Professional Paper 1914 this book analyses rabindranath tagore s contribution to bengali drama and theatre throughout this book abhijit sen locates and studies rabindranath s experiments with drama theatre in the context of the theatre available in nineteenth century bengal and explores the innovative strategies he adopted to promote his brand of theatre this approach finds validation in the fact that rabindranath combined in himself the roles of author actor producer who always felt that without performance his dramatic compositions fell short of the desired completeness various facets of his plays as theatre and his own role as a theatre practitioner are the prime focus of this book this book will be of great interest to students and scholars in theatre and performance studies and most notably those focusing on indian theatre and postcolonial theatre

Professional Paper - United States Geological Survey 1914 vols 1 108 include proceedings of the society separately paged beginning with v 30

The Middle Triassic Marine Invertebrate Faunas of North America 1914 neutrosophic sets and systems has been created for publications on advanced studies in neutrosophy neutrosophic set neutrosophic logic neutrosophic probability neutrosophic statistics that started in 1995 and their applications in any field such as the neutrosophic structures developed in algebra geometry topology etc neutrosophy is a new branch of philosophy that studies the origin nature and scope of neutralities as well as their interactions with different ideational spectra this theory considers every notion or idea a together with its opposite or negation antia and with their spectrum of neutralities neuta in between them i e notions or ideas supporting neither a nor antia the neuta and antia ideas together are referred to as nona neutrosophy is a generalization of hegel s dialectics the last one is based on a and antia only according to this theory every idea a tends to be neutralized and balanced by antia and nona ideas as a state of equilibrium in a classical way a neuta antia are disjoint two by two but since in many cases the borders between notions are vague imprecise sorites it is possible that a neuta antia and nona of course have common parts two by two or even all three of them as well neutrosophic set and neutrosophic logic are generalizations of the fuzzy set and respectively fuzzy logic especially of intuitionistic fuzzy set and respectively intuitionistic fuzzy logic

Rabindranath Tagore's Theatre 2021-09-28 introduction this chapter is concerned with the general introduction importance of thermal comfort and need for research on it the objectives of the study and organization of the thesis are discussed importance of blending natural fibres and their blends with classic fibres bear valuable properties and so at present there are various products made of these fibres it is observed that in respect of properties like the absorption and discharge of moisture non irritating antibacterial and anti allergic characteristics protection against the sun s harmful ultra violet rays and other valuable properties blended yarns are better than classical yarns hence they may be used for clothing underwear socks and hygienic textile products as well as for composites in the cotton spinning process blending has the objective of producing yarn with acceptable quality and reasonable cost a good quality blend requires the use of adequate machines objective techniques to select bales and knowledge of its characteristics knowledge of the importance of blended products in the textile industry and the generally rising costs of production make the achievement of economic and good quality blends with different kinds of cotton more and more critical azzouz et al 2008

The Quarterly Journal of the Geological Society of London 1897 understanding and building up the foundation of nanowire concept is a high requirement and a bridge to new technologies any attempt in such direction is considered as one step forward in the challenge of advanced nanotechnology in the last few years intech scientific publisher has been taking the initiative of helping worldwide scientists to share and improve the methods and the nanowire technology this book is one of intechs attempts to contribute to the promotion of this technology

Neutrosophic Sets and Systems, vol. 51/2022 2022-09-01 this book constitutes the refereed proceedings of the first international conference on information and communication security icics 97 held in beijing china in november 1997 the 37 revised full papers presented were selected from a total of 87 submissions also included are 11 short papers the book is divided in sections on theoretical foundations of security secret sharing network security authentication and identification boolean functions and stream ciphers security evaluation signatures public key systems cryptanalysis of public key systems subliminal channels key recovery intellectual property protection protocols and electronic commerce

Catalogue of the Library of the India Office: [pt. 1] Classed catalogue. 1888 1895 this book highlights the importance of non wood forest products nwfps and their crucial role in sustaining the livelihood of rural and indigenous communities in asia the authors depict how the preservation of forests and the associated major non wood resources may provide an important avenue to reduce poverty the local practices and knowledge on harvesting nwfps are often rooted in tradition and vary from one region to the other this made it difficult to develop and establish research focus on a greater scale in the past readers of this volume will gain an often missed broader perspective from these new studies the authors put a special emphasis on the nexus between conservation and livelihood from an asian point of view this addresses a knowledge gap in the current literature and offers important clues on conducting similar research around the world the volume provides a useful reference guide for the relevant researchers practitioners and policy makers

