular and influential biblical stories in genesis and exodus. the purpose of the book is to represent the whole of the original story with attention to its own meaning without the influence of the other literary strands with which it was later supplemented. therefore, the work includes a fresh, complete translation of the text of the j-writer who produced the bible's first history. the translation itself helps to establish more clearly than ever the integrity of the j-writer. the concern here is when and why this history was written, especially in light of the

national security affairs analyst eilam examines the strategy of containment in the middle east as it is currently pursued for the united states containment is a way to avoid war with iran and thwart its nuclear weapons program for israel it has been a way to prevent a confrontation with the palestinians in both the gaza strip and the west bank in other cases containment is meant to weaken a foe without starting a war as israel did by bombing shipments of weapons to hezbollah containment was also part of the war in syria because the west lacked the ability to overthrow bashar al assad though it cost the civilian population there dearly egypt has been trying to contain both its enormous economic hardships and isis primarily in the sinai peninsula ultimately eilam provides important and timely insights into the middle east's perennially fluid and volatile political environment his insights and analyses will be of interest not least in the corridors of power both here and abroad

why have state building projects across the mena
region proven to be so difficult for so long
following the end of the ottoman empire in the
early 1920s the countries of the region began a
violent and divisive process of state formation
but a century later state building remains
inconclusive this book traces the emergence and
evolution of state building across the mena region
and identifies the main factors that impeded its
success the slow end of the ottoman empire the
experience of colonialism and the rise of
nationalistic and religious movements the authors
reveal the ways in which the post colonial state
proved itself authoritarian and formed on the
model of the colonial state they also identify the

~~the war of june 1967 between israel and arab~~
states was widely perceived as being forced on israel to prevent the annihilation of its people by arab armies hovering on its borders documents now declassified by key governments question this view the uk ussr france and the usa all knew that the arab states were not in attack mode and tried to dissuade israel from attacking in later years this war was held up as a precedent allowing an attack on a state that is expected to attack it has even been used to justify a pre emptive assault on a state expected to attack well in the future given the lack of evidence that it was waged by israel in anticipation of an attack by arab states the 1967 war can no longer serve as such a precedent this book seeks to provide a corrective on the june 1967 war
