and approaches the categorization of romanesque by region was a cornerstone of 19th and 20th century scholarship albeit one vulnerable to the application of anachronistic concepts of regional identity individual chapters explore the generation and reception of forms the conditions that give rise to the development of transregional styles and the agencies that cut across territorial boundaries there are studies of regional styles in aquitaine castile sicily hungary and scandinavia workshops in worms and the welsh marches the transregional nature of liturgical furnishings the cultural geography of the new monastic orders metalworking in hildesheim and the valley of the meuse and the links which connect piemonte with conques the regional and transregional in romanesque europe offers a new vision of regions in the creation of romanesque relevant to archaeologists art historians and historians alike

OE Communiqué 1980

first multi year cumulation covers six years 1965 70

Workshops for the Handicapped in the United States 1971

foreword ten years is a long time in 2009 a bunch of friends gathered in portugal for a conference that was to precede take in 2011 we repeated then after a strange sequence of events we finally organized take for the first time in 2015 in aveiro followed by zagreb poznan and now vienna florian kragulj was in the first take in aveiro and from the start showed the highest level of enthusiasm and professionalism in the event these characteristics were kept alive during all the 15 or so months during which we organized take 2019 that this edition of take involves several entities linked with academia i e wu vienna university of economics and business the austrian economic chamber and the institute for applied research on skilled crafts and trades iagf this in itself a big success and a sign of the conference improvement also we may see by analysing the papers and in particular the streams that take has been following the economic times and this year we have several papers on the gig economy only good conferences adjust the others get stuck in time and success in conferences is about teams and in take that team is indeed a very large group of people including the co chairs the local organizing team the material organizers book of abstracts and proceedings the stream leaders and the paper reviewers without all these persons nothing could have been done and finally we had to depend on the authors and their willingness to work with us without the work of these large dozens of devoted and skilled people take 2019 would not have existed may i also mention that this time and with florian s impulse and skill the organization of take was improved in technological terms in short we became techno we used a website to deliver the mail list a website to receive the scientific material and another website to receive the fees all these were investments that eventually paid of and that will guarantee a more stable organization for take in the future and we owe it to florian however as the human resource development part of take and more than anyone gary mc lean would remind us we are humans eduardo and technology helps but in the end is attention to detail capacity to deal with the bizarre and to accommodate the weirdness making sometimes the impossible possible that differentiates a good conference made doing things right from an excellent conference based in doing the right things and on this last matter believe me we in take are among the best in the world because apart from being outstanding scholars and good colleagues we are an amazing group of friends and friendship is the best way to turn good conferences into outstanding ones many thanks from the heart and enjoy the conference eduardo tomé conference chair universidad europeia lisbon july 2019 lisbon portugal

Current Catalog 1993

the doctor dilemma provides a timely discussion of policy issues in five key areas of physician related public policy in ontario physician payment schemes regulation of physician numbers and distribution monitoring of the quality of medical care the role of physicians in hospitals and the regulation of new medical technologies shortt defines the scope of the problems clarifies the focus of the debate identifies the constraints on policy formation and discusses the policy options available the author accepts the inevitability of substantial change to the health care system and the way practitioners work but believes that such change can ultimately lead to a better system of health care in ontario his aim is to persuade fellow doctors not to oppose change but rather to inform policy makers of what areas of physician activity legitimately demand intervention and how best to make changes the doctor dilemma will be of tremendous interest to physicians and health care professionals administrators and policy makers across canada

Proceedings of the International Conference Theory and Applications in the Knowledge Economy TAKE 2019 2019-07-10

an aid to determine the possible cause of laboratory test abnormalities encountered in clinical practice sections include laboratory test index disease keyword index laboratory test listings disease listings by icd 9cm classification and references

Annual Reports of the Navy Department for the Fiscal Year ... 1903

constitutes the refereed post workshop proceedings of 9 international workshops held in milano italy in conjunction with the 6th international conference on business process management bpm 2008 in september 2008

Cumulated Index Medicus 1977

includes entries for maps and atlases

Investigation of Senator David F. Durenberger: Special counsel hearing exhibits ... contains volumes 1 through 6 1990

health services arranged topically in 34 chapters e g hospices pain centers and clinics and runaway youth programs each entry gives address telephone number and brief descriptive note index

Annual Report of the Department of Inspection of Workshops, Factories and Public Buildings, to the General Assembly of the State of Ohio, for the Year ... 1909

this book presents the basics and recent advancements in natural language processing and information retrieval in a single volume it will serve as an ideal reference text for graduate students and academic researchers in interdisciplinary areas of electrical engineering electronics engineering computer engineering and information technology this text emphasizes the existing problem domains and possible new directions in natural language processing and information retrieval it discusses the importance of information retrieval with the integration of machine learning deep learning and word embedding this approach supports the quick evaluation of real time data it covers important topics including rumor detection techniques sentiment analysis using graph based techniques social media data analysis and language independent text mining features covers aspects of information retrieval in different areas including healthcare data analysis and machine translation discusses recent advancements in language and domain independent information extraction from textual and or multimodal data explains models including decision making random walk knowledge graphs word embedding n grams and frequent pattern mining provides integrated approaches of machine learning deep learning and word embedding for natural language processing covers latest datasets for natural language processing and information retrieval for social media like twitter the text is primarily written for graduate students and academic researchers in interdisciplinary areas of electrical engineering electronics engineering computer engineering and information technology

Doctor Dilemma 1998-12-07

lists citations with abstracts for aerospace related reports obtained from world wide sources and announces documents that have recently been entered into the nasa scientific and technical information database

Effects of Disease on Clinical Laboratory Tests 1989

the regional and transregional in romanesque europe considers the historiography and usefulness of regional categories and in so doing explores the strength durability mutability and geographical scope of regional and transregional phenomena in the romanesque period this book addresses the complex question of the significance of regions in the creation of romanesque particularly in relation to transregional and pan european artistic styles and approaches the categorization of romanesque by region was a cornerstone of 19th and 20th century scholarship albeit one vulnerable to the application of anachronistic concepts of regional identity individual chapters explore the generation and reception of forms the conditions that give rise to the development of transregional styles and the agencies that cut across territorial boundaries there are studies of regional styles in aquitaine castile sicily hungary and scandinavia workshops in worms and the welsh marches the transregional nature of liturgical furnishings the cultural geography of the new monastic orders metalworking in hildesheim and the valley of the meuse and the links which connect piemonte with conques the regional and transregional in romanesque europe offers a new vision of regions in the creation of romanesque relevant to archaeologists art historians and historians alike