Catalogue of the Library of the India Office ...: Supplement 2: 1895-1909. 1909 1895 one of the most outstanding consequences of the british rule in india was the creation of native intelligentsia sambhu chandra mookerjee epitomised such an intellectual of the 19th century bengal

Catalogue of the Library of the India Office: pt. 1 . Classed catalogue. 1888. pt. 2 . Index. 1888. Supplement. 1895. Supplement 2. 1895-1909 1895 this book constitutes the refereed proceedings of the 10th international conference on cellular automata for research and industry acri 2012 held in santorini island greece in september 2012 the 88 revised papers were carefully selected from numerous submissions in order to give a perspective in which both theoretical and applicational aspects of cellular automata contribute to the growth of the area this book mirrors the

structure of the conference grouping the 88 papers into two main parts the first part collects papers presented as part of the main conference and organized according to six main topics theoretical results on cellular automata cellular automata dynamics control and synchronization cellular automata and networks modeling and simulation with cellular automata cellular automata based hardware and architectures codes pseudorandom number generators and cryptography with cellular automata the second part of the volume is dedicated to contributions presented during the acri 2012 workshops on theoretical advances specifically asynchronous cellular automata and challenging application contexts for cellular automata crowds and ca traffic and ca and the satellite workshop on cellular automata of cancer growth and invasion

Fossils of the British Islands Stratigraphically and Zoologically Arranged 1888 neutrosophic sets and systems has been created for publications on advanced studies in neutrosophy neutrosophic set neutrosophic logic neutrosophic probability neutrosophic statistics that started in 1995 and their applications in any field such as the neutrosophic structures developed in algebra geometry topology etc neutrosophy is a new branch of philosophy that studies the origin nature and scope of neutralities as well as their interactions with different ideational spectra this theory considers every notion or idea a together with its opposite or negation antia and with their spectrum of neutralities neuta in between them i e notions or ideas supporting neither a nor antia the neuta and antia ideas together are referred to as nona neutrosophy is a generalization of hegel s dialectics the last one is based on a and antia only according to this theory every idea a tends to be neutralized and balanced by antia and nona ideas as a state of equilibrium in a classical way a neuta antia are disjoint two by two but since in many cases the borders between notions are vague imprecise sorites it is possible that a neuta antia and nona of course have common parts two by two or even all three of them as well neutrosophic set and neutrosophic logic are generalizations of the fuzzy set and respectively fuzzy logic especially of intuitionistic fuzzy set and respectively intuitionistic fuzzy logic

Thermal Comforts Properties of Knitted Fabrics Produced from Bamboo blended yarns 2020-12-18 this book constitutes the strictly refereed proceedings of the 12th international symposium on applied algebra algebraic algorithms and error correcting codes aaecc 12 held in toulouse france june 1997 the 27 revised full papers presented were carefully selected by the program committee for inclusion in the volume the papers address a broad range of current issues in coding theory and computer algebra spanning polynomials factorization commutative algebra real geometry group theory etc on the mathematical side as well as software systems telecommunication complexity theory compression signal processing etc on the computer science and engineering side

A General Biography of Bengal Celebrities, Both Living and Dead 1889 this new edition of an economic history of early modern india extends the timespan of the analysis to incorporate further research this allows for a more detailed discussion of the rise of the british empire in south asia and gives a fuller context for the historiography in the years between the death of the emperor aurangzeb 1707 and the great rebellion 1857 the mughal empire and the states that rose from its ashes declined in wealth and power and a british empire emerged in south asia this book asks three key questions about the transition why did it happen what did it mean how did it shape economic change the book shows that during these years a merchant friendly regime among warlord ruled states emerged and state structure transformed to allow taxes and military capacity to be held by one central power the british east india company the author demonstrates that the fall of warlord ruled states and the empowerment of the merchant in consequence shaped the course of indian and world economic history reconstructing south asia s transition starting with the mughal empire s collapse and ending with the great rebellion of 1857 this book is the first systematic account of the economic history of early modern india it is an essential reference for students and scholars of economics and south asian history

Nanowires 2011-07-19 neutrosophic sets and systems has been created for publications on advanced studies in neutrosophy neutrosophic set neutrosophic logic neutrosophic probability neutrosophic statistics that started in 1995 and their applications in any field such as the neutrosophic structures developed in algebra geometry topology etc

The Triassic Cephalopod Genera of America 1905 neutrosophic sets and systems has been created for publications on advanced studies in neutrosophy neutrosophic set neutrosophic logic neutrosophic probability neutrosophic statistics that started in 1995 and their applications in any field such as the neutrosophic structures developed in algebra geometry topology etc

