The Chemical News and Journal of Industrial Science 1898 vols 5 15 include bibliography of child study by louis n wilson

The Literary Gazette and Journal of Belles Lettres, Arts, Sciences, &c 1832 excerpt from the letters and journal 1848 49 of count charles leiningen westerburg general in the hungarian army in 1894 count albert apponyi told me that the journal of count leiningen westerburg was still in existence being preserved with a religious piety by count arminius t1902 the only son of the celebrated general at his express desire i under took the publication of the letters journal and memoranda here presented to the british public

after the lapse of two generations there could be no reason for withholding documents which could only serve to enrich our historical knowledge the publication is unabridged except for the omission of some expressions injurious to certain persons which were left out at the request of count arminius for the reader requires to possess a very strong objective sense in order to see in such declarations a source to be criticised and not an instrument to be used for personal and party purposes hard words agree with hard deeds to us both are trange about the publisher forgotten books publishes hundreds of thousands of rare and classic books find more at forgottenbooks.com this book is a reproduction of an important historical work forgotten books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy in rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition we do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works
