China's Changing Workplace 2011-04-15 scores of books and articles have been written in the popular press and mainstream marketplace about leadership who leaders are what they do and why they matter yet in academia there is a dearth of rigorous research journal articles or doctoral programs focused on leadership as a discipline why do top business schools espouse mission statements that promise to educate the leaders of the future yet fail to give leadership its intellectual due the handbook of leadership theory and practice seeks to bridge this disconnect based on the harvard business school centennial colloquium leadership advancing an intellectual discipline and edited by hbs professors nitin nohria and rakesh khurana this volume brings together the most important scholars from fields as diverse as psychology sociology economics and history to take stock of what we know about leadership and to set an agenda for future research more than a means of getting ahead and gaining power leadership must be understood as a serious professional and personal responsibility featuring the thinking of today s most renowned scholars the handbook of leadership theory and practice will be a catalyst for elevating leadership to a higher intellectual plane and help shape the research agenda for the next generation of leadership scholars

Handbook of Leadership Theory and Practice 2010-01-26 much of the existing literature within the varieties of capitalism voc and comparative business systems fields of research is heavily focused on europe japan and the anglo saxon nations as a result the field has yet to produce a detailed empirical picture of the institutional structures of most asian nations and to explore to what extent existing theory applies to the asian context the oxford handbook of asian business systems aims to address this imbalance by exploring the shape and consequences of institutional variations across the political economies of different societies within asia drawing on the deep knowledge of 32 leading experts this book presents an empirical comparative institutional analysis of

13 major asian business systems between india and japan to aid comparison each country chapter follows the same consistent outline complementing the country chapters are eleven contributions examining major themes across the region in comparative perspective and linking the empirical picture to existing theory on these themes a further three chapters provide perspectives on the influence of history and institutional change the concluding chapters spell out the implications of all these chapters for scholars in the field and for business practitioners in asia the handbook is a major reference work for scholars researching the causes of success and failure in international business in asia

The Oxford Handbook of Asian Business Systems 2014-01-30 this book recognizes the uniqueness of the moment the number of new users of e services will double during 2015 2018 moving from 2 billion users mostly from developed nations to an additional 2 billion mostly from developing nations this radical embrace of new e service technologies will improve the quality of lives for residents globally

E-Services Adoption 2015-10-07 much has been said about the re emergence of china to its historical position of eminence in the world economy yet little is understood about the kind of economic system china is evolving what are the rules of the game of business in today's china and how are they likely to change over the next decades the answers to these questions are crucial to business persons formulating strategy toward china but also for policy makers concerned with retaining the competitiveness of their nations in the face of chinese competition and for researchers seeking to gain deeper insights into the workings of economic systems and institutional change written by two leading experts in the field this book sheds much needed light on these questions building on recent conceptual and empirical advances and rich in concrete examples it offers a comprehensive and systematic exploration of present day chinese capitalism its component parts and their interdependencies it suggests that chinese capitalism as practiced today in many respects represents a development from traditional business practices whose revival has been greatly aided by the influx of investments and managerial talent from the regional ethnic chinese on the basis of present trends in the chinese economy as well as through comparison with five major types of capitalism those of france germany japan korea and the united states the book derives a prediction of the probable development paths of chinese capitalism and its likely competitive strengths and weaknesses

Transformations for Sustainable Development 2016-04-21 as buy outs became larger and more levered in the mid 2000's the european leveraged finance market experienced a wave of innovations this research is concentrating on the capitalisation process of leveraged buy outs in europe taking the perspective of an equity investor we embark on the quest for the optimal capital structure by constructing an integrated model based on traditionalist irrelevance hypothesis and modernist tax risky debt and costly contracting hypothesis views in a second step we review common terms of financing instruments used in european buy outs ie senior debt mezzanine high yield preferred equity equity in the light of these theoretical insights finally the capitalisation process is embedded in a broader framework for value levers in buy out transactions and an outlook on further research is given this research provides a solid review of relevant literature on capital structure eg modigliani miller agency theory and can be used as an introduction for the inexperienced reader the consistent mapping of common financing terms against relevant theoretical hypothesis is unique among related literature

Financing Patterns of European Buy-Outs 2009-07 this book shifts the debate on knowledge transfers within multinational corporations mncs back to its core how can we increase the effectiveness of cross boarder transfers of knowledge several perspectives on international knowledge flows from control issues to cultural barriers are integrated into a comprehensive framework based on a sample of leading mncs empirical results show which managerial mechanisms have to be implemented to increase the benefit from knowledge transfers in headquarters and subsidiaries

Effective Knowledge Transfer in Multinational Corporations 2004-10-10 the observation that many models are built but few are used has almost become a commonplace in the management science and operations research literature nevertheless the statement remains to a large extent true today also and

perhaps even more so where marketing models are concerned this led philippe naert now about four years ago to write a concept text of a few hundred pages on the subject of how to build implementable marketing models that is models that can and will be used one of the readers of that early manuscript was peter leefiang he made suggestions leading to a more consistent ordering of the material and proposed the addition of some topics and the expansion of others to make the book more self contained this resulted in a co authorship and a revised version which was written by peter leefiang and consisted of a reshuffling and an expansion of the original material by about fifty per cent several meetings between the co authors produced further refinements in the text and the sequence of chapters and sections after which philippe naert again totally reworked the whole text this led to a new expansion again by fifty per cent of the second iteration the third iteration also required the inclusion of a great deal of new literature indicating that the field is making fast progress and that implementation has become a major concern to marketing model builders

Building Implementable Marketing Models 2013-12-01 changing world market conditions have forced manufacturers to apply new architectures and technologies for the design and control of manufacturing systems distributed manufacturing paradigm concepts solutions and examples outlines the current requirements of manufacturing systems and addresses the architectures methodologies and technologies developed within european research activities in response to these requirements distributed manufacturing paradigm concepts solutions and examples will be of interest to researchers and developers in all fields involving industrial control systems as well as to decision makers within industry and government organizations the reader will gain a detailed knowledge of the current research directions in industrial control reaching a comprehensive understanding of current advances their expected benefits and limitations and the possible consequences for industrial businesses

Distributed Manufacturing 2009-09-29 books magazine articles and educational programs on entrepreneurship are all based on the idea that anyone can be an entrepreneur that entrepreneurs are made not born well maybe not in a study of 234 ceos funded by the kauffman foundation james l fisher and james v koch came up with a surprising conclusion some individuals are simply more naturally fitted to become entrepreneurs than others they are pre wired because of heredity some people are much more likely to become successful entrepreneurs or pursue entrepreneurial strategies within a corporate setting profitably by recognizing that this book will significantly improve corporate selection processes strengthen entrepreneurship programs and boost the confidence of aspiring entrepreneurs through invaluable insights among other things fisher and koch show that true entrepreneurs not only see the world differently they act differently compared with corporate managers for example they are more confident more decisive more likely to upset the apple cart and more energetic they love to compete but are notable for the partnerships they are able to fashion with friend and foe alike such conclusions are remarkable why because they are based on the only empirical comparison study yet conducted on entrepreneurship the insights are not based on personal opinion or case studies but on valid and reliable personality indicators because the book shows that certain kinds of people will find it much easier to found successful companies than others it has many practical applications it will help organizations fit the right people into jobs requiring an entrepreneurial bent it will challenge corporations to hire entrepreneurial ceos who will transform businesses rather than maintain the status quo and it will speak directly to entrepreneurs and those contemplating starting a business who will learn if they have the right stuff to start and sustain a business in short this book provides insights into the entrepreneurial soul that can change the fortunes of individuals and companies for the better