Information and Communications Security 1997-10-22 this book presents a comprehensive account of the recent advances and research in optical fiber technology it covers a broad spectrum of topics in special areas of optical fiber technology the book highlights the development of fiber lasers optical fiber applications in medical imaging spectroscopy and measurement new optical fibers and sensors this is an essential reference for researchers working in optical fiber researches and for industrial users who need to be aware of current developments in fiber lasers sensors and other optical fiber applications

Non-Wood Forest Products of Asia 2022-07-22 akashvani english is a programme journal of all india radio it was formerly known as the indian listener it used to serve the listener as a bradshaw of broadcasting and give listener the useful information in an interesting manner about programmes who writes them take part in them and produce them along with photographs of performing artists it also contains the information of major changes in the policy and service of the organisation the indian listener fortnightly programme journal of air in english published by the indian state broadcasting service bombay started on 22 december 1935 and was the successor to the indian radio times in english which was published beginning in july 16 of 1927 from 22 august 1937 onwards it used to published by all india radio new delhi from 1950 it was turned into a weekly journal later the indian listener became akashvani english w e f january 5 1958 it was made fortnightly journal again w e f july 1 1983 name of the journal akashvani language of the journal english date month year of publication 24 june 1973 periodicity of the journal weekly number of pages 56 volume number vol xxxviii no 26

broadcast programme schedule published page nos 20 54 article 1 mohan kumaramangalam the man and his political philosophy 2 food from the sea 3 jawaharlal nehru and democracy 4 man and his future 5 the talkative bores 6 twenty five years of transistor 7 building castle in the air 8 the alipore treason trail author 1 prof hiren mukerjee m p 2 dr raghuprasad 3 harinath misra 4 dr kesari kishore 5 zamaruddin 6 s guha 7 rita srivastava 8 justice v r krishna iyer prasar bharati archives has the copyright in all matters published in this akashvani and other air journals for reproduction previous permission is essential

From Diffidence to Reliance 1993 the making of indian english literature brings together seventeen well researched essays of subhendu mund with a long introduction by the author historicising the development of the indian writing in english while exploring its identity among the many appellations tagged to it the volume demonstrates contrary to popular perceptions that before the official introduction of english education in india indians had already tried their hands in nearly all forms of literature poetry fiction drama essay bio graphy autobiography book review literary criticism and travel writing besides translation activities indians had also started editing and publishing periodicals in english before 1835 through archival research the author brings to discussion a number of unknown and less discussed texts which contributed to the development of the genre the work includes exclusive essays on such early poets and writers as kylas chunder dutt shoshee chunder dutt toru dutt mirza moorad alee beg krupabai satthianadhan swami vivekananda h dutt and sita chatterjee and historiographical studies on the various aspects of the genre the author also examines the strategies used by the early writers to indianise the western language and the form of the novel the present volume also demonstrates how from the very beginning indian writing in english had a subtle nationalist agenda and created a space for protest literature the making of indian english literature will prove an invaluable addition to the studies in indian writing in english as a source of reference and motivation for further research please note taylor francis does not sell or distribute the hardback in india pakistan nepal bhutan bangladesh and sri lanka

Cellular Automata 2012-09-20 the theme of conference is emerging technologies for sustainability sustainability tends to be problem driven and oriented towards guiding decision making the goal is to raise the global standard of living without increasing the use of resources beyond global sustainable levels the conference is intended to act as a platform for researchers to share and gain knowledge showcase their research findings and propose new solutions in policy formulation design processing and application of green materials material selection analysis green manufacturing testing and synthesis thereby contributing to the creation of a more sustainable world

Neutrosophic Sets and Systems, vol. 50/2022 2022-06-01 the fabrication of mems has been predominately achieved by etching the polysilicon material however new materials are in large demands that could overcome the hurdles in fabrication or manufacturing process although an enormous amount of work being accomplished in the area most of the information is treated as confidential or privileged it is extremely hard to find the meaningful information for the new or related developments this book is collection of chapters written by experts in mems and nems technology chapters are contributed on the development of new mems and nems materials as well as on the properties of these devices important properties such as residual stresses and buckling behavior in the devices are discussed as separate chapters various models have been included in the chapters that studies the mode and mechanism of failure of the mems and nems this book is meant for the graduate students research scholars and engineers who are involved in the research and developments of advanced mems and nems for a wide variety of applications critical information has been included for the readers that will help them in gaining precise control over dimensional stability quality reliability productivity and maintenance in mems and nems no such book is available in the market that addresses the developments and failures in these advanced devices

