Mushrooms on the Moor is a collection of essays from a Baptist preacher on the joys of everyday things like books clothes or even mushrooms Boreham challenges himself to open up the moments of his life into a laughing precious sweetness accessible to readers from all walks of life excerpt I have allowed the Mushrooms on the Moor to throw the glamour of their name over the entire volume because in some respects they are the most typical and representative things in it they express so little but suggest so much what fun we had in the days of Auld Lang Syne when we scoured the dewy fields in search of them

selected by choice magazine as an outstanding academic title speak of me as i am othello the moor of venice bids in the play that bears his name yet many have found it impossible to speak of his ethnicity with any certainty what did it mean to be a moor in the early modern period in the late sixteenth and early seventeenth centuries when england was expanding its reach across the globe the moor became a central character on the english stage in the battle of alcazar titus andronicus lust s dominion and othello the figure of the moor took definition from multiple geographies histories religions and skin colors rather than casting these variables as obstacles to our and england s understanding of the moor s racial and cultural identity emily c bartels argues that they are what make the moor so interesting and important in the face of growing globalization both in the early modern period and in our own in speaking of the moor bartels sets the early modern moor plays beside contemporaneous texts that embed moorish figures within england s historical record richard hakluyt s principal navigations queen elizabeth s letters proposing the deportation of england s blackamoors and john pory s translation of the history and description of africa her book uncovers the surprising complexity of england s negotiation and accommodation of difference at the end of the elizabethan era

Speaking of the Moor

in a gloomy room looking out through one narrow window upon a moor two young people together and yet alone consumed the dreary hours of a february afternoon the scene within doors exhibited scarcely less monotony and dreariness than did the moor without which stretched black and heavy to the hills under a leaden sky the room was well sized and lighted only by that one window which was deeply sunk in the deep wall and hung with terrible curtains of red moreen enough to kill what little amount of light there was a large dining table of cold well polished mahogany occupied the centre of the apartment an old fashioned sideboard and mysterious bureau of the same character stood out darkly from the walls and hard angular chairs furnished forth the dining room as it was called but which was indeed drawing room study boudoir everything to the brother and sister who held occupation of it now and here were none of those traces of feminine presence which one reads of in books no pretty things no flowers no embroideries nothing to cast a grace upon the dulness perhaps that might be partly susan s fault but when one lives all one s life on the borders of lanwoth moor ten miles off from the humblest attempt at a town without any money and seeing nobody to stir

one's ambition even a girl of seventeen may be pardoned if she can make little brightness except that of her presence in her shady place to tell the truth nobody made much account of Susan she was not expected to exert much influence on the changeless atmosphere of Marchmain no one supposed her to be the flower of that solitude any little embellishments which she tried were put down ruthlessly and the little girl had long ago learned as the first duties of womankind to do as she was bid and hold her peace she was seated now before the fire making a little centre with her work upon the cold glimmer of the uncovered table she was very fair in her complexion with hair almost flaxen white teeth blue eyes and a pretty colour she did not look intellectual nor interesting nor melancholy but sat leaning very closely over her work because there was not much light and Horace stood full between her and what little there was she had a pair of scissors a reel of cotton and a paper of buttons on the table before her and on the back of her chair hang a huge bag made of printed cotton which it was safe to believe was her work bag there she sat with a little firelight playing vainly upon her dark woollen dress a domestic creature not very happy but very contented dully occupied in the silence and the gray afternoon living a life against which her youth protested but somehow managing to get on with tolerable comfort as women unawakened and undisturbed do

the house on the moor is a novel by Mrs Oliphant first published in 1861 this carefully crafted e artnow ebook is formatted for your ereader with a functional and detailed table of contents x000d extract x000d behind him hung by the side of the window in the worst light of the room is a portrait a very common work done by a mediocre painter but in all probability very like its original for the face looks down through the gloom with a real smile which paint cannot give a sweet home like domestic woman such another as Susan will be when the years and the hours have carried her into her own life there can be no doubt it is Susan's mother and this man's wife there is no other picture in the house and he cares so little for anyone seeing this that he has hung it in the shadows of the red moreen curtains where nobody can distinguish the features most likely he knows the features well enough to penetrate that darkness for though he sits with his back to it most usually it is for his pleasure it is here

with an essay on hogg s literary friendships by janette currie and an appendix on the popular context by suzanne gilbertscottish popular tradition includes a group of stories about a king who has adventures amorous and otherwise as he wanders in disguise among his people many of these stories focus on james v and in walter scott s long narrative poem the lady of the lake 1810 the king encounters a mysterious lady while he is wandering alone and unrecognised in the highlands at first sight scott s heroine seems to be a simple country girl but she turns out to be a daughter of the great aristocratic house of douglas living for the time being in a rural exile scott s romantic and aristocratic version of the old wandering king stories was hugely popular in its day but hogg subverts and questions this tale in mador of the moor 1816 the name mador suggests made o er made over and mador of the moor is in effect a makeover of the lady of the lake hogg s poem like scott s tells how a deer hunt in the highlands leads a disguised king of

scots into a love adventure with a young woman however hogg s heroine ila moore is not a chaste aristocrat but a girl of low social standing who is made pregnant by the wandering king ila s inherent resourcefulness and strength of character suggest that a peasant girl pregnant out of wedlock can be a heroine fully worthy of respect and mador rejected as shocking and ridiculous by its original readership now re emerges as a flowing and immensely readable narrative that eloquently challenges the deeply ingrained class and gender prejudices of hogg s society

in this sweeping historical saga of a young man s journey from successful merchant to slave to triumphant survivor laila lalami has crafted brilliantly imagined fiction rewritten to give us something that feels very like the truth salman rushdie in 1527 the conquistador pánfilo de narváez left the port of san lucar de barrameda in spain with a crew of more than five hundred men his goal was to claim what is now the gulf coast of the united states for the spanish crown and in the process become as wealthy and as famous as hernán cortés but from the moment the narváez expedition reached florida it met with incredibly bad luck storms disease starvation hostile indians within a year there were only four survivors the expedition s treasurer cabeza de vaca a spanish nobleman named alonso del castillo maldonado a young explorer by the name of andrés dorantes and his moroccan slave mustafa al zamori the four survivors were forced to live as slaves to the indians for six years before fleeing and establishing themselves as faith healers together they traveled on foot through present day florida texas new mexico and arizona gathering thousands of disciples and followers along the way in 1536 they crossed the rio grande into mexican territory where they stumbled on a group of spanish slavers who escorted them to the capital of the spanish empire méxico tenochtitlán three of the survivors were asked to provide testimony of their journey castillo dorantes and cabeza de vaca who later wrote a book about this adventure called la relación or the account but because he was a slave estebanico was not asked to testify his experience was considered irrelevant or superfluous or unreliable or unworthy despite the fact that he had acted as a scout an interpreter and a translator this novel is his story

not as a scientist nor as an evangelist nor as a traveller nor as an author but as the uncompromising and relentless assailant of ready made clothes unless you grasp this you will never understand him he scorned all affectations and imitations he would adopt no style of dress simply because it was usual under certain conditions he was as an eye witness of his ordination remarks the last man whom you could place by the woman s canon of dress and yet his dress was a marvel of adaptation to the part he happened to be playing on his ordination day when most men assume a garb severely clerical he was dressed like a country squire thus proclaiming to fathers and brethren and to all the world that he was not going to allow ordination to play havoc
