2014-03-13

the book presents a comprehensive updated approach to current psychological knowledge to facilitate a rapid review of the major subjects in psychology in medicine and to stimulate further detailed study the book is divided into five parts part one provides an elaborate background of the various sub disciplines of psychology the various theories and schools of thoughts encompassing them part two discusses the links between the physical and psychological state of being human part three elucidates the basic psychological processes that shape human cognizance part four talks about the different factors which influence the human psyche part five discusses the various aspects of clinical psychology and their implications for the physical well being of people understanding psychology for medicine and nursing distinguishes itself in providing a concise clear understanding of most of the basic topics of psychology that are essential to all students of general psychology but particularly to medical and nursing students and to postgraduate trainees in psychiatry

Exploring Social Psychology

1997-11-01

a guide to aligning your life with the frequencies of the nine waves of creation explains the quantum physics behind the waves of the mayan calendar system and how their holograms shape the human mind shows how throughout history each revolution in human consciousness has been driven by the activation of one of the nine waves of creation reveals how we can consciously work to deactivate the negative patterns of the sixth wave and manifest the unity consciousness of the ninth wave in the past few years the world has witnessed changes in social consciousness whose sudden development the ruling scientific paradigm has not been able to explain these changes correspond with the activation of new waves of creation emanating from the center of the universe that influence human thinking from the big bang to the present these waves guide the evolution of the universe and through their holographic resonance with the human mind profoundly shape revolutions in religion technology economy and social consciousness presenting a quantum holographic perspective on world history and human consciousness carl calleman explains the quantum physics behind the waves of the mayan calendar system and how these waves allow us to understand the shifting eras on earth as well as the possibilities of the future he describes how prior to the activation of the 6th wave in 3115 bce our social systems were based on a unified cosmic order but the hologram of this wave shifted society to an all consuming focus on good and evil leading to the rise of patriarchal religious structures slavery and warfare he explores how later waves and their new holograms helped humanity survive the negative effects of the 6th wave such as the industrial revolution of the 7th wave and the digital revolution of the 8th wave in 2011 the 9th wave was activated bringing with it an accelerated push for a more egalitarian world a rising awareness of unity consciousness and access to the full power of all nine waves of creation calleman explains how our individual resonance with each wave plays a role in the quality of our lives and how we must consciously work to resonate with the higher waves revealing how we can become quantum activists in a holographic world by aligning with the 9th wave the author shows how we each can help manifest the destiny of humanity hinted at in ancient texts

Health Psychology