Grundrisz zur Geschichte der deutschen Dichtung. 3 Bde. [in 2. Vol. 1/2 is of the 2nd ed.] 1881 natural polysaccharides in drug delivery and biomedical applications provides a fundamental overview of natural polysaccharides their sources extraction methodologies and characterizations it covers specific natural polysaccharides and their effective application in drug delivery and biomedical use additionally chapters in the book discuss key topics including the sources and extraction methodologies of natural polysaccharides their role in tissue engineering applications polysaccharide based nanoparticles in biomedical applications and their role in the delivery of anticancer drugs written by industry leaders and edited by experts this book emphasizes recent advances made in the field natural polysaccharides in drug delivery and biomedical applications provides academics researchers and pharmaceutical health care professionals with a comprehensive book on polysaccharides in pharmaceutical delivery process provides fundamental concepts of natural polysaccharides as it applies to the pharmaceutical biomedical and biotechnology industries includes contributions from global leaders and experts from academia industry and regulatory agencies in the application of natural polysaccharides in pharmaceutical products and biomedical utilization offers practical examples illustrations chemical structures and research case studies to help explain natural polysaccharides concepts in drug delivery and biomedical applications

Applied Algebra, Algebraic Algorithms and Error-Correcting Codes 1997-06-11 based on a two semester course held at the university of heidelberg germany this book provides a solid basis for postgraduate students wishing to obtain a more profound understanding of the foundations of quantum field theory the book covers a wide spectrum of topics ranging from traditional operator and modern path integral methods to different regularization and renormalization methods asymptotic behavior of green functions a particular view on the renormalization group and spontaneous symmetry breaking in effective potentials much effort has been made to present the material in a transparent detailed and structured way which should help the reader to follow the material

An Economic History of India 1707-1857 2021-09-09 the present book ethnobotany and medicinal plants of india and nepal is next publication in the series on indian medicinal plants the contributors of the papers in this book are well known

indian ethnobotanists who have furnished authenticated data for further scientific and clinical tests the information about the medicinal plants spread over 325 pages covers various tribal communities from north to south and east to west and different ailments cured in nature s dispensary beautiful phtographs of some medicinal plants have also been provided by some contributors the information furnished in the book will be useful for controlling biopiracy backing conservation stretegies and facilitate better understanding of phytotherapy research

Indian National Bibliography 2009-07 at this congress there were again numereous reports of progress in immunology the new technologies are continuing to have an immense impact gene isolation mutation transfection and expression protein structure andpeptide synthesis cell cloning hybridization and monoclonal antibodies cd serology scid and transgenic mice modern immunomodulation and vaccines a trmendous mass of data has accumulated over the last years the reports are up to date and outstanding to a degree no journal will ever achieve and the results are presented in a concise and lucid way this report will serve as a guideline for the years to came because it is a treasure trove of explorations making it exciting reading this progress presents outstanding contributions immunology is exhibited at its best an exciting research area and a rewarding subject to study for the benefit of mankind today more than ever

Neutrosophic Sets and Systems, Vol. 31, 2020 2012-02-22 the contents of the book are based upon the materials collected through extensive and careful research for the preparation of a thesis for a higher degree for the lancaster university it deals with the conception of hindu religion its history and progress along with the gradual rationalization of the belief and practices with the time since rigveda and its effect on the caste system special attempt has been made to present many complex theological topics in a simpler way for the easy understanding of the young generation on whom the religion depends enormously for its future growth and expansion the vast amount of information has been accumulated here in a concise form to make it a useful reference book for the students of religious studies and sociology

Neutrosophic Sets and Systems, Book Series, Vol. 31, 2020. An International Book Series in Information Science and Engineering 1973-06-24 family squabbles and fights over real estate were no less complex in sixth century egypt than they are in the modern world in this unusual volume peter van minnen and traianos gagos investigate just such a struggle as described in a two part papyrus some five feet long composed by the ancient equivalent of a notary public the papyrus describes the outcome after mediation of a family dispute about valuable real estate traianos gagos and peter van minnen offer an english translation and a clear greek text of the two papyrus fragments as well as an important discussion of the nature of such mediation its role in contemporary society a consideration of the town of aphrodito and its social and political elite as well as many other topics that spring from this kind of document the use of methodologies from modern jurisprudence and anthropology together with an accessible style of writing mean that settling a dispute will be of interest to persons in many fields including history classics and near eastern studies all greek is translated and an extensive commentary offers much helpful information on the text traianos gagos is associate archivist of the university of michigan s papyri collection peter van minnen is senior research associate in the papyri collection at duke university
